# RI-FLAT

## Collection

- Furniture fronts are not only important from an aesthetic point of view, but also qualitatively. They need to be durable and wear-resistant to ensure that your furniture looks good and lasts over time, a higher quality of fronts can help improve the functionality of the furniture, making it easier to use and more enjoyable to use.

# FLAT & RIFLAT FRONTS

- Furniture fronts are key elements in defining the aesthetic and functional aspect of the furniture. These are the first things we see and feel when we interact with the furniture, making their appearance essential in defining the quality and value of the furniture.

## FLAT OAK VENEER FRONTS

- Oak veneer is resistant to wear and abrasion, making it ideal for surfaces that are frequently used or exposed to heavy traffic. It is also scratch and impact resistant, making it an ideal material for furniture that must withstand daily wear and tear.

## Description

The fronts of the "Flat" model are made of chipboard coated with natural oak veneer and edged with oak blinds. The final thickness is 19mm. The finish of these fronts is obtained by oiling with an innovative and ecological mixture of natural oils. Painting is done with particularly UV-resistant pigments, water based and without chemical compounds.

Another advantage of this type of finish is the possibility to refresh it without specialized tools.
