Free Help available via the Frega Consultant Service

A composite image featuring a hand holding a globe with a map of the Americas, several white doves in flight, and a semi-transparent white text box. The hand is positioned centrally, with the globe showing the continents of North and South America. The word "WORLD" is visible at the bottom of the globe. Several white doves are shown in various stages of flight, some appearing to fly out of the hand. The background is a soft, light blue sky with faint clouds. The text box is a rounded rectangle with a white background, containing a quote in black text.

“For everything that is really great and inspiring is created by the individual who can labour in freedom.”

Albert Einstein

Global Benefits

- Captures questions from contacts/prospective customers about your products and or services
- Create and manage a knowledge base of Q & A for a number of Hub Pages with one login
- Branded Growth points can be rewarded to customers for their support and incentivize them to attract new clients
- New registrants receive branded reward points adding them to a Merchants database
- Subscribers to KnowledgePlus and Besorted can connect and set up their data communication portal for staff (private many to many) and publish SLA agreements in their private one to many KnowledgePlus Hub.
- Subscription fees display as a diminishing cost / cash flow outflow that within a few months is a net cash flow to the Merchant
- The Merchant finds after a few months because of the interactive nature of KnowledgePlus and the publishing of content their SEO ranking have increased as does the base of new clients

Paddys Calculations

Frega as a SaaS business model invests a portion of the subscription fee in assets that pay an increasing cash dividend and transfer these assets to the subscriber as a reward for their support,

To arrive at the true subscription fee for the Frega Service the client will need to offset the cash dividend against the subscription fee to arrive at the true subscription fee for that month and over time it will be noted the net fee reduces to nil and eventually turns into an increasing profit.

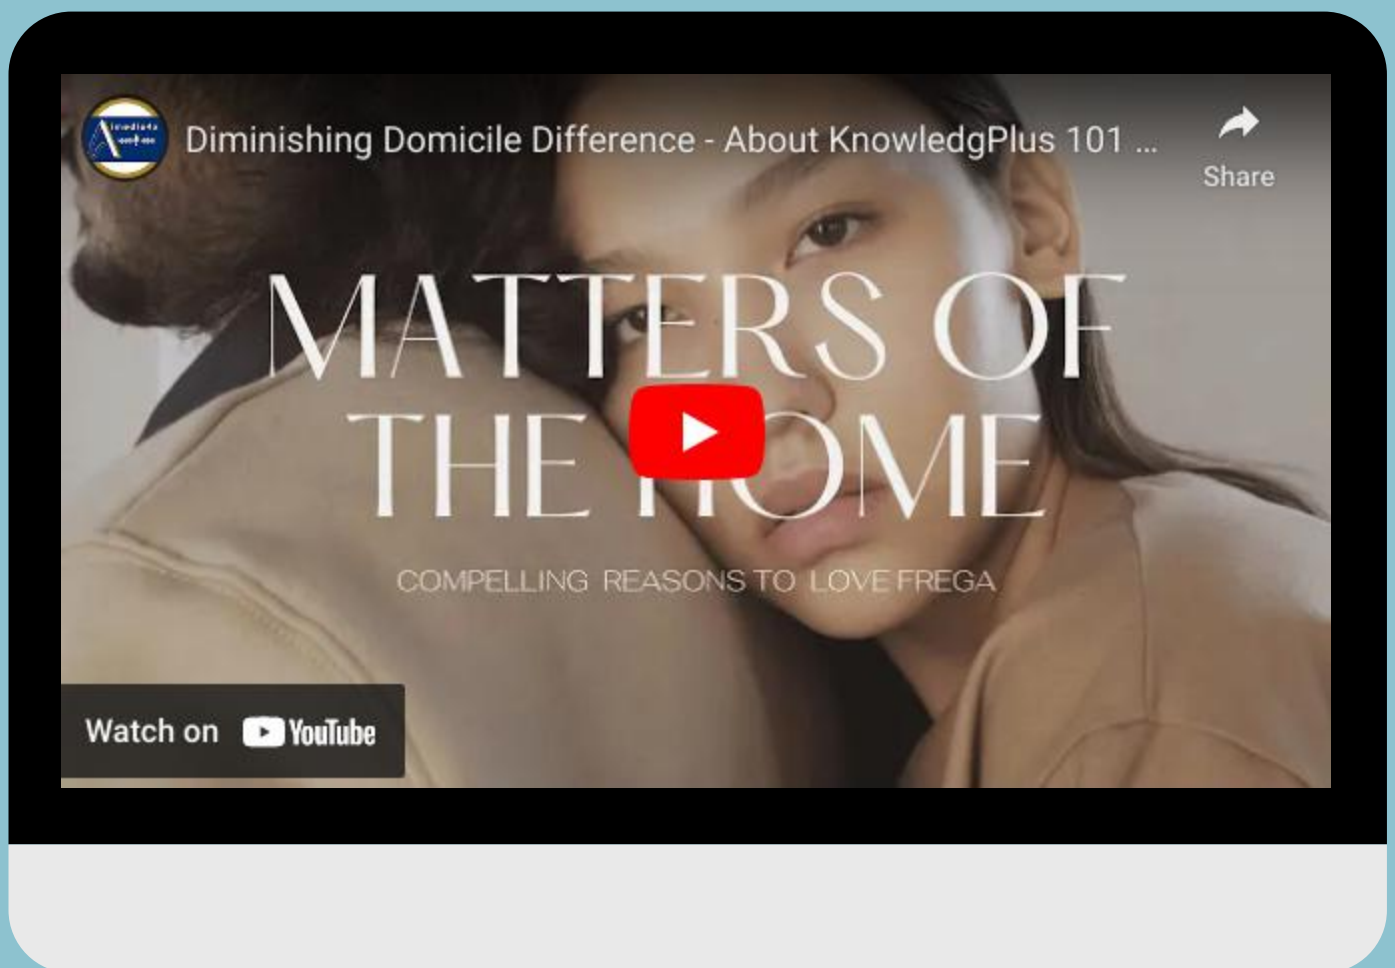

The Subscriber, once the accumulated fee is in profit, the Subscriber is being paid to use the service that they are happy to use and there is no going back. The attached dividends are factored as a net flow item and not the asset appreciation.

	Traditional SaaS Subscription		Frega SaaS Subscription Model		
	Monthly Fee	Accum cost	Dividend	Net cost	Accum Cost
Month 1	\$ 12.50	\$ 12.50	\$ -	\$ 12.50	\$ 12.50
Month 2	\$ 12.50	\$ 25.00	\$ 3.00	\$ 9.50	\$ 22.00
