## A Modern *Twist* on Tradition

With over 40 years of experience in the woodworking industry, Osborne Wood Products, Inc. has mastered the art of interior design components. Whether you prefer a classic or contemporary look, we have the product for you and offer various customization options that allow you to take each piece to the next level.

Modern design encompasses a wide range of styles and can be personalized to your specific taste. Some modern homes focus on simplicity while others have bright colors and bold textures. Did you know that you can completely transform a traditional piece by giving it a coat of white paint? Incorporating your favorite designs into your contemporary home is easy with the right application method.

Let us help you create the modern home of your dreams! We continuously add contemporary products to our inventory and work hard to make it simple for you to find what you are looking for. Browsing this catalog is the first step to building something beautiful!

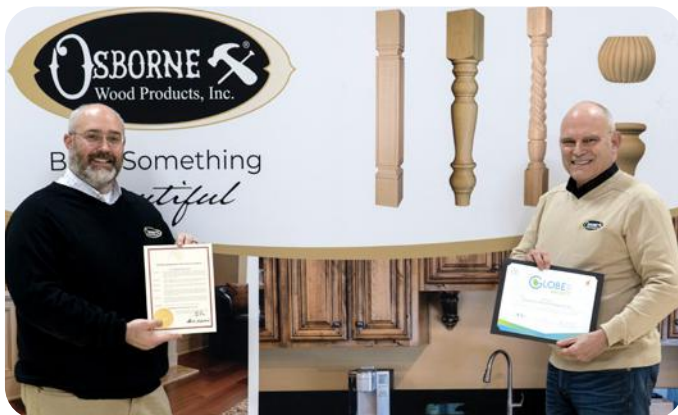

**A summary of the past year and current initiatives from Leon Osborne, CEO**

*“My vision for Osborne Wood Products has been to be involved in the creation of a business environment where we practice high ethical standards as well as have a solid culture of caring. This relates to our vendors, customers and employees. In our more than 41 years, we have listened carefully. Our value in growth rests in discovery, trend analysis and implementation. Ultimately, the voice of our customer is what we respond to.*

*In 2021, we started adding CNC equipment with new milling capacity to our facility that goes beyond square and turned profiles. We are now able to create complex geometrical shapes popular in contemporary design and better meet customer custom job expectations effectively, precisely and quickly.*

*We have also implemented lean initiatives. Lean participation is a community engagement in eliminating waste in eight areas in order to enhance the value of our products to our customers.*

**Jeremy McClain, vice president and Leon Osborne, CEO, accept the 2021 Globe Award**

*In the past year, shortages and material price increases have been the norm. As we approached this time, we anticipated these dynamics and started planning inventory on a six-month schedule. As a result, we have maintained a continued same-day shipping rate of over 90%.*

*We have also worked hard to control price, specifically by addressing recent catastrophic changes in price and availability of our pine products. While many customers prefer knotty pine products, we found that they were able to shift their product need to our new wood species: poplar. The 2022 poplar release has allowed us to provide a pine alternative at an affordable cost.*

*As a result of our aggressive approach to supporting inventory reserve, effective purchasing and innovative material selection, we are able to better serve our customers this year than before COVID challenges.”*

Leon Osborne had a dream over 40 years ago to create a business he was proud of. His drive and compassion for employees and customers is unmatched. Starting out of a garage in 1979, Osborne Wood Products now has a manufacturing and distribution facility that is around 80,000 square feet. The company works toward improvement every day. We guarantee that if you choose to work with us, you will receive the utmost customer service and highest quality interior design components.

Dining table legs are a subtle way to add continuity to the design of a home and no dining table is complete without just the right set of legs. Though dining table legs may not be the first thing noticed by a person sitting to dine, they are indeed an integral part of the look and feel of the space.

Table slides offer the ability to easily extend a table in order to accommodate more seating. We offer multiple slide designs in various sizes to easily accommodate the table you wish to extend.

# Standard Slides for split frame tables

These table slides accommodate openings from 26" to 120" and are used to extend standard four-legged tables. They consist of parallel boards that slide back and forth on smooth joinery with a male and female butterfly notch. These slides develop a camber to avoid sag at the center of the table.

We offer a wide selection of square turning blanks and dimensional stock pieces. These wooden square posts are intended for you to turn into a new design. They are not sanded and may contain planing marks. Our blanks are available in a variety of heights and widths, as well as several wood species. Our dimensional stock pieces can be used to create your own custom table apron or base kit. They pair well with custom tables, benches or counters.

*Find the perfect size for your project in our large selection.*

When designing your home, it is easy to overlook one of the biggest elements in the room - the ceiling! Adding an intricately-carved wooden medallion to your ceiling can bring the entire room together. These beautiful pieces add dimension and shadow to your home without taking up a lot of space. Each medallion features a hole in the center allowing it to perfectly frame an existing light fixture.

Ceiling Medallion  
16" x 1"  
Part #7531

*This home has undergone a grand transformation due to the use of a beautifully carved ceiling medallion, perfectly fixated around an existing light fixture. This medallion was coated with white paint to match the rest of the interior design. The result was an elegant and modern look!*

# Recessed V Stabilizer

Steel stabilizers are innovative hardware components that are attached to the underside of a table top, counter to the direction of the wood, to minimize wood warping, washboarding, cupping and gapping over time. Osborne has the parts you need to create your own recessed groove.

V Stabilizer Groove CNC Milling Tool w/ 25mm Shaft  
**Part #988**

V Stabilizer Groove Router Bit w/ 12mm Shaft  
**Part #989**

Stabilizer  
Available in multiple sizes ranging from 15.5 to 72 inches  
**Part #987**

*To install a steel stabilizer, you must first create a recessed groove underneath the table top. Next, insert the stabilizer into the groove and attach with wood screws.*

# Levelers and Glides

Use one of our various levelers or glides to adjust the height of your table legs and protect your flooring.

Rooted in rustic and country charm, farmhouse design has been evolving for centuries. It has remained a popular design trend for many years and can be seen in countless modern homes. It's popularity is often credited to the versatility of farmhouse components and the comforting atmosphere they create.

Farmhouse design focuses on simplistic beauty. Common design elements that complement the farmhouse style feature rounded edges, smooth curves and satisfying carvings. Our collection includes a wide variety of wooden components that would be perfect additions to your farmhouse home.

Corbels have long been recognized as subtle yet strong architectural components that lend weight-bearing support to extruding surfaces. While this is still the case, corbels and brackets have also become important decorative elements in the modern home. The wide range of corbel designs and styles available at Osborne allows for endless possibilities all resulting in a unique and elegant look.

# A Modern Take

Although the original corbel dates back to the 16th century, corbels and brackets remain a common element within modern interior design. Our collection features classic, traditional and contemporary profiles (such as **Part #8411** shown to the right). If you like the classic pieces, you can easily fit them into your modern space with the right finish. We have stain and paint grade wood types available so you can apply the color of your choice.

Although moulding and trim components have been around for many years, these pieces have been continuously used to transform the home in innovative ways. Most importantly, adding moulding to an existing room creates extra dimension. There are a wide variety of moulding designs from simple, contemporary pieces to intricate and decorative showstoppers. Builders often use moulding to accentuate cabinets, kitchen islands, bars, shelving, furniture and more. Take a look at our extensive line of moulding products. We are sure you will find the perfect finishing touch for your home!

# MOULDING & TRIM CONT.

*Having under-cabinet lighting is great but the hardware and components required to provide that extra lighting are not very attractive. That is where light rail moulding comes in! Camouflage under-cabinet lighting by applying light rail moulding to the front edge of your upper cabinets. This is a great way to hide electrical fixtures while adding beautiful detail and dimension to your cabinets.*

A close-up portrait of Leon A. Osborne, the President of Osborne Wood Products, Inc. He is a middle-aged man with a receding hairline, smiling warmly at the camera. He is wearing a dark suit jacket, a light blue dress shirt, and a dark blue striped tie. The background is a soft, out-of-focus brown.

# Letter from the President

Dear Customer,

I would like to thank you for allowing us to partner with you in creating fine furniture and kitchen cabinetry.

We are proud of our values, which put you first in every area of our operations. You can and should expect to experience our commitment to quality, excellence, and courtesy. We strive as a business to operate under the lordship of Jesus Christ. If you need us to go the "extra mile," we dedicate ourselves to doing so cheerfully and willingly. Excellence in quality and service is our commitment to you, regardless of the size of your order. Please hold us accountable to this standard. We look at the order you place as an investment in our relationship which may last over 30 years. Osborne Wood Products, Inc. is committed to supplying you with the parts necessary to advance your business strategies in this most demanding market.

We would like to thank you for your continued feedback, which allows us to continue to solve today's problems and invent tomorrow's solutions.

Thank you for taking the time to inquire about Osborne Wood Products, Inc. We truly look forward to serving you.

Sincerely,

A handwritten signature in white ink that reads "Leon Osborne". The signature is written in a cursive, flowing style with a long horizontal line extending from the end of the name.

Leon A. Osborne, President  
Osborne Wood Products, Inc.
