**what's new?**

## Bright LED Shot Clock

12" high, bright red LED countdown numerals are built into a sturdy 19" wide x 15" high black sheet metal cabinet with integrated signal receiving antennae. Each shot clock comes with a 30' long 110-volt power cord that plugs into any 110-volt outlet. LED lamps have a 5-year warranty, but may last a lifetime. A loud horn is integrated into each display to sound when the clock hits zero. Bison wireless signal system requires no complex interface with the gym scoreboard, making this the simplest and least expensive way to implement shot clock technology into your facility. See shot clock mounting options on a subsequent page of this brochure.

## User Friendly Control

Just plug the intuitive control panel into any 110-volt power source to operate. No complex wiring to shot clocks or existing scoreboards. The dependable wireless system sends instantaneous and simultaneous signals to the shot clock displays on each end of the court.

Control panel comes factory set at 35 second countdown to coincide with NFHS April 2021 guidance, but can be easily field reprogrammed to start countdown at other durations. Reset button, for use as rules dictate, like kicked ball for example, is permanently fixed at 20 seconds. When shot clock expires, a signal is sent automatically to each shot clock to sound a loud horn that is integrated into each display.

## Shot Clock Mounting Options

The most common placement of a shot clock is on top of the backboard. Bison Model SHCLKBKTBB includes 2 durable black powder coated steel brackets, hardware to mount to the top of the backboards, hardware to mount the shot clocks to the brackets, and mounting instructions.

In some cases, circumstances call for mounting of shot clocks to vertical wall surfaces. Bison Model SHCLKBKTW includes 2 durable black powder coated steel brackets, hardware to mount the shot clocks to the bracket, and mounting instructions. Due to the variety of wall surfaces, Bison does not provide wall mounting hardware to allow the installer to pick the appropriate wall anchors for the wall construction type.

Occasionally there are circumstances where backboard mounting or wall mounting is not possible or practical. In these cases, Bison Model SHCLKBKTF5 portable pedestal style shot clock stands are the ideal solution. The steel bases have protective edges on the bottom, and roll on floor freely when tipped backwards for transport. Center of shot clock is approximately 68" from the floor when in use for easy visibility. Model SHCLKBKTF5 is sold in pairs and comes complete with all necessary hardware to install shot clocks to top shelf bracket.

**BE READY...IN TIME™ WIRELESS SHOT CLOCK SYSTEM coming to a High School near you.** In April 2021, the Basketball Rules Committee of the National Federation of State High School Associations, authorized State Associations to adapt 35 second shot clock usage beginning in the 2022-2023 seasons. Shot clocks have long been standard in NBA, Collegiate, and International competition.

Bison's stand-alone wireless shot clock system (Model SHCLK200) requires no expensive wiring, just 110-volt outlets for each clock display and controller. The controller sends the wireless signal from the scorer's table to the clock displays mounted on backboard structures, walls, or free-standing portable pedestals. These wireless units do not interface with the existing scoreboard and are operated independently.

System is factory preset for countdown clock to start at 35 seconds matching NFHS guidance, but can be field reprogrammed to begin at other times for different levels of play. The clock reset button is permanently set to 20 seconds for situations where rules call for a shot clock reset due to kicked ball or other circumstances.

**SHOT CLOCK SYSTEM**

System includes: two shot clocks, one control panel, integrated antennae and 30' 110 volt extension plugs for each. No special wiring is required.

Shot Clock System: BISO-SHCLK200 \$1004.95  
 Backboard Mounting Brackets BISO-SHCLKBKTBB \$131.95  
 Wall Mounting Brackets: BISO-SHCLKBKTW \$132.95  
 Portable Shot Clock Stands: BISO-SHCLKBKFS \$796.95
