The art of modern washroom dispensers

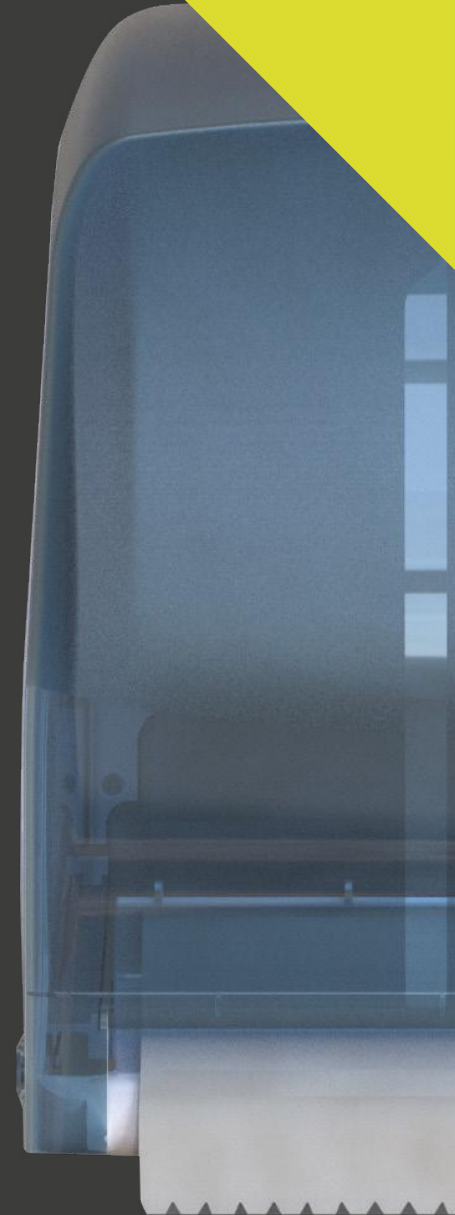

About Raphael®

The Raphael® range of washroom dispensers has been designed with the end user at the heart of the process, following 4 key principles:

- ◆ Reduce Waste
- ◆ Save Time & Money
- ◆ Improve Hygiene
- ◆ Sustainable & Responsible Sourcing

*Designed with
the end user
at the heart*

Raphael® Dispenser Range

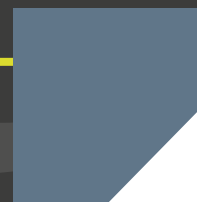

Raphael® offers the complete washroom look from toilet tissue to hand towels, roll towels and soap.

Available in three colourways:

Smoke

Blue

White

VersaTwin™ Toilet Tissue Dispenser

Compact in size, the VersaTwin™ toilet tissue dispenser maximizes available space in the washroom. Both durable and efficient, this dispenser is a great all round performer and exceeds the demands of most washroom environments.

Features & Benefits

► Infinity Paper System

Only one roll is used at a time, delivering reduced waste & cost saving benefits.

► BioKleen™ Treated

Improves hygiene by inhibiting bacteria growth & spread.

► Translucent Dispensers

Offering 'at-a-glance' replenishment checks, with no need to open dispensers, saving time.

► Up To 400m Capacity

Reduce 'run out' potential and replenishment visits, saving time.

► Compact Design

Perfect for where space is a premium, whilst still meeting the demands of a busy washroom.

► Find compatible paper on Page 15

*Holds up to 400m
of toilet tissue*

TwinJumbo Toilet Tissue Dispenser

Designed for the busiest of washrooms, the TwinJumbo dispenser has been designed to hold up to 800 metres of toilet tissue, which services about 800 visitors before it needs to be replenished.

Features & Benefits

► Infinity Paper System

Only one roll is used at a time, delivering reduced waste & cost saving benefits.

► BioKleen™ Treated

Improves hygiene by inhibiting bacteria growth & spread.

► Translucent Dispensers

Offering 'at-a-glance' replenishment checks, with no need to open dispensers, saving time.

► Up To 800m Capacity

Long lasting rolls perfect for high footfall washrooms, reduces replenishment visits.

► Find compatible paper on Page 16

Lever Control Roll Towel Dispenser

Operated with a pump handle to deliver paper on demand, the Lever Control dispenser is perfect for hygiene sensitive areas. The only contact area, the pump handle, is treated with BioKleen™, shielding the dispenser from bacterial growth and inhibiting the spread of washroom germs. Paper towels are housed 'towel in', meaning that paper is only exposed to the washroom once the handle is pumped, keeping it clean and hygienic. This also makes the dispenser ideal for non washroom environments.

BioKleen™ treated handle

Features & Benefits

- ▶ **Controlled Lever Dispensing**
Reduces overuse.

- ▶ **BioKleen™ Treated**
Improves hygiene by inhibiting bacteria growth & spread.

- ▶ **Reduce Waste with Stub Roll Transfer**
Delivering cost saving benefits.

- ▶ **'Towel In' Presentation**
Paper is enclosed and protected until dispensed.

- ▶ **Translucent Dispensers**
Offering 'at-a-glance' replenishment checks, with no need to open dispensers, saving time.

Mechanical Hands Free Roll Towel Dispenser

With no need to touch the dispenser, towels are dispensed one at a time, revealing a new sheet for the next user. It has a capacity of up to 250m and users can clearly see paper availability, making it perfect for even the busiest of washrooms.

Features & Benefits

- ▶ **Controlled Sheet Length**
Reduces overuse.

- ▶ **Single Sheet Presentation**
User only touches the paper that they use, reducing the spread of germs.

- ▶ **Contactless Dispensing**
User doesn't need to touch the dispenser to access paper, reducing the spread of germs.

- ▶ **Translucent Dispensers**
Offering 'at-a-glance' replenishment checks, with no need to open dispensers, saving time.

▶ Find compatible paper on Page 18

Electronic Roll Towel Dispenser

Powered by D-Cell batteries with no need for mains power, this luxury dispenser offers three adjustable sheet lengths, as well as towel in or towel out options to suit the preference of the washroom. A great choice for the quality or hygiene conscious washroom.

Features & Benefits

▶ Controlled Dispensing Options

Variety of setting to suit all washroom environments, from premium to economical options.

▶ Single Sheet Presentation

User only touches the paper that they use, reducing the spread of germs.

▶ Reduce Waste with Stub Roll Transfer

Delivering cost saving benefits.

▶ Towel Presentation Options

Choose either 'Towel In' or 'Towel Out' options to suit the environment.

▶ Translucent Dispensers

Offering 'at-a-glance' replenishment checks, with no need to open dispensers, saving time.

Z Fold 1000 Hand Towel Dispenser

This folded towel dispenser has a large 1000 sheet capacity and is perfect for where space is tight or non-washroom environments where folded towels are perfect for the job required.

Features & Benefits

▶ Robust One Sheet Dispensing

Reducing overuse, limiting consumption and reducing cost.

▶ Contactless Dispensing

User doesn't need to touch the dispenser to access paper, reducing the spread of germs.

▶ Translucent Dispensers

Offering 'at-a-glance' replenishment checks, with no need to open dispensers, saving time.

▶ Slim Design

Suitable for areas where space is at a premium.

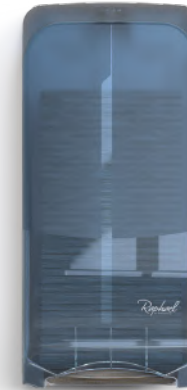

▶ High Capacity - Up To 1000 Towels

Long lasting perfect for high footfall washrooms, reduces replenishment visits.

Sanitiser per Case	6	Added emollient Up to 1000 shots

Raphael® & Sustainability

Card Cores

All cores are made from recycled board and can be widely recycled.

Paper Wraps

We use paper wraps on our VersaTwin™ toilet rolls and some hand towels to hygienically protect them. All of these are fully recyclable.

Plastic Wrap

We have taken great steps to removing plastic from our Raphael® range, but some of our hand towels are wrapped in LDPE plastic. This is still fully recyclable.

Plastic Inserts

All of our rolled products contain a plastic insert. These are made from HIPs, and have already been recycled from bottle tops and other plastics. They can then be recycled again.

Did you know for every Raphael® roll used, we save the equivalent of 3 bottle tops from going to landfill. That's up to 72 bottle tops per case!

Dispenser Covers and Backs

Even our dispensers (except the mechanisms) can be recycled.

Plastic Soap Cartridges

Made from recyclable plastic.

FSC® certified

FSC®

FSC runs a global forest certification system with two key components:

Forest Management

Chain of Custody

The FSC system allows businesses and consumers to identify and purchase paper, and other forest products, made with materials from well-managed forests and / or recycled sources. Look out for our certified products.

By buying these paper products you help take care of the world's forests

FSC® C157444

The Life Cycle

The Green Loop initiative offers a recycling function for both old dispensers and Raphael inserts. Offering a closed loop recycling service for old plastic inserts, turning them next generation of Raphael inserts. The Green Loop initiative also removes old dispensers and recycles them when replacing them with a new Raphael estate.

- Promote circularity
- Divert waste from landfill
- Helping to minimise customers environmental impact

With every new Raphael contract, we pledge to plant a tree in partnership with Trees for Cities.

The only UK charity working at national and international level improving lives by planting trees in cities. They have worked tirelessly for over 20 years in cultivating lasting change in neighbourhoods – whether it's revitalising forgotten spaces, creating healthier environments or getting people excited about growing, foraging and eating. Trees for Cities have planted over 1.5m trees since 1993.

Raphael® & Hygiene

A poorly maintained washroom can be a breeding ground for germs. By choosing the Raphael® system, you are choosing a market leader in all round washroom hygiene.

“
**Paper hand towels
are the most hygienic
way of drying hands.**

World Health Organisation

”

www.who.int/gpsc/5may/tools/who_guidelines-handhygiene_summary.pdf

New soap nozzle

Each soap cartridge comes with a new nozzle, reducing germ harbouring.

VersaTwin™ Toilet Rolls are wrapped in paper

By wrapping the rolls, it keeps them cleaner in storerooms.

Contactless dispensing options

Users don't need to touch dispensers, and only touch paper that they use, limiting the amount of germs spread.

BioKleen™ treated contact areas

Touch-point surfaces are treated with BioKleen™, inhibiting growth of potentially harmful bacteria and fungi.

BioKleen™ cannot be removed and is active throughout the lifespan of the dispenser.

Rolls are kept enclosed

By housing rolls inside a dispenser, they are kept clean and protected from the washroom environment.

Easy wipe surfaces

The covering face of the dispensers are a single piece, with no deep recesses or dirt traps.

Towel in / Towel out Roll Towel dispensing options

Both are hygienic in their own right, and across our three roll towel dispensers we have the right solution for you.

Superior washroom hygiene

Delivering market leading washroom hygiene benefits user washroom satisfaction and can have positive implications on absenteeism in the workplace.

Raphael® Cost and Volume in Use

Cut waste,
save time and
save money

When choosing the right washroom dispenser for you, it is not just the product cost that should be taken into account. You should also consider how much and how often paper is purchased.

With market leading capacity across the range, the Raphael® system can deliver significant cost savings for you, as well as a host of other benefits.

*Waste less,
refill less,
save more*

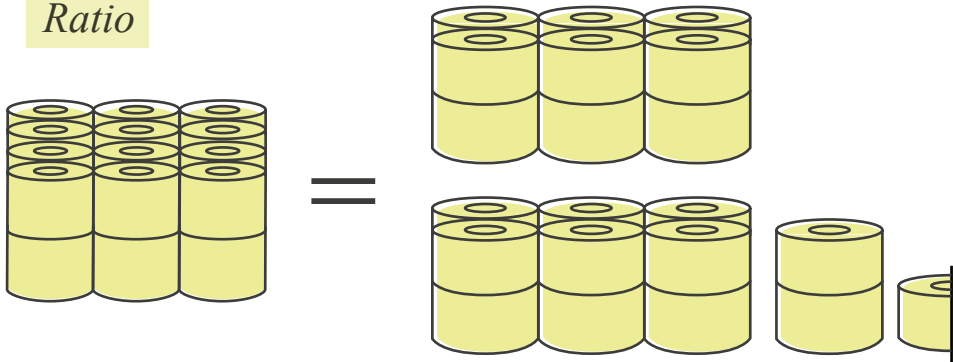

Toilet Tissue Cost in Use Comparison

1 case of VersaTwin™ is equivalent to approximately 2.2 cases of 150m Mini Jumbo.

	Raphael Product: VT2125R 2 Ply 125m Recycled Tissue	Mini Jumbo 150m Recycled Tissue
Metres per Roll	125m x 24	150m x 12
Case Quantity	3000m	1800m
Industry Standard Waste	0%	-25%
Metres Used	3000m	1350m
Ratio	1	: 2.2

Ratio

Other benefits

If you currently use 1 case of 150m Mini Jumbo product a week, or 52 per year, you will now only require approximately 24 cases per year.

This means:

- ✓ Fewer deliveries and invoices to pay
- ✓ Less time spent restocking storerooms
- ✓ Less time spent replenishing dispensers
- ✓ Up to 23.4km worth of paper waste saved
- ✓ Up to 2.2kg worth of plastic packaging saved from landfill

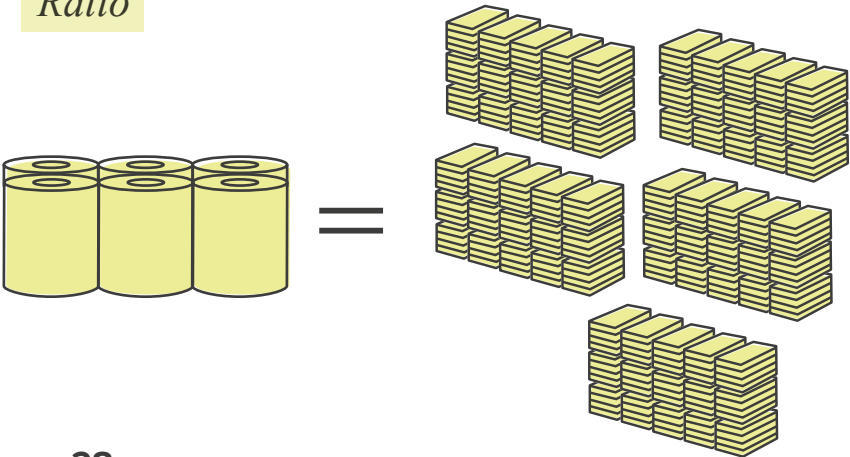

Roll Towel Cost in Use Comparison

1 case of Raphael® 200m Roll Towel is equivalent to approximately 5 cases of C Fold.

	Raphael SKU: RT2B200LR 200m x 12	C Fold Hand Towel 2400 Sheet
Case Configuration	200m x 6	160 sheets x 15
Case Quantity	1200m	2400 Sheets
Industry Standard, Users per Dry	2	5
Dries per Case	2,400	480
Ratio	1	: 5

Ratio

? Other benefits

If you currently use 2 cases of C Fold Hand Towels a week, or 104 per year, you will now only require approximately 21 cases per year.

This means:

- ✓ Fewer deliveries and invoices to pay
- ✓ Less time spent restocking storerooms
- ✓ Less time spent replenishing dispensers
- ✓ Potential paper waste reduction
- ✓ Potential plastic packaging waste reduction

Functional Excellence

When deciding on your washroom system, there are a wide variety of factors you should take into consideration.

How long does it take to check your washrooms for replenishments?

The translucent covers of the blue and smoke dispensers allow you to quickly check the fill level without opening the dispenser, saving time the Raphael® white dispensers have translucent backs providing the same benefit.

How long does it take to replenish all your washroom dispensers?

All of our dispensers were designed to make the replenishment of rolls as simple and fast as possible.

All dispensers across the range share the same key to access, plus each dispenser has an easy 3 or 5 step replenishment process which takes seconds.

How often do your dispensers run out of paper?

Raphael® dispensers are all high capacity, with the toilet tissue Infinity Paper System reducing waste, as one roll is used and replenished at a time.

Is your washroom prone to vandalism?

The Raphael® range of dispensers are made from robust ABS plastic. They are scratch and impact resistant, making them suitable for even the most challenging of washroom environments.

All dispensers are locked, keeping paper safely housed to reduce theft and pilferage, and reducing the risk of unsafe washroom mess.

Northwood Accreditations & Certifications

ISO9001

All Raphael® products are manufactured under strict ISO9001 quality standards, ensuring the manufacturing processes are both effective and efficient and that the highest standards of quality are maintained. This means that the finished product meets the expectations of both Raphael® and the customer.

BRCGS

BRCGS accreditation means Raphael® products guarantee the standardisation of quality, safety and operational criteria and ensure that we fulfill our legal obligations and provide protection for you, the end consumer.

CHSA

As a member of the CHSA, Northwood Hygiene Products Ltd, owners of the Raphael® brand, adhere to a strict code of practice for accurate product descriptions and labelling, meaning that whatever is stated on the label is what is in the box.

FSC®

FSC runs a global forest certification system with two key components:

- Forest Management
- Chain of Custody

The FSC system allows businesses and consumers to identify and purchase paper, and other forest products, made with materials from well-managed forests and / or recycled sources. Look out for our certified products.
