PetLove

About Us

Through innovation and expertise, we make **Caring for creatures at home** more enjoyable and successful for everyone.

Established for more than 70 years, Interpet started with the manufacture of aquarium products and has grown over the years through product innovation, brand development and acquisition to become the broader pet company it is today.

Having established a UK based, market leading position with a reputation for great product innovation, quality and market development, in 2004 Interpet was acquired by the US giant, Central Garden and Pet.

Central's ownership created a great opportunity to introduce Interpet's products to the US market, but also to grow the strong customer relationships in the UK and Europe, by offering great potential to distribute Central's own US pet brands into new markets.

By merging the market leading, UK based aquatic brands, such as Interpet, Blagdon and Aquagarden, and pet brands Mikki and PetLove pet product brands with Central's own US brands, including Nylabone, Kaytee, Four Paws and Comfort Zone, Interpet is able to offer UK and European customers a vast portfolio of products from leading consumer brands.

Focused on customer service and support, Interpet is committed to supporting customers in growing their business and is proud to offer this great catalogue of products from brands that people want to be a part of.

Since 1991 Investors in People has defined what it takes to lead, support and manage people well for sustainable results. With a community of over 14,000 organisations across 75 countries worldwide, successful accreditation against the Investors in People Standard is the sign of a great employer, an outperforming place to work and a clear commitment to success.

Interpet's Investors in People journey began in 2012 when we committed to working with the standard. Our first assessment, against the 5th Generation Standard, took place in 2014 when we were recognised as achieving Investors in People Core Standard. In 2015, we were delighted to be recognised as Investors in People Silver. Achieved by a mere 6% of the Investors in People Community, Interpet has maintained this high 'Silver' standard.

In-House Manufacturing

Interpet has been manufacturing liquid and powder products for the pet industry for over 70 years. We operate to GMP standards and are registered with the Veterinary Medical Directorate (VMD) to produce liquid medicines for the Pet Aquatic trade.

Our capability is in the blending of bulk liquids and powders to fill a variety of bottles ranging from 25ml up to 10 litre jerry cans. This also includes the filling of 1,000 litre IBC's. Our powder filling operation ranges from small 100g bags to 10kg tubs.

The production facility is supported by an on-site Quality department with full laboratory services to provide quality and consistency using full batch control and traceability systems. Our 6,000ft warehouse facilities provides storage of both components and finished goods.

Distribution

Interpet has been working closely with Great Bear for many years. Great Bear is a leading 3rd party UK logistics business providing nationwide dedicated and shared user warehousing and distribution solutions. They operate in excess of 7 million sq. ft. of warehousing and operate a large modern commercial vehicle fleet.

THERE'S A **Nylabone** FOR THAT!

Natural instinct

Separation anxiety

Boredom

Stress

...And relax!

TEETHING & SOOTHING

Helps encourage healthy chewing habits

FOR OLDER PUPPIES

Perfect for puppies with adult teeth

LONG LASTING

Challenges even the most powerful chewers

NATURAL RUBBER

Ideal for dogs who enjoy some flex and give

EXTRA STRONG

Ideal for dogs who have a strong jaw

FLEXIBLE & STRONG

Ideal for dogs who are less aggressive chewers
