***The Channel's gateway
to streamlined
logistics***

By rail

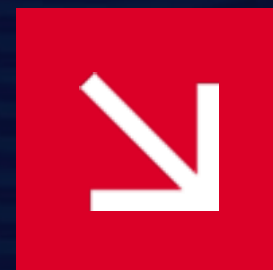

By road

By ferry

SOLVING the **CHALLENGES** of modern logistics

ndg

01

Shrinking margins:
optimise (logistics) costs

02

Stock issues

03

Pressure to reduce ecological/
carbon footprint

04

Customers expect more flexibility/
speed of delivery

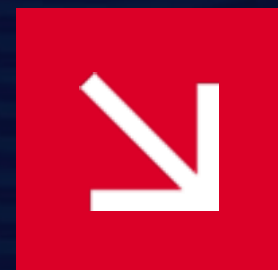

05

Delays due to traffic congestion,
customs declaration, etc.

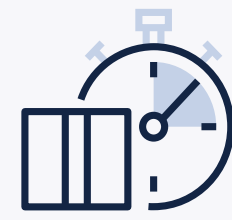

06

Customs administration

ADVANTAGES
of consolidating
your goods in
ZEEBRUGGE (BE)
INSTEAD OF
THE UK

ndg

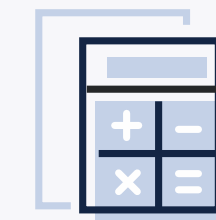

TIME-EFFICIENT

Flexible planning, less congestion and shorter shipping routes significantly enhance your delivery time.

SUSTAINABLE

We apply eco-friendly practices to reduce the ecological footprint of your logistics.

COST-EFFECTIVE

We advise on the most optimal transport solutions so you get the best value for money.

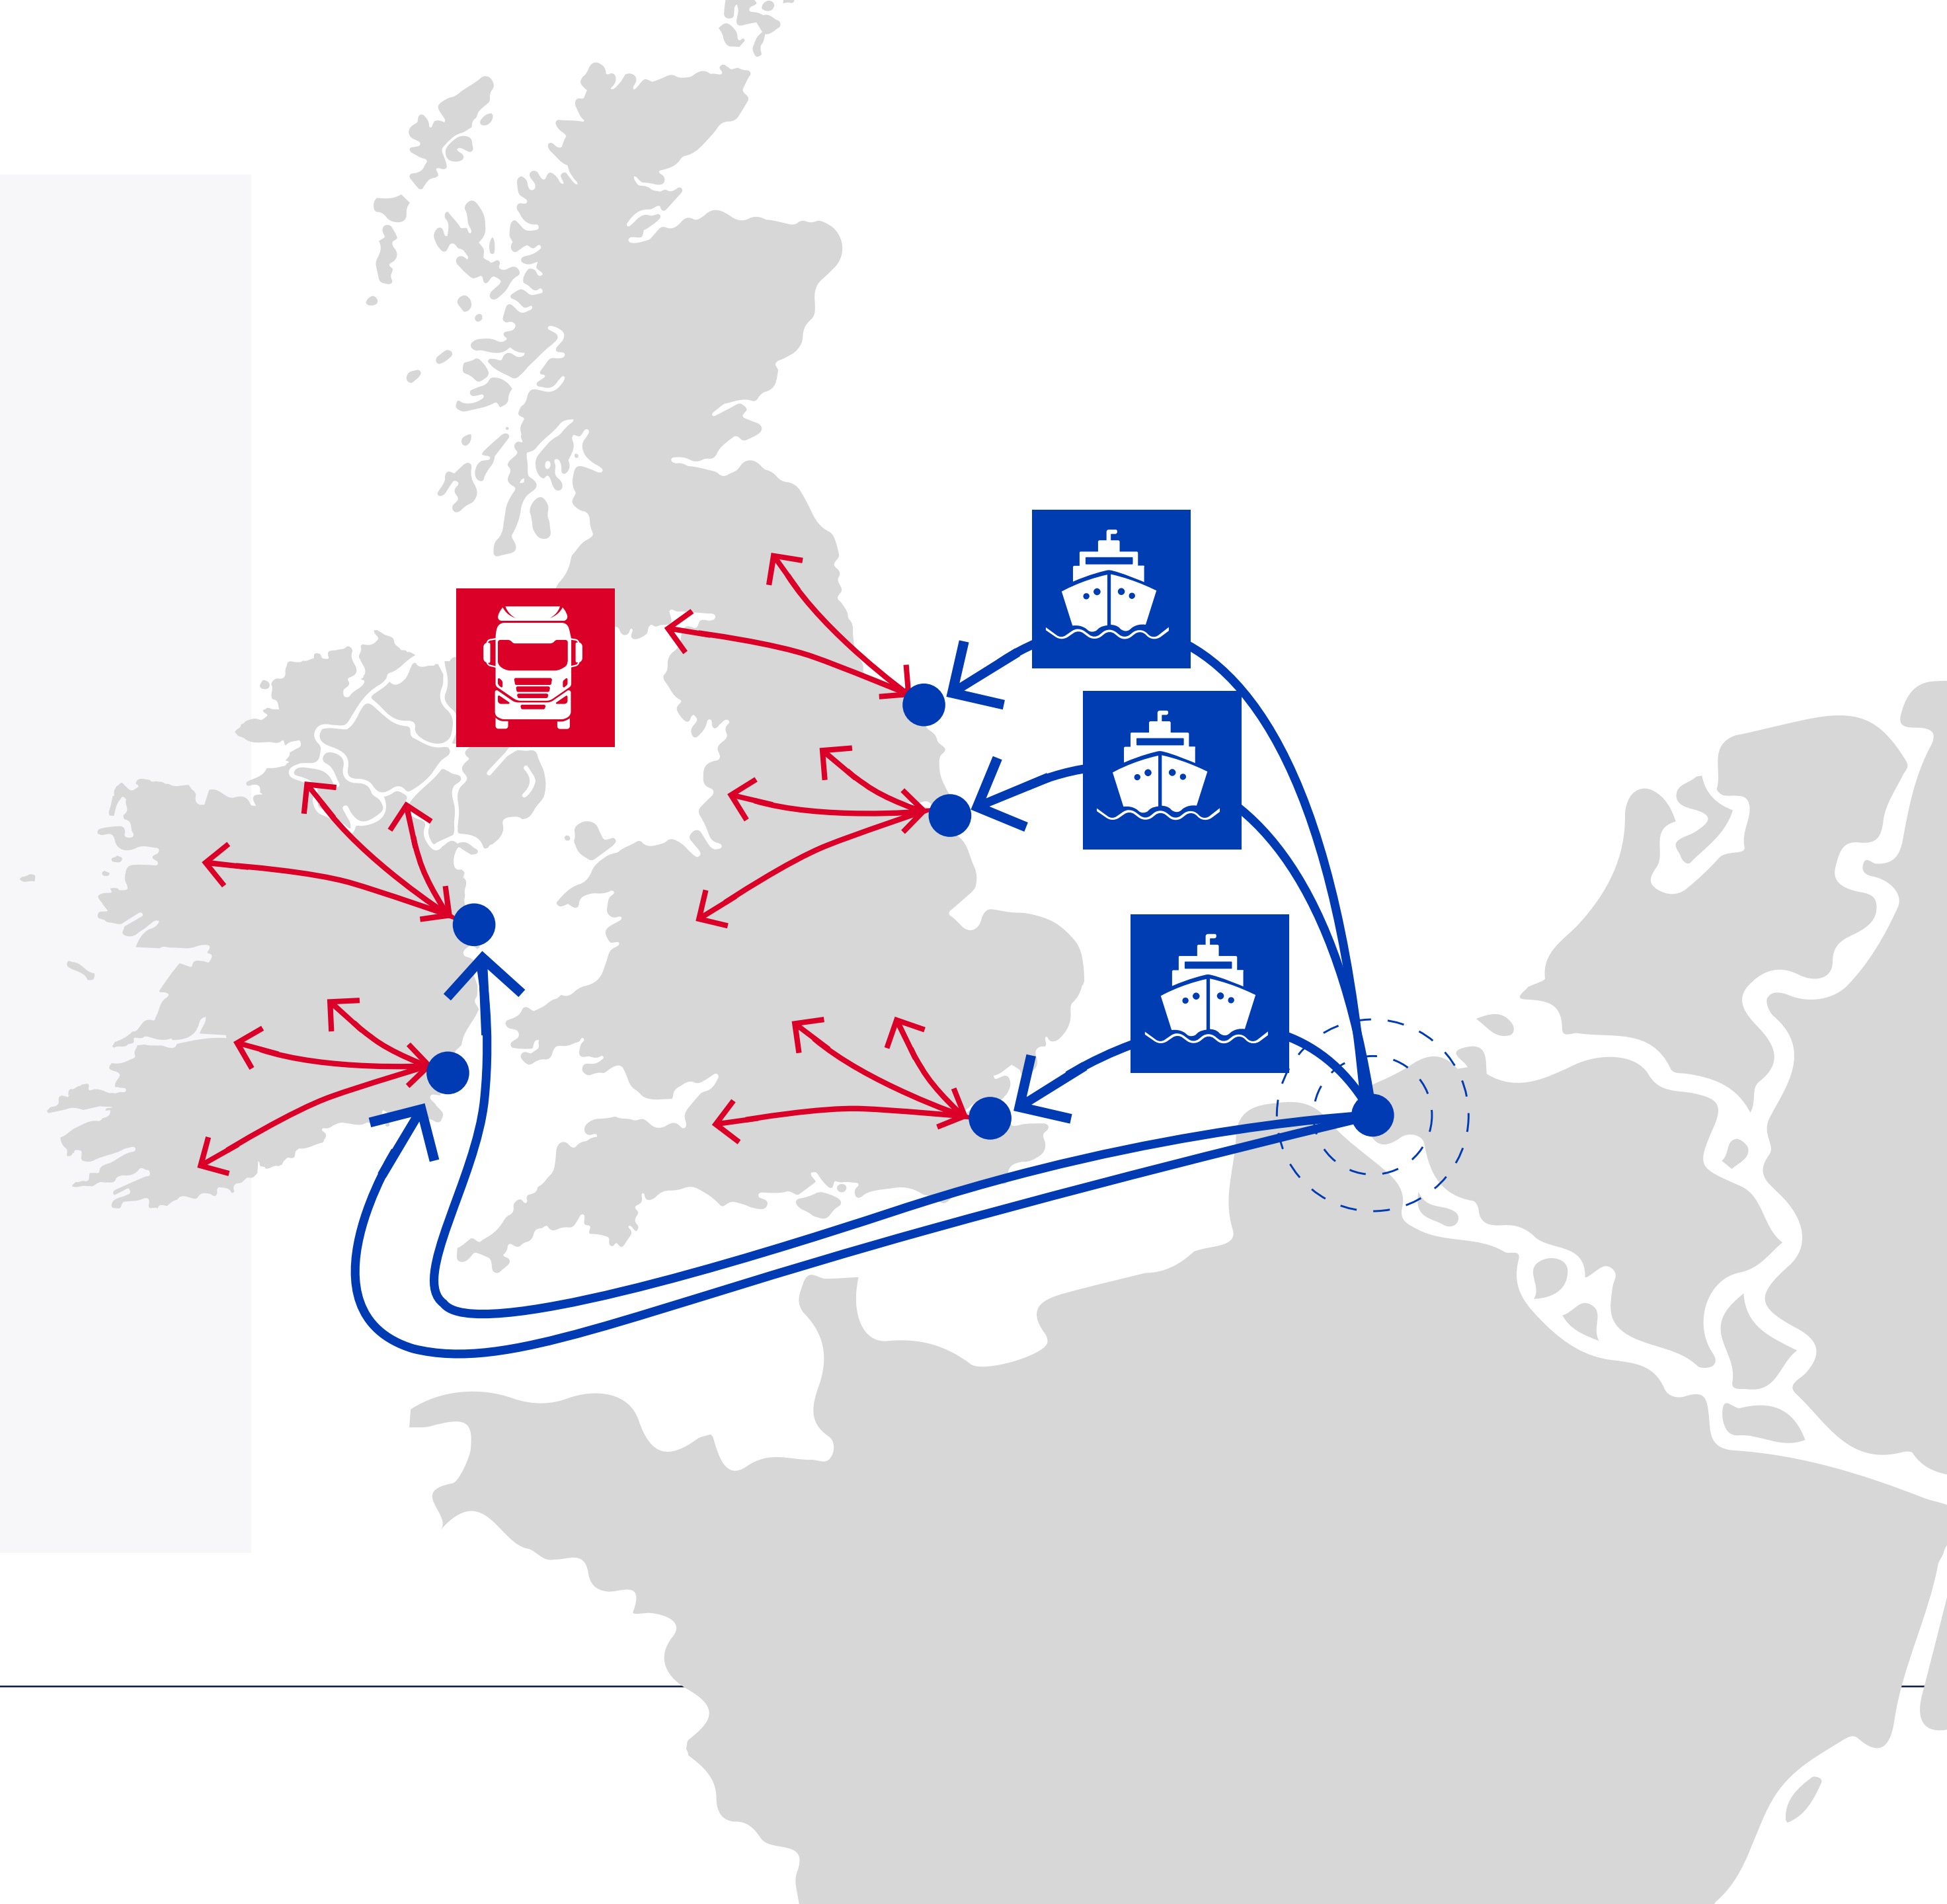

HASSLE-FREE

We tackle all customs formalities so your goods reach their UK destination stress-free.

Zeebrugge (BE), the **BEST LOCATION** for all your UK/IE import shipments

- ↘ DIRECT SHIPPING ROUTES to the nearest UK/IE port
- ↘ ONE-TIME CUSTOMS CLEARANCE for free movement across the Schengen zone
- ↘ Less administration, fewer delays, **REDUCED COSTS**
- ↘ Simplified **VAT HANDLING**

- ↘ BUFFER STOCK CLOSE TO UK
react faster to market demand
- ↘ DIRECT DELIVERY TO UK RETAILERS' DISTRIBUTION CENTRES
no need for UK warehousing
- ↘ TOP-TIER DRIVE-IN, CROSS-DOCKING
= goods in, goods out, no delay
- ↘ Storage + fulfilment & consolidation
ALL UNDER ONE ROOF
- ↘ DIRECT rail ACCESS
transport your goods right into the warehouse

Your EU mainland hub
for **SMARTER INVENTORY.**

Your ***MOST EFFICIENT***
route, ***guaranteed.***

- ↘ **INTERMODAL ROUTES**
combined for speed & sustainability

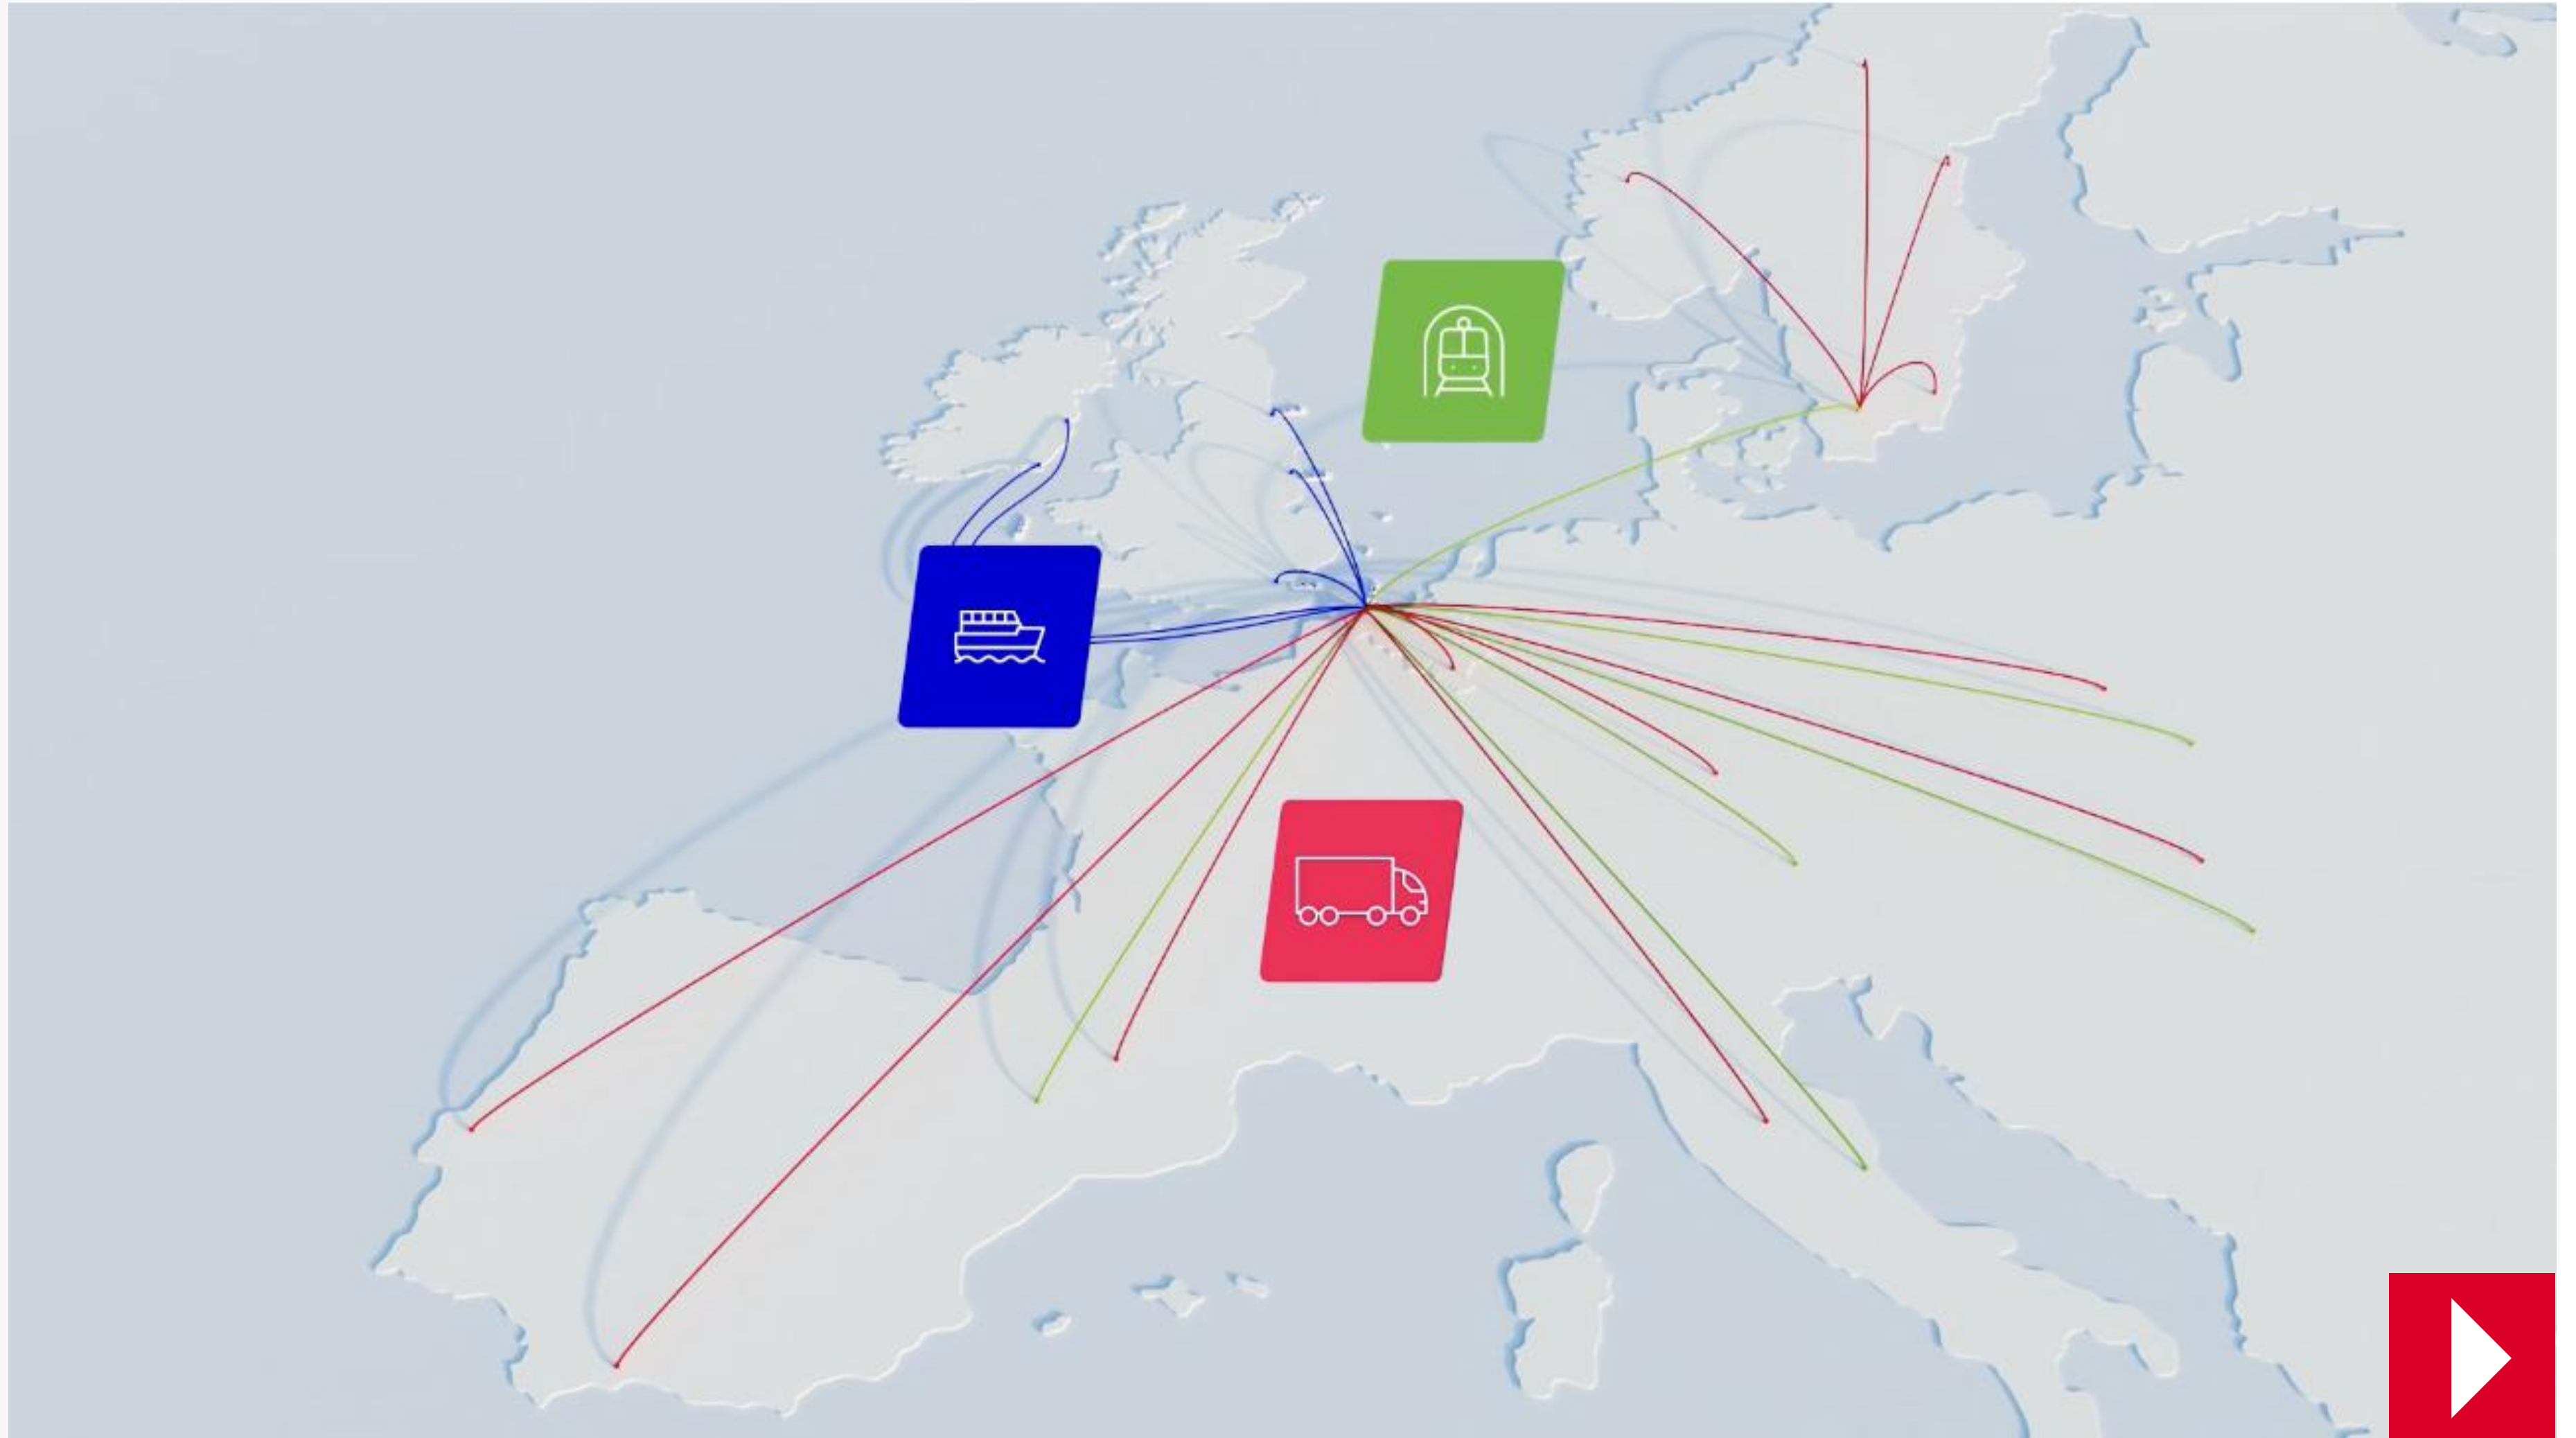

- ↘ **DOOR TO DOOR**
through a port near you

- ↘ **UNACCOMPANIED TRANSPORT**
= no waiting times for drivers

- ↘ Less congestion, fewer delays,
MORE RELIABILITY

nda

***By rail,
by road,
by ferry***

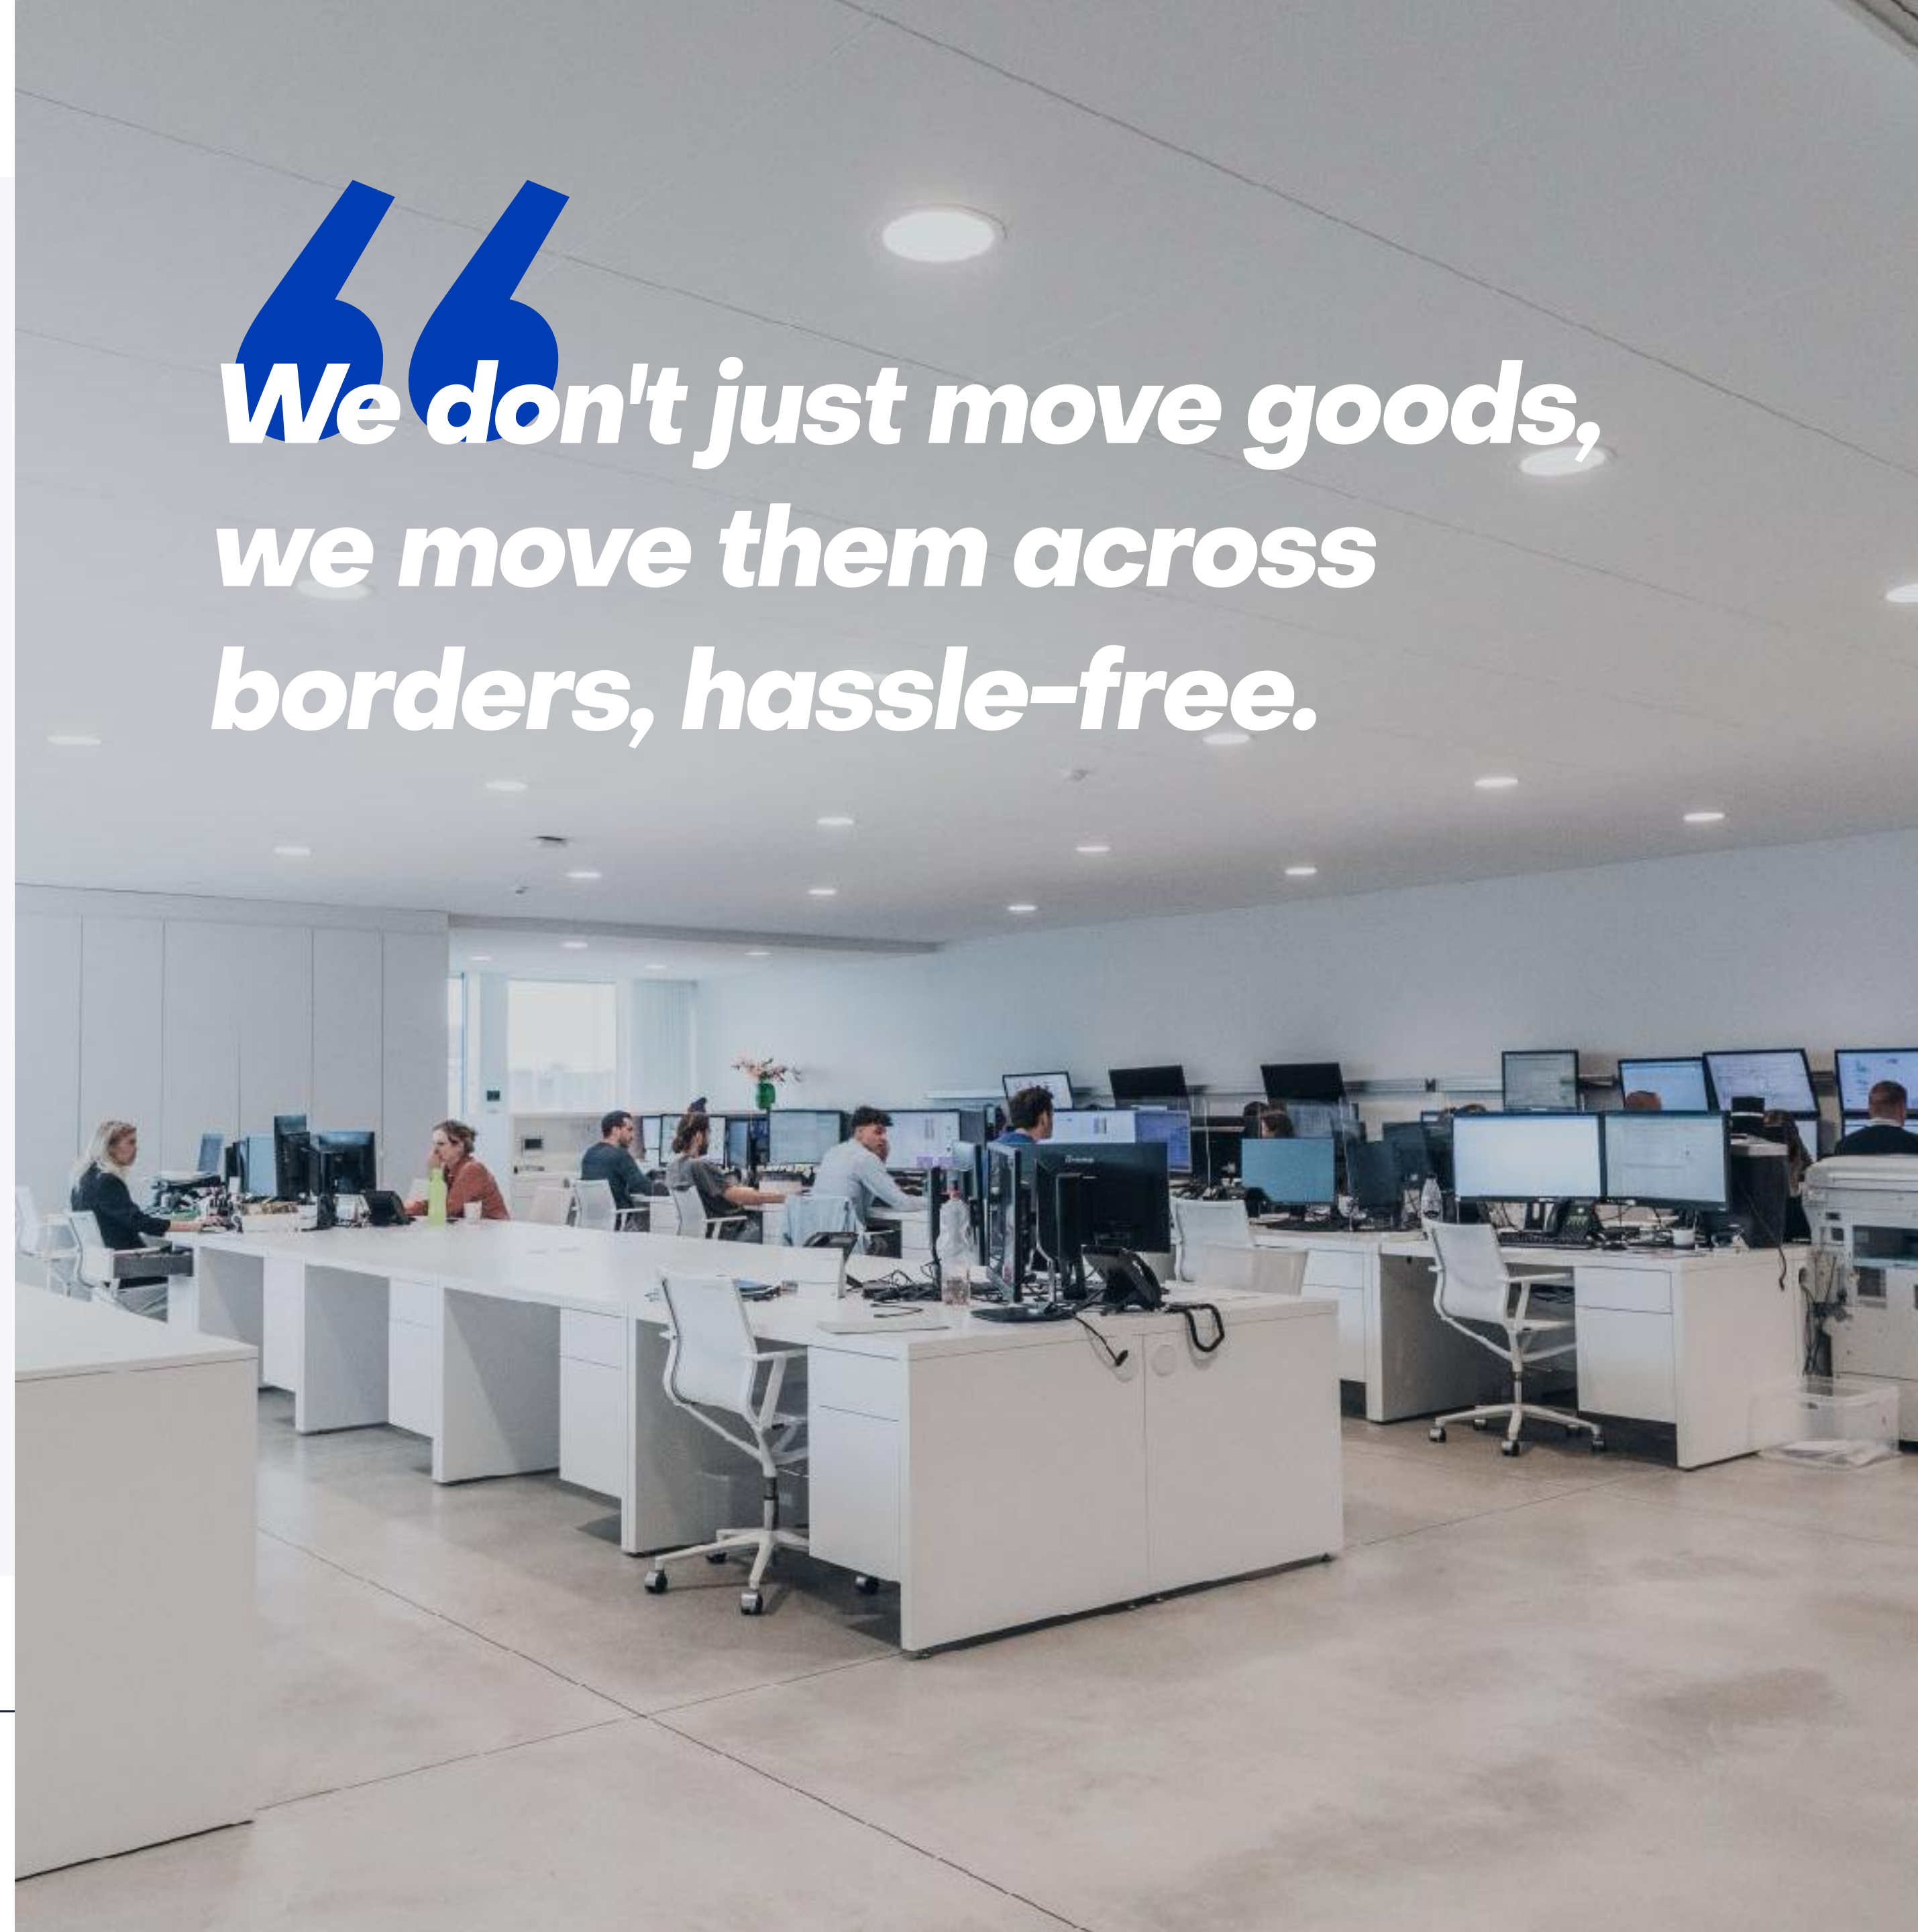

Effortless **CROSS- BORDER CUSTOMS** between the UK and EU

NDQ HANDLES ALL YOUR CUSTOMS
PROCESSES

safe, compliant and fully certified.

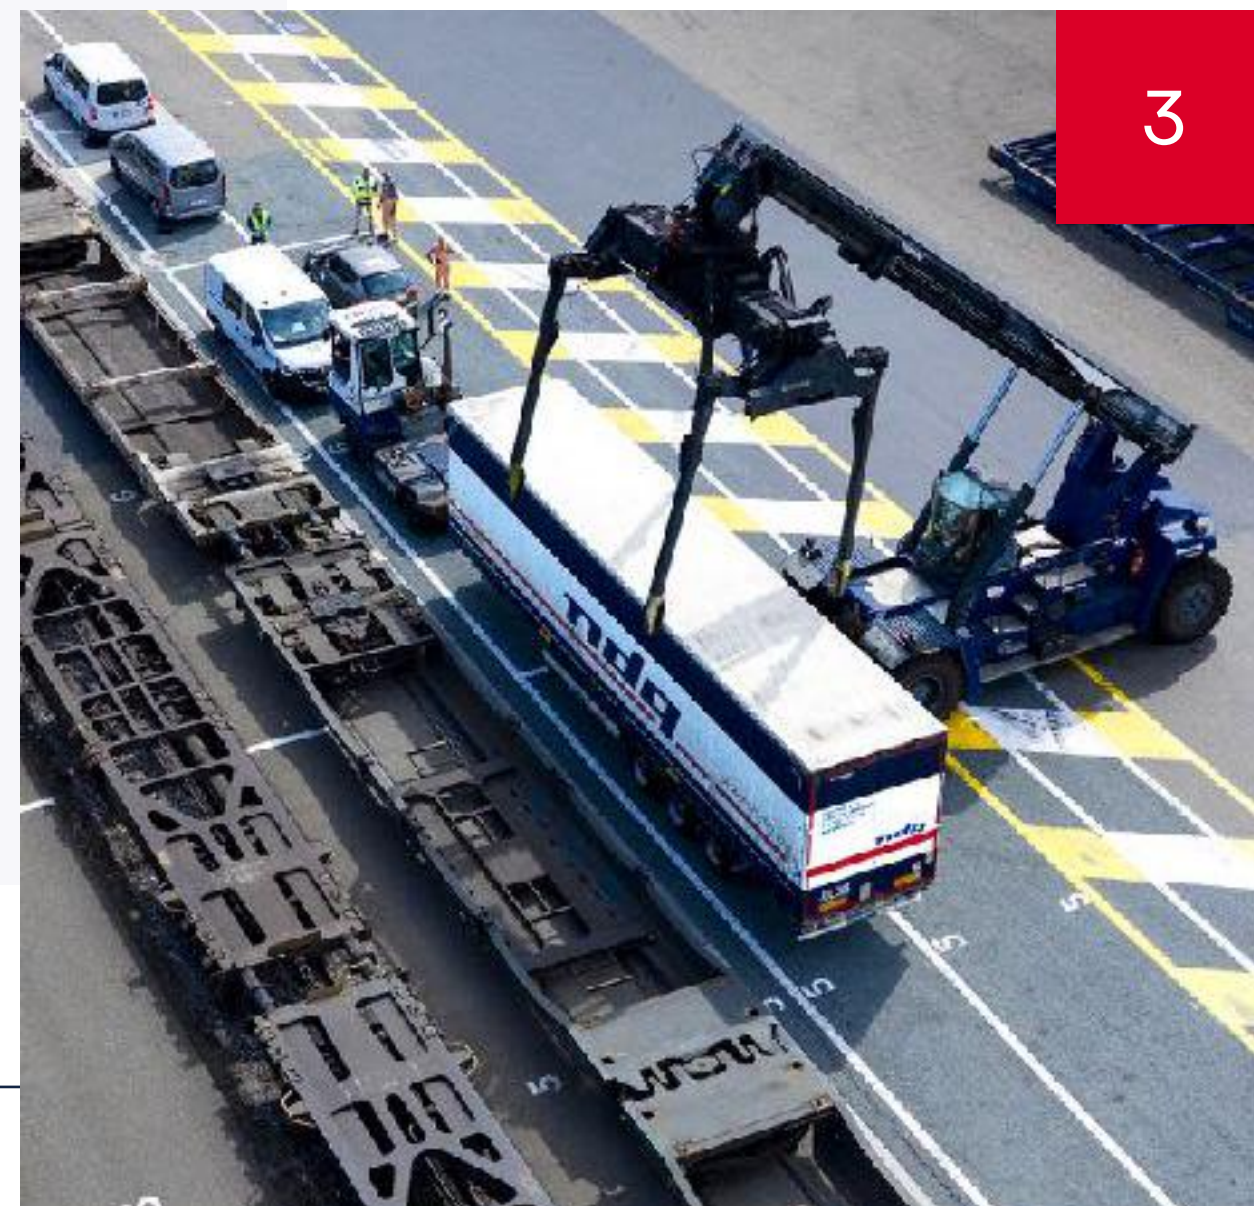

- ↘ BRCGS-certified for storage & distribution
- ↘ Approved loading & unloading place (LUP)
- ↘ Bonded warehouse
- ↘ Space for Temporary Storage (STS)
- ↘ Comprehensive guarantee authorization

**“We don't just move goods,
we move them across
borders, hassle-free.”**

SEAMLESS logistics, from first pick-up to last mile

1. **WAREHOUSING** – we store, consolidate and dispatch your goods
2. **INTERMODAL TRANSPORT** – we seamlessly transport all your goods by rail, water and road
3. **UNACCOMPANIED SHIPPING** – no truck, no driver, we just ship the loaded trailer to a port near you
4. **BREXIT-PROOF SUPPORT** – we take care of all administration, ensuring you a stress-free logistics support

CASE STUDY

Switching from 1,125 road kilometres to 100

nda

***We challenged NDQ to cut costs,
implement sustainable logistics and
reduce environmental impact***

THE CHALLENGE

**Switching from
1,125 road
kilometres to 100**

A German manufacturer was shipping goods from Stuttgart to Sheffield – over 112,500 road kilometres per month.

DISADVANTAGES

- ▲ High fuel and toll costs
- ▼ Time loss
- ▲ Rising CO₂ emissions

THE NDQ SOLUTION

**Switching from
1,125 road
kilometres to 100**

NDQ redesigned the logistics route:

- ↘ Switch to unaccompanied shipping
- ↘ Optimise departure and destination ports
- ↘ Shift to multimodal transport:
RAIL + SEA – minimise road km

RESULTS

**Switching from
1,125 road
kilometres to 100**

▼ -102,500 km

NDQ eliminated 102,500 km/month from the client's shipping routes.

▼ -30% costs

Shifting to unaccompanied transport saved 30% on driver and toll costs.

▼ -82% CO₂

Moving from road to rail transport reduced CO₂ emissions by 82%.

▼ -97% CO₂

Additionally replacing road by sea transport boosted CO₂ reductions up to 97%.

success, focussed
on ***YOUR FUTURE***

Full warehouse automation in development

BOOST PRODUCTIVITY: mobile robot solutions speed up order picking, leading to faster order fulfillment and throughput times.

ENHANCE EFFICIENCY: mobile robot solutions will assist picking operators to improve efficiency by checking quantities, moving goods to and unloading at the correct pick and deposit (P&D) station.

REDUCE COSTS: robots replace forklifts, saving energy and maintenance costs.

Built on today's
success, focussed
on **YOUR FUTURE**

Redefining your UK logistics, together
