 One Ecosystem

 Total Control

 Smarter Living

Effortless Living with Intelligent Control

Automation That Understands You

Imagine a home that responds to your needs-automatically adjusting to your lifestyle, saving energy, and enhancing security without effort. **Hogar Controls offers:**

One-Touch & Voice Control

Manage your home through sleek touch panels, mobile app, or voice assistants.

Energy Savings

Intelligent automation reduces energy waste and maximizes efficiency.

Smart Security

Advanced sensors and door locks keep your home protected at all times.

Seamless Automation

Set lighting, temperature, and entertainment to match your mood or schedule.

Hogar's smart solutions adapt to the way you live, making everyday moments **effortless.**

Smart Living, Smarter Protection.

Hogar's intelligent automation ensures your home isn't just secure — it's responsive, efficient, and always connected.

Stay Aware, Stay in Control

Motion alerts and smart door access with video and audio.

Keyless Convenience

Secure smart locks with passcode, fingerprint, RFID, mobile access, and manual key.

Automated Safety Triggers

Smoke, gas, and motion sensors that alert and act immediately.

Remote Surveillance

Monitor your home anytime, anywhere with live camera feeds.

Why Hogar?

End-to-End Smart Home Solutions

Complete automation for lighting, security, and entertainment-all with unified control.

Built for India

Designed for Indian lifestyles, homes, and preferences.

Advanced R&D

Designed in the U.S., assembled at our R&D center in India with premium components for reliability.
