AcuSeek Application for Factories

What challenges do factories face?

- People walk around in forklift zones – Security teams must review footage frame by frame to identify rule breakers.
- Workers enter warehouses without wearing hard hats – Manual monitoring makes it difficult to ensure consistent safety compliance.

Key advantages of AcuSeek

1

Search Broadly

Search for objects such as people and cars, or find specific items by connecting them to a certain feature, like a person without a hard hat.

2

Search Accurately

You provide detailed text input, and the system will understand the nuances to reduce false matches.

3

Search Instantly

Get results in seconds from hours of video footage – no more manual searching frame by frame.

4

Search Flexibly

Use shortcuts like "find persons" and "find cars," and customize your own search keywords.

Seamless system integration
