Acerola is a tropical fruit rich in vitamins, carotenoids, anthocyanins and bioactive compounds such as ascorbic acid.

ACEROLA HAS HIGH CONTENT OF VITAMIN C

In the range of 1500 – 4500 mg/100g) which can be up to 80 times higher compared to citrus fruits as oranges and lemons!

MAJOR FUNCTIONS

- It helps to neutralize free radicals, which can damage and hurt healthy cells and DNA.
- It enhances iron absorption and keeps iron in its active form.
- It is an essential element to the functioning of the immune system.
- It helps in the formation of collagen.
- It helps in the metabolism of proteins and fats.
- Acerola is also rich in fiber, making it relevant to the dietary treatment and prevention of many pathologies.
- In the Food market, Acerola is used to regulate acidity, remove metals, protect color, enhance flavor, increase shelf-life and as buffering agent.
- It promotes improvements in alternative gluten formulations, such as an increase in bread volume, decrease of firmness and chewiness.
- Acerola extract powder and fiber have high level of fibers, emulsion stability and capacity to absorb both water and oil.
- One of the breakdown products of vitamin C is oxalic acid, which has been shown to slow the breakdown of glucose. This can result in a reduction of lactic acid production from glucose after slaughter and may prevent the rapid drop in pH associated with poor meat quality.

POTENTIAL APPLICATIONS:

- Dietary supplements.
- Cardiovascular and gastrointestinal health supplements.
- Obesity control supplements.
- Meat Preservation.
- Bakery Products.
- Cereal bars, yogurts, snacks.

WHY BUYING ACEROLA FROM NUTRIBOTANICA:

- High Quality with strict control & traceability since we have our own farm.
- We are the only company in the World with total integration between farm and industry.
- Each lot is tested to assure high quality.
- Acerola is processed right after harvesting.
- Production takes place all year around.
- We are able to offer different Vitamin C ranges.

The greatest source of Natural Vitamin C in the world

Our strong supply chain provides a
consistent delivery across the globe.

With over 27 years of history in Brazil,
NutriBotanica has been producing and
delivering high quality natural ingredients.

Organic Acerola Farm

Our farm has 1.5 million m² of land **100% organic** certified. We are pioneers in acerola production, using technologies as AI, biotechnology and mechanized harvesting to deliver the best products.
