TAKE THEIR EDUCATION TO NEW PLACES

Arcadia's academic programs take education beyond the classroom through interdisciplinary learning, research, internships, and career preparation.

BROADEN THEIR PERSPECTIVE

U.S. News & World Report ranks Arcadia the best college in Pennsylvania for study abroad, and among the best in the nation—above Harvard, Yale, Duke, and many others. Nearly three-quarters of Arcadia students use their passports, expanding their worldview and increasing their earning power.

If your student is looking for unparalleled experiences, our vibrant campus community just outside Philadelphia is perfect for them.

“Right from the first year, you’re allowed to choose what you want to study and sometimes how you want to study.”

— Elijah Arnold

Our welcoming campus, fostering an authentic, close-knit community, ensures a safe and secure environment. Confidential health and wellness services are readily available in a nurturing space for all students.

Your student's safety is always our top priority. Arcadia is recognized as a low-crime area by the Cheltenham Township Police Department.
