EMBASSY OF SWEDEN

As the new Ambassador of Sweden to Thailand I am honoured and delighted to extend my warmest greetings to you.

In today's interconnected global landscape, platforms that foster collaboration and communication are more crucial than ever. The SweCham Member Directory serves as a useful tool to the Thai-Swedish business community and is also a comprehensive testimony of its vitality and diversity. It not only provides a valuable resource for all stakeholders but reflects in addition the dedication and collective efforts that continue to drive the bilateral relationship between Thailand and Sweden. It is therefore with great pleasure that I extend my congratulations to the Thai-Swedish Chamber of Commerce on unveiling its latest edition of the Member Directory e-book.

The Embassy of Sweden is deeply committed to nurturing and enhancing the already robust partnership that exists between our two nations and societies. As we embark on this journey together, I am confident that initiatives taken by both the Chamber and the Embassy, as well as the active engagement of the Thai-Swedish business community, will play an important role in further deepening and strengthening these ties.

I would like to mention one important initiative that the Embassy, together with Business Sweden and partners, are currently working on. Sweden's 'Pioneer the Possible' platform is a collaborative initiative aimed at promoting sustainable development and green solutions in various fields. The platform serves as a catalyst for fostering partnerships and knowledge exchange to address pressing global challenges. With a strong focus on sustainability, the platform encourages forward-thinking ideas, showcases Swedish expertise, and creates opportunities for collaboration in areas such as clean energy, circular economy, digital innovation, and social impact. In Thailand we will focus on energy efficient manufacturing. If this sounds interesting to your company, do not hesitate to contact the Embassy or Business Sweden.

Finally, let me express my overall gratitude to the Thai-Swedish Chamber of Commerce and to Business Sweden for being instrumental in fostering a conducive environment for fruitful cooperation and for enhancing our bilateral trade relations. Let me assure you that I am eager to continue the work, together with partners from the business community to strengthen the Thai-Swedish partnership and bonds across various domains. Together, we can foster innovation, sustainable solutions and continue building lasting and meaningful relations.

Sincerely,

Anna Hammargren
Ambassador

CAMFIL'S SUSTAINABILITY ENGAGEMENT AND VISION

" For 60 Years, We have been on a journey to help people breathe cleaner air.

While clean air may be invisible to the eye, its benefits on health, sustainability, and saving are clearly visible - making our vision even more relevant today. "

- Mark Simmons, CEO Camfil Group

BUSINESS SWEDEN

On behalf of Business Sweden, I am delighted to extend our sincerest greetings and convey our heartfelt appreciation for the continued partnership with the Thai-Swedish Chamber of Commerce. As we gather once again for the annual membership directory, it is an opportune time to reflect on the journey we have undertaken together and a tremendous potential that lies ahead.

Business Sweden firmly believes in the power of collaboration, and the Thai-Swedish Chamber of Commerce plays an integral role in facilitating robust connections between businesses from both our nations. Through this invaluable platform, we have seen numerous success stories, and our commitment to strengthening the bonds between Sweden and Thailand remains unwavering.

Today halfway through 2023, we have witnessed Thailand's highest GDP growth since the onset of the Covid-19 pandemic, and the growth is expected to continue throughout 2023. According to World Bank, growth is projected to accelerate from 2.6% in 2022 to 3.9% in 2023 thanks to a stronger than expected demand from main trading partners, and a recovery in tourism. Also, the current account balance is expected to reverse from its deficit of the past two years and return to positive territory in 2023 at 2.5 % of GDP thanks to a healthy level of trade both in goods and services.

Sweden has around 100 companies with subsidiaries in Thailand, offering products and solutions within diversified range: from automotive, rail and industrial equipment, to services, retail, and consumer goods. Every year there are approximately three new businesses entering the Thai market. Overall, Swedish exports to Thailand have increased by roughly 25% in 2022 (630 million USD in goods and 250 million USD in services), and the positive trend is seen to continue during this year as well. This makes Thailand Sweden's second largest export market in Southeast Asia, surpassed only by Singapore.

The Business Sweden office in Thailand has been driving a large number of engagements during this year and noticed an increasing interest from Swedish businesses. Our assignments are, by nature, very diverse and often confidential, but a few highlights can nevertheless be mentioned. We have deepened our engagement and collaboration with Thai MNCs, whom in many ways are driving Thailand's green transition.

Furthermore, we recognise the Thai government's dedication to sustainable practices and green initiatives, aligning closely with Sweden's core values of environmental responsibility. This shared commitment paves the way for collaborative efforts that can address global challenges and create a more sustainable future for generations to come.

In 2023 we are arranging three delegations to Sweden where some 100 Thai government and business leaders will learn about Swedish solutions in water and wastewater management, as well as circular economy. We are also attentively observing the paradigm shifts in mobility & transportation, by mapping the opportunities for Swedish sustainable transportation solutions in Thailand.

In conclusion, I extend my deepest gratitude to the entire Team Sweden (Embassy of Sweden, Thai-Swedish Chamber of Commerce, Business Sweden), and each member of the Thai-Swedish Chamber of Commerce for being an essential part of our journey. Together, we shall continue to explore new avenues, foster innovation, and achieve mutual prosperity in the ever-evolving landscape of global trade. Wishing you all continued success and looking forward to further strengthening of our partnership.

Kacper Pierzynowski
Country Manager, Business Sweden Thailand

HYBRID WORKSPACE IS NOW ON YOUR DOORSTEP.

It's our mission to help you find the best way of working possible. A way that reduces commuting, cuts emissions and helps you stay focused and productive. It's why we built the world's largest workspace network. Because we want you to enjoy a great day at work.

SWECHAM

I am very pleased to announce the release of our Member Directory 2023/24 - now in its 3rd edition as an e-book. This digital directory offers searchability, easy navigation, downloadability, and shareability, allowing businesses and the general public to explore our esteemed members and gain insights into the Thai-Swedish business community. It serves as a convenient gateway to information that can be readily shared with interested individuals.

Approaching our 35th anniversary in 2024, we are dedicated to strengthening Thai-Swedish business relations through various celebrations and events.

As a forum and voice for the Thai-Swedish business community, we have fostered business, trade, and investments between our nations. Through various activities, including e-newsletters, websites, social media platforms, seminars, and symposiums, we actively promote our members' products and services. Exciting projects, such as the Swedish Education and Career Days in collaboration with our Embassy and the launch of a new supplement in the Bangkok Post, exemplify our commitment to advancing our members' interests.

Thailand continues to present promising opportunities for Swedish industries as the second largest economy in ASEAN with a population of around 70 million. Notably, Thailand's emergence as a regional hub for electric vehicle (EV) production offers attractive prospects for Swedish investors specialising in advanced technologies and sustainable environmental solutions. Sweden excels in areas such as sustainability, the green circular economy, digitalisation, defence, power generation and distribution, 5G, and sustainable transport solutions.

Despite a recent downward revision of Thailand's GDP growth to around 3%, the tourism sector is recovering well, with an estimated 30 million visitors expected this year. To ensure sustained progress, we advocate for further liberalisation of the service sector and improved business facilitation measures. Additionally, we strongly support expeditious and successful Free Trade Agreement (FTA) negotiations between Thailand and the European Union, enhancing Thailand's competitiveness in the region.

In the realm of advocacy, we actively engage in dialogues with Thai ministries and governmental agencies through our membership in the Board of Trade, the Joint Foreign Chambers of Commerce in Thailand (JFCCT), and the European Association for Business and Commerce (EABC). Our aim is to facilitate a conducive business environment in Thailand, ensuring that the needs and concerns of our members are effectively communicated and addressed. For more detailed insights into our advocacy efforts, I encourage you to download the SweCham White Advocacy Paper from [our website](#).

Our close collaboration with the Swedish Embassy and Business Sweden as Team Sweden enables us to better serve the Thai-Swedish business community. We would like to warmly welcome the new Swedish Ambassador to Thailand and the General Manager of Business Sweden and anticipate fruitful cooperation. With a new Board and dedicated office staff including the new staff addition Events and Marketing Officer, we are well-prepared to overcome challenges and enhance the chamber's role as we approach our momentous 35th anniversary in 2024.

Peter Björk
SweCham President

KIS INTERNATIONAL SCHOOL. ONE SCHOOL, TWO CAMPUSES.

KIS International School is growing with the opening of our state-of-the-art campus in August 2024. As a leader in International Baccalaureate Education, our students are inspired to become life-long learners, successful leaders, and responsible global citizens. **We are the only school in Bangkok to offer all four international Baccalaureate Programmes** (IB Primary Years, IB Middle Years, IB Diploma and IB Career-related), ensuring an academically rigorous curriculum that not only prepares students to be successful at university, but also teaches important life skills.

KIS Reignwood Park will open with grades EY1 through Grade 9, offering day and boarding options for grades 3 and above. Our class of 2023 scored an IBDP average of 34 points, above the global average of 30 and received an impressive 173 offers from 103 universities across 15 countries.

World Bank: How floods and droughts are impacting the Thai socio-economy

The World Bank forecasts that the Thai economy will continue to accelerate this year to 3.9 percent from 2.6 percent last year due to private consumption growth and a recovery in tourism. Despite the stable recovery, Thailand still faces several key challenges that needs to be addressed to avoid an economic disruption - these include an aging population, climate disruption, declining export competitiveness, high household debt, and political instability.

The Thailand Economic Monitor report published recently in June 2023 highlights specifically the extreme vulnerability the country faces when it comes to floods and droughts, and how a more robust framework for effective climate adaptation will be needed to avoid the high costs associated with damages caused by floods and droughts.

Thailand currently ranks ninth globally in the INFORM index of risks from floods, below Vietnam, Myanmar and Cambodia. Floods are by far the greatest natural disaster facing Thailand in terms of socio-economic impacts. The 2011 floods, which was a 1 in 50-year event with the highest amount of rain recorded since 1901, caused 680 deaths, affected nearly 13 million people and resulted in damages and losses to the economy worth an estimated THB 1.43 trillion (US\$ 46.5 billion) equivalent to 12.6 percent of GDP.

Severe floods again in October 2022 resulted in Government relief spending of THB 23 billion or US\$

663 million (0.13 percent of GDP). The greater Bangkok area which accounts for a significant part of the population and economy (Figure 1) remains especially vulnerable to flooding, despite the flood control measures introduced since 2011.

Droughts in Thailand are also becoming more severe. A severe drought in 2020, which was driven by a shorter monsoon period and a strong El Niño event caused impacts to water supply, water quality, crop production and the economy, with an economic loss of THB 46 billion (US\$ 1.4 billion) according to Sowcharoensuk & Marknual (2020). Other recent droughts include the 2005 event, in which 11 million people in 71 provinces were affected by water shortages, the 2008 event where over 10 million people in rural areas were affected (Ikeda & Palakhamarn, 2020), and the 2015-2016 event, which affected the upper-middle part of the country most. The 2015-2016 drought was so severe that at the Ubolrat dam, in Northeastern Thailand, steps were taken to use “dead storage”, or the last 1 percent of water in the bottom of the reservoir (CFE-DMHA, 2022).

Overall, the National Disaster Relief Centre estimates that drought events between 1989 and 2017 caused more than THB 19.1 billion (\$0.6 billion) of damage to the Thai economy, with average annual economic damages of almost THB 0.6 billion per year (\$20 million).

Figure 1: GDP in Thailand by region (%)

Climate change is increasing the frequency and intensity of floods and droughts.

Changes in weather patterns resulting from climate change are increasing the impacts of floods. Although there remains some uncertainty in the modelling, current projections suggest that there will be an increase in the annual precipitation rates in Thailand. Moreover, the increases in rainfall are predicted to occur during the wet season, suggesting an increase in susceptibility to flooding. In 2017, rainfall anomalies exceeded those of 2011.

Although total precipitation is expected to increase, there will also be more dry days outside the wet season, leading to an increase in the frequency and severity of future droughts.

Thailand will be more susceptible to El Niño-related droughts and the frequency of ‘severe meteorological droughts’ will increase substantially after 2050 in high emission scenarios. Higher average temperatures will exacerbate the effects, as will rising sea levels and saline incursion. Table 1 below provides an overview of the population exposed to extreme river floods from 1971 to 2004 and the projections for 2035 to 2044 based on the average of the four climate emission pathways.

Table 1: Estimated number of people in Thailand affected by an extreme river flood
(Extreme flood is defined as being in the 90th percentile in terms of numbers of people affected for 1971–2004 and for the future period 2035–2044 (ADB and World Bank, 2021))

Estimate	Population Exposed to Extreme Flood (1971-2004)	Population Exposed to Extreme Flood (2035-2044)	Increase in Affected Population
16.7 Percentile	312,568	1,194,555	881,987
Median	886,335	3,177,190	2,290,855
83.3 Percentile	2,184,124	4,941,744	2,757,620

Source: ADB and World Bank, 2021.

As the intensity and frequency of floods and droughts increase, economic costs will also grow.

The Thai government lost an estimated 3.7 percent and 2.6 percent of tax revenues in 2011 and 2012 respectively because of flooding. The public sector faced THB 141 billion of losses to property and an estimated reconstruction bill of THB 388 billion (3.4 percent of GDP). In 2019, it was reported that the government provided THB 25 billion (0.15 percent of GDP) to farmers to compensate directly for damage to crops from drought and floods. Further measures to support affected farmers were also announced with a cost of THB 60 billion (0.36 percent of GDP).

A 1 in 50-year flood, like the 2011 flood, in 2030 would cost more than 10 percent of GDP in lost production. As climate change increases the severity and frequency of floods, the economic costs will also grow.

Key sectors which drive the Thai economy – agriculture, tourism and industry – are particularly vulnerable to floods and droughts. Collectively these sectors account for around 50 percent of the country’s GDP. Moreover, 30 percent of the population work in agriculture alone, and drought not only poses major threats to their incomes but food security more broadly.

Progress has been made to better cope with floods and droughts but some challenges remain.

Since the establishment of the Office of the National Water Resources (ONWR) in 2017, the coordination of the different entities involved in flood and drought management has substantially improved and ONWR has increasingly supported the planning of flood and drought mitigation measures. However, several other recommendations of the Post Disaster Needs Assessment of the 2011 floods should be addressed as priorities.

Aging infrastructure requires retrofitting and upgrading for climate adaptation. For example, major dams like the Bhumipol, Sirikit and Vajiralongkorn dams built in the 1960s-1980s have sedimentation rates of about 30 percent, substantially reducing their storage capacity.

Spending on maintenance and rehabilitation of hydraulic infrastructure also needs to be increased, as only about 4 percent of the water resources management budget is spent on the maintenance of the infrastructure currently. Furthermore, expansion of flood protection infrastructure in key provinces including Bangkok, Nakhon Ratchasima and Nakhon Sawan warrants critical consideration.

Given these challenges, how can Thailand mitigate flood and drought risks and adapt to climate change?

The Thailand Economic Monitor provides several recommendations. First, unlike many other emerging markets, Thailand still has the fiscal space to meet rising spending needs associated with climate change if expenditure and revenue reforms are undertaken. Reforms include more targeted social assistance and raising tax revenue.

Second, investments in infrastructure for climate adaptation can be increased and more robust cost-benefit assessments will help to prioritize suitable flood and drought prevention measures. For example, increasing the water storage and drainage capacity by upgrading the existing infrastructure, developing effective community-based adaptation systems, and ensuring essential early warning mechanisms. The latest advancements to improve water use efficiency, promote a circular economy, and integrate nature-based solutions can also significantly contribute to enhancing resilience to floods and droughts.

Third, the institutional and legal reform process that started with the enactment of the 2018 Water Resources Act needs to be continued and the fragmented institutional landscape better integrated.

The World Bank Group (WBG) is the biggest multilateral funder of climate investments in developing countries. In Thailand, the WBG is committed to supporting the country's development agenda towards a more resilient economy, leveraging our access to significant funding, global reach and innovative solutions, knowledge sharing and credibility.

Currently, the World Bank is actively engaged with ONWR and the Royal Irrigation Department to support flood mitigation to enhance resilience to future flood events in the greater metropolitan Bangkok area, considering the double impact of climate change and rapid urban development. In the past, the World Bank was engaged in the water sector in Thailand and helped to lay the foundations for irrigated agriculture and potable water supply. From 1950 to 1990, the World Bank financed several projects to develop the backbone hydraulic infrastructure that is still currently relied on today. These include the two major multi-purpose dams in the Chao Phraya River Basin – the Bhumibol dam (1964) and the Sirikit dam (1973) – which were partly financed by The World Bank. These dams contributed to increasing water availability, access to electricity, and flood and drought protection across the Chao Phraya River Basin.

For more information, download the Thailand Economic Monitor: www.worldbank.org/tem or follow World Bank Thailand on Facebook: www.facebook.com/worldbankthailand.

ABOUT SWECHAM

SweCham 

Introducing SweCham: Bridging History and Modernity for Corporate Excellence!

Imagine a transformative moment in 1989, when what would evolve into the Thai-Swedish Chamber of Commerce (SweCham) came to life. Under the esteemed patronage of Their Majesties HM King Carl XVI Gustaf and HM Queen Silvia of Sweden, SweCham embarked on a remarkable journey.

Committed to supporting and elevating Swedish and Swedish-related enterprises in Thailand, SweCham's core objectives encompass promoting your business interests, fostering robust commercial ties between Sweden and Thailand, and cultivating an optimal business climate. We stand alongside you, ensuring a seamless journey towards success.

Whether you're a multinational powerhouse, an innovative SME, or a local frontrunner, SweCham is your dedicated partner.

Our diverse membership forms a vibrant tapestry of businesses, uniting under the SweCham banner, where opportunities flourish and possibilities know no bounds.

Beyond being a chamber, SweCham is your dedicated strategic partner, committed to propelling your Swedish ventures to unparalleled heights in Thailand. Together, we'll navigate the path to success and unlock new possibilities for your business.

As a united force,

SweCham collaborates closely with influential trade associations and organisations, amplifying your voice in the Thai business landscape.

Advocating for your interests, we create ripples of change that leave a lasting impact. From establishing connections with the Board of Trade to cultivating relationships with local agencies, our vast network paves the way for your success.

Meet the visionaries guiding SweCham towards excellence: our esteemed Board of Directors

Led by an exceptional President and supported by three distinguished Vice Presidents, our dedicated committees and working groups cover main key areas including sustainability, connectivity, education and programme development, ensuring that every facet of SweCham thrives.

Unlock a world of exclusive benefits with SweCham!

Tailor-made member services await you—whether you seek business referrals, updates on upcoming events and projects, enticing marketing opportunities, or strategic partnerships, we've got you covered!

Join us on this transformative journey! Don't wait another moment—connect with SweCham now!

SweCham Interns 2023

SweCham internship programme provides opportunities for interns to prepare for and enhance their professional growth in an international environment. Interns will have the opportunity to immerse themselves in various working areas with staff and other interns from both Thailand and Sweden. Through this experience, interns will develop valuable skills that could be adapted to diverse working environments. Moreover, we offer interns workshops that will enhance their essential skills in workplaces. SweCham appreciates all the collaboration and support from our interns and is delighted to be a part of their professional growth!

Internship Opportunities

About SweCham Internship Opportunities

'Interning at SweCham is a great experience! I've tried my hands on various projects and in doing so, have gained many essential skills. Working in a small team makes me feel seen and heard, even as an intern, and it has definitely made me confident more in work environment.'

-Athica Saibua

'Interning at SweCham has provided me with a truly unique experience. As an intern, I have had the opportunity to develop my abilities far beyond what I initially anticipated learning in this role. I am incredibly grateful and confident that choosing to intern here was the right decision.'

-Ditthita Saosuwan

'Interning at SweCham has been an incredibly inspiring experience, enriching my understanding of business practices in Thailand. The decision to move abroad and embark on this internship has been a remarkable and unparalleled journey. The diverse challenges I've encountered have not only expanded my knowledge but also opened doors to new career opportunities.'

-Johan Lindeson

Ingvar Krook Scholarship

SweCham would like to extend our heartfelt gratitude to Mr. Ingvar Krook for his generous contributions, which have provided funding for some of our scholars. Thanks to his support, young Swedes have been granted the invaluable opportunity to live and work in another country, gaining experience for their future careers.

“We act as a bridge between our partners, multinational companies and high calibre candidates, with ultimate benefit and in the best interests of both parties”

YEAR IN REVIEW 2022

1 September 2022
SweCham Sustainability Working Group and
Connectivity Working Group

In 2022, SweCham set up two new working groups with leading Swedish companies to support the Thailand 4.0 economic model with know-how, advocacy, and investment guidance. Behind the initiative are SweCham's Sustainability Working Group (SWG) and newly formed Connectivity Working Group (CWG) with world-leading Swedish companies as the driving force.

The working groups will cooperate as business partners with the Thai industry, universities, and government to enable Thailand 4.0 and realise the country's net zero carbon emission vision by 2065, as well as establish Thailand as a SEA connectivity hub for enterprises in the region.

Participating leading Swedish corporations in SWG and CWG are IKEA, AstraZeneca, ABB, Scania, Tetra Pak, Hitachi Energy, Volvo Car Thailand, Volvo Bus, Autoliv, Electrolux, Securitas, and Epiroc.

Business Climate Survey Launch and SweCham Networking

On 8 September 2022, the 2022 Business Climate Survey (BCS) was officially launched at the Swedish Ambassador's Residence in conjunction with SweCham's September Networking event.

The Team Sweden survey, led by [Business Sweden](#) and supported by [SweCham](#) and the [Embassy of Sweden](#), is an opportunity for Swedish companies in Thailand to share their valuable opinions on business-related matters, including their concerns and experiences.

We would like to congratulate our board member, Carl Lindwall, Trade Commissioner of Sweden to Thailand, on the successful launch and presentation. Carl held a comprehensive and engaging presentation offering key insights into the Business Climate Survey Report, followed by an exciting question-and-answer session.

We would also like to thank our Ambassador, H.E. Mr Jon Åström Gröndahl, for his warm hospitality in hosting the SweCham September Networking and the BCS Launch.

Please click [here](#) to read the full report of the 2022 Business Climate Survey.

12 September 2022
Ericsson Imagine Live

On 12 September 2022, the SweCham Vice President, Mr Tomas Julin, and Executive Director, Dr Pojanath Bhatanacharoen, attended the 2022 Ericsson Imagine Live event, which took place exclusively in Thailand at the Grand Ballroom of the Sofitel Sukhumvit Hotel.

SweCham would like to congratulate our board member, Mr Igor Maurell, Head of Ericsson Thailand, on this successful event. His presentation showcased Ericsson's expertise and key insights on the Thailand Tech-industry while highlighting innovations and technologies that could accelerate digitalisation, drive ecosystem development, upskill on new technologies, and foster innovation across industries, government agencies, and academia.

We very much enjoyed the keynote speech by our Ambassador, H.E. Mr Jon Åström Gröndahl, for his inspiring account of Ericsson's long history in Thailand and continued contribution to the country's telecommunications. We were also pleased to discuss many ongoing issues with Mr Bob Fox, the Chair of the EABC/JFCCCT Digital Economy/ICT Group.

26 September to 2 October 2022 Sustainability Expo 2022

From 26 September to 2 October 2022, we had the honour to participate in ASEAN's largest sustainability expo, Sustainability Expo 2022 (SX 2022), at the Queen Sirikit National Convention Center (QSCC).

With the support from the Embassy of Sweden and several Swedish companies, including [Altered](#), [AstraZeneca](#), [Ericsson](#), [MidSummer](#), [Optcept](#), [Veg of Lund](#), [VentPro](#), [Volvo Cars \(Thailand\)](#), and [Wallander & Sson](#), SweCham was able to bring some of Sweden's leading sustainable innovation to the public.

We would like to thank all SweCham members who came to support the Sweden booth since day one. It is a pleasure for us to bring everyone the latest sustainability innovations from Sweden, a pioneer in this field. SweCham also wishes to thank our Ambassador, H.E. Mr. Jon Åström Gröndahl for his gracious presence on the opening day and his support for all sustainable innovations.

We hope that everyone who came to our booth enjoyed learning about Swedish sustainable innovation. See you again in [SX 2023!](#)

27 September 2022
Sweden Innovation Talk

On 27 September 2022, SweCham with the support from the C ASEAN Committee organised the Sweden Innovation Talk, a talk stage session at Sustainability Expo 2022 (SX 2022) at the Queen Sirikit National Convention Center (QSNCC).

The talk aimed to provide everyone with knowledge about cutting-edge innovation from Sweden for sustainability, ranging from digital health care to water conservation, food innovation, and solar energy. We would like to thank our amazing speakers, Mr Richard Hurley, Managed Services Chief Operation Officer for [Ericsson](#), Mr Sean Too, Managing Director of [Sentinel Solution](#), Mr Lars Svensson, the founder of [Wallander & Sson](#), Mr Thomas Lundqvist, CEO of [OptiCept](#), and Dr Korn Talthip, head of medical and regulatory affairs for [AstraZeneca](#), for their insightful presentations.

Special thanks to our President, Mr Peter Björk, for the warm welcome and opening remark about how excited he was to be a part of SX 2022 and how Sweden, as a leader in the sustainability movement, can contribute to this journey with all its innovation. SweCham Executive Director, Dr Pojanath Bhatanacharoen, also served as the moderator for the Sweden Innovation Talk.

Thank you very much to those of you who attended the Sweden Innovation Talk!

6 October 2022

SweCham October Networking

On 6 October 2022, SweCham held the October Networking event at the [SPACES Empire Tower](#). The event was attended by many of our members. We are very happy to see everyone coming to socialise and network, but more importantly, to learn about the SweCham Referendum results conducted with the support of our member, [Rapid Asia](#), and our Treasurer, Mr Daniel Lindgren.

SweCham team would like to thank both our Treasurer, Mr Daniel Lindgren, for his outstanding presentation and our President, Mr Peter Björk for his opening remarks. We would also like to thank everyone for joining our event and for your participation in the discussions on the future of the Chamber.

Also, big thanks to [IWG](#) who provided us with a beautiful venue for the event!

11 October 2022

Sustainability for Business Forum 2022: Technology as Enabler

On 11 October 2022, SweCham had the honour of co-organising the 5th edition of the 'Sustainability for Business Forum 2022: Technology as Enabler' with the [Franco-Thai Chamber of Commerce \(FTCC\)](#) and [Netherlands-Thai Chamber of Commerce \(NTCC\)](#) at the Bangkok Marriott Marquis Queen's Park Hotel.

The mission of this forum is to provide a platform to enable connections with relevant sustainability partners and potential services to get inspired by leading sustainability initiatives and projects. The event revolved around three tracks with both panel discussions and duo presentations: Green Construction, Agri- and Foods Innovation, and Sustainable Digitalisation. Plenary Session and CEO Panel followed.

We would like to extend our deepest gratitude to our sponsors [ACOEM](#), [Baker McKenzie](#), [Bouygues-Thai](#), [Dextra](#), [Ericsson](#), [Greenyellow](#), [L'Oréal](#), [Palo IT](#), [Sentinel Solution](#), [Signify](#), [SkyPoint](#), [Supernap](#), [Tetra Pak](#), and [VNU Asia Pacific](#) for making this event possible to inspire, connect, and empower innovative projects for future sustainability.

Thank you to all SweCham members and everyone who came to the event to support sustainability initiatives in Asia. SweCham also wishes to thank our Ambassador, H.E. Mr Jon Åström Gröndahl, for his considerate presence at the event. Special thanks to our president, Mr Peter Björk, our vice presidents, Mr Jan Eriksson and Mr Lars Andersson, as well as our Treasurer, Mr Daniel Lindgren, for their participation.

We hope everyone left feeling inspired and empowered to proceed with effective and innovative strategies with environmental, social, and economic performance in mind!

3 November 2022 GAC Company Visit and Networking Lunch

On 3 November 2022, SweCham team and members visited [GAC Thoresen Logistics](#), a sister company of Gulf Agency Company (Thailand) Ltd, in Chonburi. The tour started with an introduction of the company by Managing Director, Mr Julian Kordek, before being shown around the warehouse facility by Business Manager in Logistics Services, Mr Rinnu George, and ended with lunch and a networking session.

During the visit, we learned more about the 28,000 pallet positions available at the warehouse, the procedure for keeping track of stock levels, the maximisation of space, and the safety routines. It was very interesting to see the multi-use functionality in the facility since the distribution facility is BRC-certified, FMCG, and pharmaceutical graded.

GAC also believes in connection through sport. Participants were invited to the Amata Spring Country Club to enjoy a delicious lunch along with a game of golf. Everyone enjoyed the networking experience!

Special thanks to Mr Julian Kordek, Mr Rinnu George, and the GAC team for hosting this company visit and for their wonderful hospitality. We have learnt so much about the logistics, warehouse system, company's history, and their work during this fruitful trip. Thank you very much to all who attended, and we hope that everyone gets to know GAC better through this visit.

22 November 2022

APAC SwedCham Webinar: CEO Talk: Mats Rahmström, President and CEO of Atlas Copco Group

Atlas Copco's decentralised and collaboration-based approach to driving innovation and reaching sustainability goals has been at the heart of the webinar. Over 100 participants participated in the APAC SwedCham webinar with the special speaker, Mr Mats Rahmström, President and CEO of Atlas Copco Group. Ms Eugenia Fabon Victorino, Head of Asia Strategy at SEB, acted as the moderator.

Key factors that Mr Rahmström mentioned as a foundation for 150 years of sustainable success are innovation and orientation towards creating value for customers. Besides that, challenging staff and the company through a decentralised organisational structure and lifelong learning are core characteristics of the company. Furthermore, the discussions focused on market share and Asia's importance as a 'local' market, especially in Southeast Asia and China. In the concluding remarks, we reflected on what role companies play in that dynamic.

Special thanks to Mr Mats Rahmström and Ms Eugenia Fabon Victorino. Big thanks and big congratulations to SwedCham Singapore for hosting this successful event!

APAC SWEDCHAM WEBINAR

Innovation and sustainable thinking lies at the heart of Atlas Copco's operations, when turning industrial ideas into business-critical benefits

MATS RAHMSTRÖM
CEO, Atlas Copco Group

24 November 2022

SweCham Members Dinner

On 24 November 2022, SweCham had the honour of hosting our annual Members Dinner at the [Oriental Residence Bangkok](#). We would like to thank all members and friends who took part in this amazing evening with excellent speeches and networking.

The evening was opened by our Vice President and Co-Chair for the SweCham Connectivity Working Group, Mr Tomas Julin, who welcomed everyone and introduced the speakers, Mr Igor Maurell, Head of [Ericsson Thailand](#), and Mr Ekaraj Panjavinin, Group Managing Director of True Digital Solutions at [True Digital Group](#).

Mr Igor spoke about the opportunities for 5G in Thailand, but also the challenges and hurdles to overcome in order to expand 5G locally. Mr Ekaraj introduced us to the next level of business transformation and how cutting-edge technology can drive business growth. We would like to extend our deepest gratitude towards both speakers for the very interesting sessions. Following the speeches, a four-course meal was served along with a free flow of beverages and networking.

We would like to give special thanks to our sponsor for the evening, [WeCare by EQHO](#), for their generous support. We would also like to warmly thank everyone who came to join the event and wish to thank the Ambassador, H.E. Mr Jon Åström Gröndahl, for his gracious presence and support to the Thai-Swedish business community.

13 December 2022

SweCham Traditional Christmas Dinner

On 13 December 2022, SweCham had the honour of hosting the SweCham Traditional Christmas Dinner at [Lancaster Bangkok Hotel](#). We had a wonderful time with you all and hope you enjoyed the festive fun as much as we did!

The evening began with an amazing Lucia performance by students of [NIST International School](#), followed by a welcoming remark from our President, Mr Peter Björk. After that, we had our traditional Swedish Julbord, as well as the annual Christmas Quiz and Raffle Game. We congratulate all the winners and thank you for your kind participation in all activities.

We would like to warmly thank SweCham members and everyone else for making this event possible. We would also like to extend special thanks to our Silver Sponsor for the evening, [Deemoney](#), and many raffle sponsors who generously supported the event, including [Aleenta Resorts & Spa](#), [Bangkok Anti-Aging Centre](#), [BNH Hospital](#), [Electrolux](#), [Escape Room Thailand](#), [Foreo](#), [Fitness24Seven](#), [Ichika Omakase Japanese Cuisine](#), [IKEA](#), [Lancaster Bangkok Hotel](#), [LAOTENG](#) at [Arnoma Grand Bangkok](#), [Tetra Pak](#), [Thanyapura Sports & Health Resort](#), [The Landmark Bangkok Hotel](#), [The Legend – Chiang Rai](#), [Rapid Asia](#), and [Ventisi](#) at [Centara Grand](#).

Finally, a big thank you goes to our Event Partner and venue, [Lancaster Bangkok Hotel](#). Your warm hospitality and excellent service were very much appreciated!

19 January 2023

SweCham Business Networking with Jönköping University

On 19 January 2023, SweCham had the pleasure of organising a business networking event in partnership with [Jönköping University](#) at the [Rembrandt Hotel & Suites](#). The event provided a valuable opportunity for members, partners, and friends of the chamber to establish connections with potential business partners.

The highlight of the evening was a special presentation by Dr Roy Andersson of Jönköping University and Dr Kent Salomonsson of Jönköping University and University of Skövde, who discussed the topic of 'Manufacturing in Thailand Today - Meeting Future Demands.' The insights shared during the presentation were both informative and thought-provoking. We would like to express our appreciation to both of our special speakers for sharing their knowledge and expertise with us.

In addition, attendees were treated to a selection of flavourful finger foods and free-flowing drinks, creating an enjoyable atmosphere for socialising. We would like to extend our gratitude to the Rembrandt Hotel & Suites for their warm hospitality and excellent service.

We hope that attendees left the event with valuable new connections and information that will help them in their business endeavours.

9 February 2023
SweCham Social Network Club

On 9 February 2023, the first SweCham Social Network Club of 2023 brought together both SweCham members and non-members, providing a platform to network, socialise, and form new connections within the Swedish community in Bangkok.

As the evening progressed, the energy in the room continued to build, with SweCham members and friends striking up conversations and sharing experiences on various topics. There was a strong sense of community and camaraderie, showing the positive impact of connecting with individuals with similar interests.

Many thanks to our members and friends for joining our Social Network Club event. It was fantastic to see both familiar and new faces, and we appreciate your support in building and strengthening our business community.

Also, special thanks to [The Landmark Bangkok Hotel](#) and the [Rendezvous Lounge](#) for being the host venue of our event, offering us exceptional services, and serving us spectacular meals.

13 February 2023

SweCham Sustainability Working Group Meeting at ABB and Hitachi Energy Thailand HQ

On 13 February 2023, our 2nd Sustainability Working Group (SWG) Meeting of 2023 was held at [ABB](#) and [Hitachi Energy Thailand](#) HQ, gathering more than 15 participants chaired by Mr Lars Svensson. We reported on the progress of the various sustainability projects, including the SweCham sustainability events line-up as well as the sustainability goals of our participants during the discussions.

We also welcomed two new members of the SWG from the [Sweden Alumni Network Thailand \(SANT\)](#), Ms Karika Kunta and Ms Weeraya Netwong. We look forward to more collaboration with them this year!

SweCham would like to express our appreciation to ABB and Hitachi Energy Thailand, Mr Gianandrea Bruzzone and Dr Worawut Waruttamapornsri for generously hosting this meeting and providing us with facilities. Moreover, thank you so much for the awesome souvenirs! Finally, we would like to thank all participants who attended and contributed to the Sustainability Working Group.

8 March 2023

SweCham Connectivity Working Group Meeting hosted by True Digital Park

The SweCham Connectivity Working Group meeting convened at True Digital Park, welcoming experts and professionals from various sectors on Wednesday, 8 March 2023. The meeting provided an exceptional opportunity for attendees to exchange ideas, collaborate, and explore the potential of 5G networks and their transformative impact on business models in Thailand.

Throughout the meeting, participants shared case references, discussed ecosystem development, co-creation, and the role of interconnectivity, reliability, and security in enhancing productivity and safety, which were featured in several presentations, including one by the Managing Director of [True Digital Group](#), Khun Ekaraj Panjavinin and another by the President of [Ericsson Thailand](#), Mr. Igor Maurell.

Special thanks to Dr Passkon Prathombutr, Executive Vice President of [DEPA](#) who updated us on the latest development of the Thailand Digital Valley in the EEC. The meeting room was buzzing with energy as participants eagerly discussed the driving force for digitalisation of industries and the potential of the 5G network to provide a transformative shift in the industry.

Overall, the Connectivity Working Group meeting was a great success providing an opportunity for all participants to network and establish connections with potential business partners.

The SweCham team would like to extend our gratitude to the [True Digital Park](#) team for hosting such an informative and thought-provoking meeting and all the participants as the meeting has highlighted the importance of continued collaboration between industry experts and the potential for innovation through joint experimentation and collaboration.

9 March 2023

BNH Hospital Company Visit and Networking

On 9 March 2023, the SweCham Company Visit and Networking Event took place at **BNH Hospital**, offering participants the opportunity to learn more about men's health. Special thanks to Dr. Sunthai Wirotsaengthong for such an informative talk on the topic of 'A New Minimally Invasive Treatment for BPH' and BNH hospital for being the host venue.

During the talk, we learned that BNH Hospital in Thailand is a regional leader in Benign Prostatic Hyperplasia (BPH) treatment, offering innovative procedures like iTind and Rezum. As the first hospital in ASEAN to provide these minimally invasive treatments, they are trusted by patients seeking effective, cost-efficient options without hospital recovery time.

We also explored the advanced facilities and learned about the hospital's history, followed by a delightful dinner hosted by the BNH team. We would like to extend our best wishes to BNH Hospital for celebrating its 125th anniversary and express our sincere gratitude to the team for their hospitality. Thank you to all participants for joining us on this visit.

14 March 2023

APAC SwedCham Webinar: CEO Talk: Jesper Brodin, CEO of INGKA Group IKEA

The APAC SwedCham Webinar hosted by the [Swedish Australian Chamber of Commerce](#) was a conversation with the CEO of [INGKA Group IKEA](#), Mr Jesper Brodin. This discussion was moderated and led by Camilla Ballock, Chief Executive Officer of Emerging Payments Association Asia.

Mr Brodin acknowledges the challenges faced by IKEA and credits their ability to navigate these challenges to their internal compass and trust in their employees. He highlights how IKEA was initially slow to embrace the digital shift but recognised the need to meet customer demands and proactively adapt to the changing times. Mr Brodin emphasises the importance of sustainability, urging collaboration between companies and governments for synchronised decisions and circularity, while debunking the misconception that sustainability is expensive. He believes that Asia has the potential to lead progress and find solutions, emphasising the global nature of the climate crisis and the need for collective action.

We would like to thank the speakers and all the members who participated in this insightful webinar! We hope that you feel as inspired as we did!

27 March 2023

SweCham Sustainability Working Group Meeting at the Embassy of Sweden in Bangkok

On 27 March 2023, the 3rd SweCham Sustainability Working Group (SWG) Meeting of 2023 was held at the [Embassy of Sweden, Bangkok](#). The meeting, chaired by Mr Lars Svensson, gathered over 17 participants both in person and virtually from various fields and industries as well as from the [Sweden Alumni Network Thailand \(SANT\)](#).

During the meeting, working group members discussed the SweCham sustainability events line-up, the sustainability goals of the member participants as well as the collaboration with other Chambers and the [JFCCT Working Groups](#). We would like to give our warmest thanks to the Embassy of Sweden, Bangkok for hosting the meeting. We would also like to thank all the participants for their continued support and contribution during the discussions as the meeting would not have been possible without them.

The knowledge and experience that the member participants bring to these meetings are invaluable as the SWG aims to help realise Thailand's net zero carbon emission vision by 2065.

30 March 2023

SweCham Annual General Meeting (AGM) 2023

On 30 March 2023, the SweCham Annual General Meeting (AGM) 2023 was held at [Landmark Bangkok Hotel](#). We presented our activities over the past year, including a recap of projects and a financial update, followed by the election of board governors.

A big congratulation to Mr Peter Björk, who was re-elected for his 4th term as President by the SweCham Board!

At the post-meeting dinner, we were honoured to be joined by Mr Chanin Khaochan, Deputy Secretary General of the [Thailand Board of Investment](#), who shared updates on the current investment climate in Thailand and the new investment policy. We would like to extend our warm thanks to him for the interesting presentation and a very dynamic discussion.

Guests also enjoyed a delicious 4-course dinner accompanied by exquisite wine. We would like to thank our Event Partner, the [Landmark Bangkok Hotel](#), and our wine sponsor, [Spica](#), for enabling such a great dining experience.

SweCham also wishes to thank the Ambassador, H.E. Mr Jon Åström Gröndahl, for his gracious presence and continuous support of the Thai-Swedish business community. Big thanks to all our members and friends who came and took part in our AGM!

25 April 2023

Company Visit: Forestias

On 25 April, the [Forestias MQDC](#) welcomed SweCham and its members for a sustainability tour of their properties and visitor centre. The visit to this unique property development was an enjoyable and insightful experience, as we were given a comprehensive tour of their enterprise and learned more about their innovative concept. This visit also provided us with a glimpse of what the future holds for Forestias.

The Forestias is being constructed in Bangna just outside of Bangkok city centre to house 3 towers that are all located in a 12-acre forest. The concept is to offer superb community spaces and city amenities that will allow residents to 'Live urban' while still enjoying the tranquillity of nature. With over 50% of the landscape covered in green space, the Forestias is a complete lifestyle destination with amenities and venues for everyone, including retail and office spaces, health facilities, community centres and educational institutions.

Special thanks to Mr Marciano Birjmohun, Senior Vice President – Business Development at [Magnolia Quality Development Corporation](#) for kindly hosting us. We would also like to thank everyone who joined us in learning more about a sustainable development and the road towards a greener Bangkok!

27 April 2023

SweCham Business Connect with Sasin School of Management

On 27 April 2023, the SweCham Business Connect networking event, hosted by the [Sasin School of Management](#), was a success and proved to be an engaging event for everyone who attended.

The event was opened with a welcoming speech by Mr Lars Svensson, the Chief Executive of Sasin Sustainability & Entrepreneurship Center. Participants gained valuable insights into the Sasin School of Management, learning about its history, values, and mission. During the event, Mr Roy Tomizava, Chief Executive of Sasin Executive Education, also shared his expertise on 'The New Age of Enlightenment and the Challenge of Executive Education,' providing insights into the challenges faced in today's business landscape.

The evening also provided participants with the opportunity to network with fellow business professionals and exchange ideas and knowledge.

In this regard, SweCham would like to express our gratitude to everyone who participated in our event. More importantly, this event would not have happened without the generous support from the Sasin School of Management in providing us with the venue and delicious cocktail food and drinks.

Click [here](#) for the full photo book

10 May 2023

APAC SwedCham Webinar: CEO Talk: Göran Björkman, President and CEO of Alleima

The APAC SwedCham Webinar hosted by the [Swedish Chamber of Commerce China](#) was a conversation with the President and CEO of [Alleima](#), Mr Göran Björkman. This discussion was moderated and led by Mr Peter Ling-Vannerus, Chief Representative of [SEB](#) in Beijing.

Mr Björkman began by describing Alleima as a world-leading advanced materials company that manufactures high-value-added products in stainless steel and special alloys, as well as products for industrial heating. They prioritise customer needs through research, development, and regional proximity while also emphasising sustainability and reducing their carbon footprint through progressive customer partnerships. Their commitment to sustainability extends to life-changing innovations, focusing on advancements in energy transition, medical technology, and hydrogen and renewable energy.

The webinar ended with an engaging Q&A, where the participants asked a multitude of questions and received thoughtful answers from Mr Björkman. We would like to thank the speaker, moderator, and all the members who participated in this insightful webinar.

We hope that you feel as inspired as we did!

APAC SweCham Webinar:

Göran Björkman!**

18 May 2023

Sustainability for Business Forum 2023

On 18 May 2023, the 6th edition of the Sustainability for Business Forum was a tremendous success. Special thanks to the [Franco-Thai Chamber of Commerce \(FTCC\)](#), [Netherlands-Thai Chamber of Commerce \(NTCC\)](#), and [Swiss-Thai Chamber of Commerce \(STCC\)](#) for co-organising this forum with us at [The Landmark Bangkok](#).

In 2023, the forum was an incredible opportunity to connect like-minded individuals and organisations, dedicated to creating business value while positively impacting people and the planet. We are proud to have provided a platform that not only fostered partnerships but also showcased leading sustainable initiatives and projects in Asia. With your active participation, we were able to empower businesses with strategies for economic, environmental, and social performance.

A heartfelt thank you to all speakers and attendees. Your generous support, expertise, and commitment to sustainability have played a crucial role in advancing the cause of sustainable business practices.

Big thanks to our sponsors: [ABB Thailand](#), [ACOEM](#), [Amundi](#), [Artelia](#), [Baker Mckenzie](#), [BECIS](#), [Bluebee Technologies Company](#), [Greenyellow](#), [JST Group](#), [KLM](#), [L'oreal](#), [Swiss International Air Lines](#), [MAN Energy Solutions](#), [PALO IT](#), [Poolnologies](#), [Sentinel Solution](#), [Signify Commercial](#), [Suranaree University of Technology](#), and [VNU Exhibitions Asia Pacific](#)

A group of men in suits are engaged in conversation in a well-lit indoor space, possibly a lobby or hallway.

25 May 2023

SweCham Business Connect with Camfil Thailand

On 25 May 2023, the SweCham Business Connect with [Camfil Thailand](#) was held at [Rembrandt Bangkok Hotel & Suites](#). The event provided attendees with valuable insights into indoor air quality, along with fostering meaningful networking opportunities.

At the event, Mr Kongkiat Teekamongkol, Managing Director of Camfil Thailand, delivered a captivating presentation on the importance of indoor air quality. As air pollution is one of the issues faced by people in Thailand, he explained why we need a Chief Aironomics Officer (CAO), the Voice of Clean Air in our workplace. By having the CAO, we can ensure that our employees feel safe when they come to work, which improves their productivity. Attendees were not only engaged in the informative presentation, but they also received a chance to win giveaway Air Image Sensors from Camfil Thailand and explore various Camfil technologies showcased at the event.

We would like to express our heartfelt gratitude to Camfil Thailand for sponsoring the event and encouraging everyone to tackle air pollution problems. Furthermore, big thanks to all attendees for participating in this event!

10 June 2023

Swedish National Day and Midsummer Lunch Celebration 2023

On 10 June 2023, the Swedish National Day and Midsummer Lunch Celebration 2023 took place at [Lancaster Bangkok](#). Together with [Sweden Alumni Network Thailand](#), [Svenskgruppen Bangkok](#), [SWEA Bangkok](#), and the [Thai Nordic Association](#), we gathered over 70 people at the event.

At the event, a great and diverse buffet was awaiting the guests with some of the most iconic typical Midsummer dishes. After enjoying the buffet, it was time for the popular SweCham quiz, which challenged the participants with both Midsummer-related and general knowledge questions. The highlight for many was our coveted raffle game. We were delighted to give away some fantastic prizes, and we congratulate all the lucky winners.

We would also like to thank all the raffle prize sponsors for your generous support: [Aleenta Phuket](#), [Aleenta Retreat Chiang Mai](#), [akrya Manor Hotel Chiang Mai](#), [Amrapur Tailors](#), [BNH Hospital](#), [CoffeeWorks](#), [Escape Room Thailand](#), [FOREO](#), [Husqvarna](#), [jOOBOO](#), [Mammas K&K](#), [The Landmark Bangkok](#), [The Legend Chiang Rai](#), and Mr Peter Björk, our President.

SweCham would also like to express our gratitude to Ambassador, H.E. Mr Jon Åström Gröndahl for his valuable contributions to the chamber and extends our best wishes for his future missions. Thank you to everyone who participated in this event and for your invaluable support!

Year in Review 2022-2023

30 June 2023
Skål To 30 Years of The Rembrandt Hotel & Suite Bangkok!

On Friday, 30 June, the SweCham team had the honour of being invited to the Rembrandt Hotel 30th Anniversary Celebration at Rembrandt Hotel & Suite Bangkok.

The celebration began in the early evening with music, fascinating performances, and lively conversation between the attendees. Guests were then invited to the Grand Ballroom for a welcome speech by Khun Suphat Sivasiampai, Khun Chatsiri Sophonpanich, and Khun Suvir Sivasriaumphai. Afterwards, we enjoyed amusing performances, and various food and drinks provided by the hotel. The host provided ample food and drinks at various spots around the hotel, including their two famous restaurants **Mexicano** on the 4th floor and **Rang Mahal** on the 26th floor.

We really appreciated the opportunity to be a part of the grand celebration. The SweCham team would like to once again offer our congratulations to the Rembrandt Hotel on their 30th anniversary! Big thanks for your warm welcome and excellent hospitality. We look forward to continuous close working relations and to hosting many events here.

Industrial digitalization

Company Profile

ABB is a leading global technology company that energizes the transformation of society and industry to achieve a more productive, sustainable future. We have a history embedded in the development of Thailand's utility and industrial sectors since the first motor delivery to Siam Cement in 1913. ABB first established in Thailand in 1978 and since 2019 we operate with two legal entities ABB Automation (Thailand) Co., Ltd., and ABB Electrification (Thailand) Co., Ltd., with about 500 employees. Our Head Office is located in Bangkok, and we are present in several other locations, like Samutprakarn, Rayong and Saraburi to support local industrial base requirements. For more than four decades that ABB has been collaborating with individuals, authorities, and organizations, especially customers in the utilities and industrial sectors as well as in the transportation & infrastructure and building sector to support the growth of Thailand's economy.

Manufacturer/Distributor of Personal Protective Equipment under the brand "Pangolin"

Company Profile

CPL Group Public Company, a leading company in providing Personal Protective Equipment (PPE) with International Standards, manufactures and distributes a wide range of safety products under our brand name "PANGOLIN". Formally known as Safety Shoes Co. Ltd, was established over 40 years ago as the first safety shoe manufacturer in Thailand and expanded our business to manufacture safety helmets years later. As domestic industries have been raising their safety awareness, we have also expanded our business into a comprehensive safety solution provider. Additionally, CPL Group owns a world-class leather tannery, that supplies global well-known brands such as Lacoste, Adidas, Puma, and Timberland.

We were the first safety shoe manufacturer in Thailand to obtain certification from the Thai Industrial Standards Institute. Our ISO 9001:2015 quality management system is third-party assessed by Bureau Veritas and we are a gold member of SATRA, the UK's foremost research & development and test organization for Safety Footwear.

We distribute our products both domestically and internationally. We have 18 showrooms nationwide and many other distribution channels, including modern trade channels and online marketplaces.

Products and Services

CPL Group Public Company, manufactures/OEM safety shoes and safety helmets. We distribute personal protective equipment (PPE) with international standards under our brand "Pangolin" and are entrusted to be the official distributors of safety equipment manufacturers worldwide, including Sundstrom a Swedish-based world-class respiratory protective equipment manufacturer.

We distribute products including Head & Face Protection, Eye Protection, Hearing Protection, Respiratory Protection, Hand Protection, Safety Clothing, Fall Protection, Foot Protection, and Gas Detectors.

Industry/Activities

Telecommunication, Mobile Network, Communication

Company Profile

Ericsson is a world leader in information and communications technology and services with headquarters in Stockholm, Sweden. Our organization consists of more than 105,000 experts who provide customers in 180 countries with innovative and comprehensive solutions and services, ranging from Cloud services and Mobile Broadband to Network Design and Optimization. In fact, 40% of the world's mobile traffic is carried over Ericsson networks.

Ericsson has one of the industry's strongest patent portfolios with a total count of over 42,000 granted patents. R&D is at the heart of our business and approximately 23,700 employees are dedicated to our R&D activities. This commitment to R&D allows us to drive forward our vision for where everyone and everything is connected in real time - enabling new ways to collaborate, share and get informed. Net sales in 2021 were USD 26.44 billion. The Ericsson stock is listed on Nasdaq Stockholm and on NASDAQ in New York.

Ericsson commemorate the 117th Anniversary in Thailand in 2023. Ericsson also celebrates 146 years, since founding father, Lars Magnus Ericsson, officially opened the doors to his mechanical workshop in Stockholm, Sweden. The relationship between Sweden and Thailand has been strong for many years, commencing with a visit by King Rama V to Sweden in 1897.

In 1906, Ericsson deployed the first ever telephone exchange in Thailand. Alongside with customers, Ericsson pioneered 1G, 2G, 3G, 4G and now 5G in Thailand - changing the way Thai people live and communicate with each other. Ericsson is continuing to transform the country to a truly Digital Thailand through the deployment of LTE/4G as part of our commitment to ensuring Thailand realizes its full potential. We also demonstrated earlier this year, the first 5G trial for Thailand.

Industry Activities

Ship Agency, Freight Forwarding, Customs Clearance and Third-Party Logistics.

Company Profile

The GAC story started in 1956 when Swedish entrepreneur Bengt Lindwall signed an agreement with two Kuwaiti businessmen to form Gulf Agency Company to provide professional ship agency services in the country. Today, Kuwait's Shipping License "No.1" is proudly displayed at GAC Kuwait's office in Farwaniya. Lindwall's entrepreneurial spirit led directly to the establishment of GAC over sixty years ago. Over the next decade, more offices opened throughout the Middle East as oil, shipping and logistics business there grew.

Throughout the 1970s and 1980s, more GAC companies were established in the Eastern Mediterranean, Africa, Asia Pacific and the Indian Subcontinent. Further Europe, the Americas, Central Asia and Australia followed in the 1990s and 2000s. Today, GAC is now a truly global provider of integrated shipping, logistics and marine services.

Our business is about people and long-term relationships. It's one of the cornerstones of our business philosophy. We value you, whether you're our customer, our potential client, our partner, our supplier or one of our 7,500 employees at more than 300 offices in over 50 countries worldwide.

We are the GAC Group. Welcome to our world!

Products and Services

Established in 1992, GAC Thailand provides a unique combination of logistics and shipping services from offices located in Bangkok, Laem Chabang, Suvarnabhumi Airport, Sattahip, Rayong, Songkhla, and warehouses in Amata Nakorn Industrial Estate and Bang Pa In.

For Ship Agency, all Thai ports are served from mentioned offices, actively managing all types of port calls, from load and discharge to cruise and bunker only calls. Our excellent relations with local authorities ensure prompt turn-around of vessels in ports and the resolution of any problems or discrepancies that may arise.

Packaging Company, Complete-packaging solution manufacturer and thermoforming products

Company Profile

NEFAB is a global industrial packaging manufacturer based in Stockholm, Sweden, with a rich history dating back to its founding in 1949. With over 74 years of experience, NEFAB has a presence in more than 35 countries, boasting a network of over 80 sites worldwide. Our international team comprises over 4,300 employees, including a dedicated group of 250+ skilled packaging engineers, and we are equipped with ISTA test labs.

At NEFAB, we are deeply committed to delivering 'complete packaging solutions' that not only optimise the supply chain but also save on environmental and financial resources. We take pride in our position as pioneers in packaging technology and sustainability. Notably, we are owned by FAM AB, affiliated with the Wallenberg Foundations, a significant European investment entity that makes substantial contributions to various research foundations and charitable causes.

With our global presence, extensive expertise, and unwavering commitment to environmental responsibility and cost efficiency, NEFAB continues to lead the way as an innovator in industrial packaging, always striving for excellence.

Products and Services

We are a proud member of the Nefab Group, a global leader in designing and manufacturing innovative cushioning, thermoforming, and sustainable packaging solutions. Our specialisation lies in crafting eco-friendly cushioning trays and complete packaging using recycled and ocean-bound plastics. Our offerings extend to a wide range of materials, including wooden crates, corrugated boxes, PE foam, fibre-based, and wooden crates, catering to diverse industries such as automotive, LiB, semiconductor, healthcare, telecom, and datacom. Our expertise centres on delivering optimised packaging solutions throughout the entire supply chain.

Hospitality

Company Profile

As captivating as its name, The Landmark Bangkok is a true icon in the vibrant city of angels. Step into the hotel's contemporary luxury design with services offering the best of Thai hospitality with an extensive range of stylish facilities that you have always dreamed of. Invigorate your senses with our diverse array of services from gastronomic excellence to individually tailored experiences. Our central location on the famous lower Sukhumvit road is next to Nana station of Bangkok's Sky Train system along with easy access to important Expressways, World Class Shopping and Convention Centers. A perfect place to rest, meet, dine or play.

Products and Services

The hotel's 399 guestrooms and suites offer elegant and spacious accommodations for business, leisure or meetings & social engagements. The recently renovated lobby welcomes you to our extensive facilities that include 25 meeting rooms with capacities from 1 to 1,000 delegates and a choice of 7 gourmet restaurants including the newly renovated and renowned Michelin Plate rated RR&B Steakhouse and Rendezvous Lobby Bar. The enduringly popular Greenhouse Congee & Noodle street side restaurant has been a favored destination for three decades and our Sui Sian Chinese restaurant serves some of Bangkok's finest Cantonese fare. The Atrium All Day Dining restaurant serves international specialties freshly prepared from the variety of cooking theatres and when it comes to people watching whilst enjoying a refreshingly cold beverage, there is no place like our outdoor Terrace.

For those with recreation in mind, our Viva Jiva Spa takes relaxation and wellness to new levels in a soothing setting while the Fitness First Platinum Gym provides the largest and most extensive fitness facility of any hotel in Bangkok at 2,500sqm or simply catch a tan and cool off in our Outdoor Swimming Pool and Jacuzzi.

Industry/Activities

Automotive

Company Profile

Volvo Car (Thailand) Ltd. is the national sales company and is a wholly owned subsidiary of Volvo Car Corporation, Sweden. VCT is responsible for the marketing, sale and distribution of Volvo Products and Repairer Services. The company was registered in Thailand in June 1971. Our head office is located at 14/2-5 Floor, Emporium Tower 622 Sukhumvit Road, Kwaeng Klongton, Khet Klongtoey, Bangkok. We have 14 Volvo Cars dealer locations around the Bangkok metropolitan and upcountry and 3 Volvo Certified Damage Repair Centers in Bangkok.

Products and Services

At Volvo Car (Thailand) Ltd. everything we do starts with people, that's why every car we import and distribute is a human-focused, functional, intuitive, and industry-leading premium Scandinavian designed car with body types to suit every consumer - sedans, estates/sports wagons, cross country, and SUVs.

Our mission is to make people's lives easier, safer, and better; this is something that comes naturally to us.

Volvo's core purpose is to give people the freedom to move in a personal, sustainable, and safe way with a car that defines their individual style and answers their own needs.

Cars have always been seen as a symbol of freedom, a way to be independently mobile.

But over time the world we live in and the way in which we all live in this world has changed, putting increased pressure on the choices we make, including when it comes to cars, as they can feel like an obstacle in today's world.

At Volvo Cars we're dedicated to changing the definition of what a car is to our customers, we want their choice of car to be the conduit to enabling a richer and more fulfilling life, one that exists in harmony with their lifestyles and the planet.

Industry Activities

Forklift Battery, High Frequency Charger and Battery Changing devices.

Company Profile

Capaciton is a Thai-Swedish supplier on the Thai market and our goal is to be a leading product and service provider within motive and standby power. Our extensive knowledge about batteries and charging in combination with our product portfolio makes us a good partner for anyone interested in efficient high quality products that will last long and have low maintenance and operational costs. We are working very closely with a broad portfolio of suppliers to be able to offer our customers an unrivaled portfolio that meets the needs of both local and international customers on the Thai market.

We have chosen to focus on cost efficient products that make the smallest possible environmental imprint. This is the reason why:

- our efficient high frequency chargers reduce electricity consumption by up to 30%
- our battery trays are sealed and powder coated to prevent acid leakage and other incidents

We regard product sales as also being a service and our service commitment is to make sure that you get the most efficient solutions adapted to your specific circumstances.

Products and Services

MicroPower, is a best High Frequency Charger from Sweden.
Jopro, a modern and cost-effective Battery Changing Device from Sweden.
And 1,500 cycles traction battery for electric forklift with most advance inter cell connector in the market.

Our service teams are specialized, swift, and effective in this field as experienced with many different needs of our customers.

Industry Activities

Defence and security company with a wide range of products and services

Company Profile

Saab is headquartered in Sweden but has manufacturing operations around the world and a large network of international offices. To support our global reach, we have established several key Market Areas. One of these is Market Area Asia Pacific; a vibrant and diverse region where Saab has had great success in delivering products, services and solutions.

Saab is well known as a provider of effective, world-class technology, but we are also proud of our reputation for trust, reliability and long-term relationship. The success of our aircraft, airborne surveillance, command and control systems, land and naval programmes in countries like Thailand is testament to the principles of advanced design, real partnership and dependable service that Saab and Sweden bring to the region.

Products and Services

Saab is active in Asia Pacific with our full portfolio, delivering proven solutions and products such as the Gripen fighter, digital air traffic management technology, submarines and naval vessels, Erieye airborne surveillance systems, the Giraffe radar family, ground based air defence systems, electronic warfare and self-protection systems, command, control and communications networks, signature management, CBRN protection, airborne platforms, advanced communication systems, ground combat and missile systems, training and simulation services, fire control and sensor systems.

Industry Activities

Activewear/ Sport apparel

Company Profile

We design sports apparel that will maximize your performance using the latest technology.

We believe that good designs should be experienced from our sweat-wicking material and anti-bacterial treatment, the most sophisticated technology is the one you aren't aware of until it begins working.

Our philosophy is to produce products of high quality that will last rather than be replaced. We created our design principles to integrate performance, versatility, and durability to cater to a new generation of high performing individuals.

Industry/Activities

Education, Training, and Consulting

Company Profile

We are a team of Thai and Swedish professionals with more than 30 years of experience in Education, Training and Consulting in Thailand, Southeast Asia and Sweden. Our mission is to empower young leaders and enthusiasts to create a sustainable future for all. We offer camps in Sweden, the leading country of innovation and sustainability, where the participants can develop their leadership skills and learn about cutting-edge sustainability practices. We also organise preparation courses for Asian students going to Sweden, university development programs and leadership training and coaching for the private and public sectors in Thailand and Sweden.
