NWBS Newsletter

Hi Welcome to the SUMMER 2024 edition of NWBS Newsletter. Lets all hope we start to see a bit of Summer soon.

What a few months we have had since the last edition, I attended the Stellantis Bodyshop Network Conference and then the ILC ARC 360 Conference in June and it was great to see Bodyshops/Manufacturers/Insurance Companies discussing the future of our fantastic industry.

As you all know Claims numbers are down but I still see lots of bodyshops very busy and working hard to grow/develop their businesses.

I am really grateful for the amount of phone calls/emails/whatsapp/text messages I get asking for various things “Neil who do you know who can supply?”

If I don't know who can supply a product or service I will know someone who does so please don't hesitate to get in touch if you need any products or services that you can't see on my linecard.

You will see two Bodyshop spotlights in this edition - If you would like to feature as a Bodyshop it is FREE just get in touch.

If you would like to advertise your products/services in the newsletter please give me a call 07917 868203.

As always thanks very much for the business you all give me on a daily basis.

Enjoy the Sunshine when it comes and I hope you have fantastic holidays when they come around.

Regards

Neil Buckley

“OMC Motor Group are incredibly proud to share that our Bodyshop Manager, Anthony Bamford has chosen to #BraveTheShave to support his mum as she battles breast cancer. Anthony's inspiring act of solidarity ensures his mum knows she's not alone in this fight. Not only is Anthony standing by his mum's side, but he's also raising funds for her favourite charity, Maggie's. Maggie's provides unparalleled support to those affected by cancer and their families, making a real difference in countless lives. Anthony's mum is deeply grateful and immensely proud of his bravery and the generosity he's shown. Together, they're making a powerful impact and spreading hope. Join us in supporting Anthony and Maggie's by contributing to this heartfelt cause below:

[Anthony Bamford is fundraising for Maggie's Centres \(justgiving.com\)](https://www.justgiving.com)“

COMPLETE

GARAGE SOLUTIONS

CARRYING OUT BODYSHOP EQUIPMENT INSPECTIONS

TO INSURANCE, BSI AND THE HSE STANDARDS NATIONWIDE!

Equipment inspections in Bodyshops are becoming a requirement.

With standards and regulations changing with the HSE, insurance companies tightening their belts and the importance of being compliant with the BSI standards. Making sure your equipment is working within the industry standards is now more important than ever.

Complete Garage Solutions strive to make sure you have peace of mind throughout the whole process, detailed reports and certification will be produced to present to your insurance provider and an examination itinerary for your service supplier, enabling them to carry out any remedial or major repairs with ease, creating less downtime in your workplace.

RELIABLE, EXPERIENCED AND COMMITTED

BODYSHOP EQUIPMENT INSPECTIONS

HOW ?

Our skilled competent engineers throughout the UK carry out the inspections to statutory requirements, completing all aspects on site to minimize disruption to your business's operations. Following inspection, you'll receive your reports and certificates through our online portal.

WHAT ?

What Garage Equipment can be examined?

If you rely on anything within your repair centre to lift something, such as Service Ramps, Engine Cranes, Jacks and Axle Stands, it should be inspected under LOLER, which is the Lifting Operations and Lifting Equipment Regulations 1998.

Any small tooling inclusive of Torque Wrenches, Tyre Inflators, Pressure Gauges, Power Tools, should be inspected under the Provision and Use of Work Equipment Regulations 1998 (PUWER).

COMPLETE

GARAGE SOLUTIONS

WHEN ?

*Complete Garage Solutions will ensure scheduled 6 monthly inspections **ON TIME** to properly maintain and care for your assets.*

WHY ?

Your business is required to ensure the safety of your workforce and make certain your equipment isn't a danger to any working persons. Advice, recommendations and inspection engineers will keep your workplace safe, operational and compliant. Ensuring minimal disruption.

HELPFUL TIPS!

10 Tips Every Estimator Should Be Following

Today more than ever, the importance of creating an outstanding blueprint for automotive repair is an integral part of Proper and Safe repairs. Creating a roadmap of how the vehicle is going to be repaired provides the most accurate and efficient methods of repair and ensures that every standard operating procedure (SOP) is being met. In I identify that “Doing a complete repair blueprint has been identified as a key to improving efficiency in a repair facility.” Here Is A List of What We Recommend As The 10 Keys to Complete Estimating:

1. **Have an SOP For the Estimating Process** Develop a systematic approach to writing a complete estimate and ensure that it's repeatable. Most importantly, follow it on each vehicle blueprint.
2. **Training** Take the time to be educated on today's automobiles and the technology associated with them. Anyone who endeavors to repair an automobile should know how the system really functions before they can repair it. The same holds true for anyone that is tasked with writing a damage appraisal. If an estimator is not armed with the knowledge of how systems function or which parts are HSS or UHSS and what estimators are allowed or not allowed to do by a specific manufacturer, an estimator may not be able to write a complete estimate.
3. **Pre-Scan** The importance of doing a pre-scan or health check on every vehicle that comes into a facility will help ensure that every system is functioning as designed. Not doing a pre-scan is like going to the doctor and expecting him to know what's ailing the patient without verbalizing any symptoms.
4. **Photographs** Photographing everything around the vehicle is just as important as writing a good estimate. Pictures help ensure that everything on the vehicle is captured, including damage associated with the loss and any pre-existing damage. Documenting everything helps remove doubt as to what the vehicle came into the facility with.
5. **Know and Understand The Estimating Platform** Becoming an expert on the software that repair facilities use not only makes an estimator more efficient, but assists in getting everything that is “Not Included” for the database a repair facility is using. The procedure pages have been commonly referred to in our industry as “the profit pages.”

Tim Kelly MotorClaimGuru Ltd / MSOE MIRTE C.A.E. EngTech.

Appropriately Qualified Person (AQP) / Managing Director and owner at MotorClaimGuru Ltd.

10 Tips Every Estimator Should Be Following

6. Research and Access the OEM Repair Information This an important aspect of writing a repair blueprint. This includes any TSB's, Technical Bulletins, OE Recalls and specific airbag replacement matrices that might exist. Without the knowledge of how the OE wants the vehicle repaired, it may be difficult to repair the vehicle correctly. Most of the time, repair facilities do an outstanding job of accessing repair procedures and writing an accurate damage appraisal. These repair procedures should get into the hands of the ones actually doing the work and the repair technician!
7. Teardown The teardown process helps the estimator see any hidden damages that can easily be overlooked with a simple repair plan without removing components. The best estimators in this industry do a complete teardown, photograph and write a complete blueprint.
8. Identify One-Time Use or Non-Reusable Components There are a number of specialized fasteners and parts that certain manufacturers have deemed as non-reusable. Identifying these at the earliest stages of the estimating process will help ensure that a repair facility is not faced with supplements at the tail end of the repair process for parts that may be special order, or back-ordered, thus affecting the total cycle time.
9. Identify Any Needed Sublet There may be instances where a repair facility may not have the necessary equipment or technician in-house with which to perform certain operations, and therefore will need to sublet those operations. Identifying these early helps ensure the most efficient cycle time on the entire repair.
10. Post-Scan Just as important as the Pre-Scan is the Post-Scan—or final health assessment. Everything that a repair facility does on today's automobile has the potential to set a fault code (DTC) or digital fingerprint. Even simply realigning a mirror or door handle may set a fault code. The Post-Scan process can help determine whether or not the repair process has been completed properly and safely. It's at this point where a technician is able to clear any codes that were originally set during the collision or that may have been added through any touch points. Finally, it gives the repair facility the opportunity to provide a clean bill of health to their customer that will delight them in knowing that their investment has been well taken care of.

Master the Art of Social Media for Bodyshops: Tips from Industry Experts!"

FREE
Digital Marketing
Introduction

CLICK HERE 

Leverage Visual Content: Use high-quality images and videos to showcase your bodyshop's services, before-and-after transformations, and detailed tutorials. Visual content is more engaging and can significantly increase user interaction on platforms like Instagram and Facebook.

Highlight Customer Testimonials: Share customer reviews and testimonials prominently. Positive word-of-mouth in the form of social media posts can boost credibility and attract new customers.

Run Targeted Ads: Use social media advertising tools to target local car owners. Platforms like Facebook and Instagram offer detailed targeting options based on location, interests, and behavior, ensuring your ads reach the most relevant audience.

Engage Regularly: Consistent engagement is key. Respond promptly to comments and messages, and actively engage with other local businesses and profiles. This builds a community around your brand and can lead to higher engagement rates.

Offer Promotions and Discounts: Use social media to offer exclusive promotions or flash discounts to your followers. This can increase loyalty and encourage followers to share your page with their networks.

Use Hashtags Wisely: Research and use hashtags that are popular among car enthusiasts and local customers. This increases the visibility of your posts to a relevant audience who are more likely to be interested in your services.

Create Educational Content: Share tips on vehicle maintenance, the importance of regular servicing, and how to spot potential issues. Educational content positions your bodyshop as an expert in the field and can help build trust with your audience.

Collaborate with Influencers: Partner with local influencers or automotive bloggers who can review your services and share their experiences. This can expose your brand to a wider audience and bring in customers who trust the influencer's recommendations.

Monitor and Adapt: Use analytics tools provided by social media platforms to track the performance of your posts and campaigns. Analysing what works and what doesn't allows you to refine your strategy and improve your return on investment.

Celebrate Milestones: Share milestones and achievements with your audience, like anniversaries, service expansions, or awards. Celebratory posts can humanise your brand and help build a more personal connection with your audience.

Metal to Metal Technology

Sagola: Your Partner in Bodyshop Perfection, from Start to Finish

For over 65 years, Sagola has been a leading name in professional spray paint equipment, dedicated to helping body shops achieve flawless finishes every time. After the acquisition of Sagola by Elcometer, the representation in the UK has been reinforced and are now expanding the distributor network to support automotive body shops throughout the country.

The extensive range of Sagola products goes beyond just industry leading spray guns, offering a complete ecosystem designed to guarantee quality at every stage of the refinishing process.

From air filtration to air heating, spray guns to drying guns, air brushes to personal protection equipment, Sagola's range of reliable, robust spray paint equipment is designed to be easy to use and even easier to maintain. The Metal to Metal Technology found within the spray guns means there are no packings, joints or seals in the fluid area, making them extremely easy to clean, with minimal maintenance.

The recently launched NEW Sagola 4600 features everything you expect from an industry leading spray gun and more. Now with DFT (Dynamic Flow Technology™), which provides a flawless finish even at lower working pressures, the New Sagola 4600 provides a more even and uniform paint distribution, from top to bottom. This makes it ideal for difficult base colours such as metallics, silver, and pearls. It also minimises common paint defects like shadows, patch coats, and striping.

If you would like to know more about Sagola or to arrange a free demonstration, contact your local distributor. For distributor enquiries please contact global.sales@elcometer.com.

Mike Monaghan

M +44 7496 543555

E mike@auto-motivate.com

www.auto-motivate.com

A life on one page

My name is Mike Monaghan and I've been in the industry for over 47 years. I've owned bodyshops and garages and I founded the MVRA (Motor Vehicle Repairers Association) in 1988 till 2009.

I've visited bodyshops in 18 different countries around the world and been a keynote speaker in most international events like IBIS, NACE and SEMA to mention a few.

Today, as the owner of Auto-Motivate, I provide mindset, management, leadership training, coaching, mentoring and consultancy services to the industry with a wide selection of clients.

I'm grateful to Neil for asking me to present an article for the very first time in this brilliant newsletter. So, I had to choose a topic and after reading the last issue, which has some fantastic information and advice from some very good people, I thought what should my message be, and can I put it on a page?

Would it stand out, be worth reading and could it offer some practical advice.

So, here goes!

I'm guessing you have successfully and despite all the world challenges been in business for more than 5 years and if I'm right, you're probably doing most things right. Right enough to stay in business!

There's an old book called "Good to Great" by Jim Collins. In there he talks about what it takes to go from good to great and what separates those businesses.

The hard truth in my long and considerable experience is, there are many good bodyshops, but very few great ones. Why, because we get trapped in the oldest cliché of, working in the business and not on the business.

The reason I went into the 'mindset' and human performance business was to help those owners who want to go from good to great. I was fortunate to spend many years working in the USA with a brilliant clinical psychologist, which led to me working with one of the industry's leading figures in elite sport and behavioural performance coaching.

After, I returned to the UK and launched Auto-Motivate in 2018 at the Etihad stadium. The feedback was, Mike you're a well-known figure in the industry, but what's this pink and fluffy shit you're talking about!

I knew it was going to be a challenge, but I also knew it was going to prove to be the one areas of business in my beloved industry that was missing, and could provide the biggest shift in performance, for those open minded enough to explore the opportunity.

By now, you'll know you already have a successful business, covered most of the challenges and conquered them, even though many of those challenges happen again and again. Same shit different day, but you succeed!

My core message is this! It does not need to be as difficult as it can feel at times, in fact it can be smoothed out, fun and highly rewarding.

They say the devil is in the detail and that's true. If we are not paying attention to the details those marginal gains will be lost or worse never found. I believe our industry is simple: its product, process and people.

1, Secure the product supply (cars).

2, Make sure your processes are perfect and then check them again, review and adjust them constantly. (fine margins = big improvements)

3, People- your biggest underutilised asset. Train their soft skills not just their technical ones. This is where the biggest gains are found.

Your biggest enemy is time, you'll never believe you have enough. I disagree, you always have enough, it's more about are you using what you have effectively?

Don't get lost in BUSYNESS.

For this article, I'll leave you with two of my favourite lines:

1, Good is not enough if better is possible!

2, If the rate of change on the outside, is greater than the rate of change on the inside, you've already lost the game.

I hope to write again, if you like this and let Neil know!

Mike Monaghan

ATTICUS INSURANCE

We take pride in our Platinum Partnership with the top Bodyshop trade association in the UK and our ongoing collaboration with prominent bodyshop consultants.

ATTICUS INSURANCE

Tel:01562 543581

Email:info@atticusinsurance.co.uk

IT'S A PERFECT TIME TO REVIEW YOUR INSURANCE COVERAGE

As some of you may have noticed during your insurance renewals this year, the UK insurance market is consistently raising rates for both Personal and Business policies, including Motor Trade Insurance. Typically, most insurers are imposing an average rate hike of 10% for businesses with a clean claims record in the past year.

WAYS WE CAN ASSIST

In our team, we bring over 35 years of valuable experience supporting Bodyshops and Commercial Body Builders.

We have forged solid partnerships with leading Motor Trade Insurers and are acknowledged as brokers who understand the risks in this industry.

Our thorough assessment will examine your current insurance coverage and suggest enhancements to optimise your overall policy.

A RECENT REVIEW BY A NBRA MEMBER

I'd like to give a big shoutout to Atticus, one of your supplier members. They helped me save nearly £3,000 on my insurance renewal. Interestingly, they worked with the same underwriter and did an outstanding job.

- Highly professional
- Incredibly helpful
- Thoroughly explain details
- Available after hours to provide reassurance

WE HAVE SAVED OVER £60,000 IN PREMIUMS FOR THE BODYSHOP INDUSTRY IN 2023

LUKE JONES

MD Atticus Insurance

Insurance premiums continue to rise for all types of insurance products. It is essential to collaborate with an insurance broker who provides personalised guidance and guarantees that the renewal choices proposed are best suited to your business requirements.

As an independent broker, we take pride in delivering a first class service to all our clients and safeguarding their interests at all times.

Why choose a recruiter? (me specifically)....

Kirsty Mellon

Managing Director at Kirsty Mellon Recruitment

Mobile 07983854905

Email
info@kirstymellonrecruitment.co.uk

Automotive recruitment covering the UK

I'm an automotive recruiter with over 8 years' experience within the accident repair and dealership world.

Fave drink: Strawberry daquiri (frozen holiday ones are the best)

Fave food: Pizza

Fave hobby: Throwing weights around at the gym

Loves travelling and exploring new places

Hates flying ants and being cold

Random fact about me: I'm the oldest of 10 children, 6 sisters and 3 brothers.

Easy peasy.... It'll save you time and money! Yes, money as well! Let me tell you a story.

Gareth needs staff. Gareth's Bodyshop is losing money because he doesn't have enough staff to get through the work. None of Gareth's mates know anyone who's looking for work. Gareth now has to pay for job adverts. He also has to pay if he wants to have a look on CV websites and contact potential candidates and it's expensive, Gareth had no idea. Gareth's falling behind on his workload and family time because he's having to make time to look at CV's and interview people and still hasn't had any luck. Gareth is losing patience with it all.

Here's where I come in (the recruiter I mentioned that you should choose):

- I already have a database of vetted candidates plus I have access to other cv databases, if I need them
- I've been in automotive for near on a decade so I'm familiar with the industry
- All of my time can be spent trawling through potential candidates
- I'll pre-screen them before I send the CV to you, to make sure they're suitable
- I'll even cover the cost of advertising your jobs

Easy peasy.... It'll save you time and money!

All you have to do is tell me what staff you need, and then interview the lucky candidate, who I'm confident will be exactly what you're looking for.

There is a fee, of course, this is my job after all, but we can talk about that and you won't pay anything until the successful candidate starts work!

What have you got to lose?

Call me on 07983854905 or email info@kirstymellonrecruitment.co.uk

15m Safety Spring Rewind Hose Reel

Part Number: C2782A

Multi-functional Hi Vis safety spring rewind air hose reel has an automatic rewind system which prevents the hose from bunching when retracting the hose back. The slow retraction system will prevent the hose from speeding back to the reel if the operator accidentally lets go of the hose.
 Max Pressure: 300 psi
 Comes complete with 3/8" to 1/4" adaptor

Normal List Price £173.88 + VAT
Special offer price £130.00 + VAT

Rechargeable Head Light

Part Number: JT102
 The JT102 rechargeable headlight has 5 power settings: White light (250lm), Medium White light (150lm), flashing white light, red light and flashing red light. Hands Free Sensor switch. Built in battery level indicator. Type-C fast charging port protected by a rubberized bezel. Complete with two straps, head strap and hi-vis non slip hard hat strap. Offers 60° tilt.
Normal List Price £12.50 + VAT
Special offer price £11.00 + VAT

Foldable Rechargeable Worklight

Part Number: JZ101

The JZ101 has a 10W COB LED which produces an exceptionally bright floodlit area. In addition to the strip light there is a 200lm LED end light which provides an additional directional / torch function. 10W COB LED for a wider and brighter lighting area. 5W LED top light offers an additional flashlight function. Lithium-ion rechargeable battery for longer life and consistent power. Unique spring loaded clamping base.
Normal List Price £22.50 + VAT
Special offer price £20.00 + VAT

Rechargeable Slim Floodlight

Part Number: JBSFFLY10 (Yellow)
 Part Number: JBSFFLG10 (Green)
 Part Number: JBSFFLR10

The professional slim foldable rechargeable flood light has two light settings emitting either 400 or 800 lumens. The aluminium body and stand allows for multiple light positions. Charging Time: Approx. 5 Hours Operation Time: Approx. 2 to 4 Hours

Normal List Price £50.00 + VAT
Special offer price £35.00 + VAT

Intrinsically Safe FlashLight

Part Number: JXPP-5422GM

Integrated magnets located in base of the handle and the pocket clip. Power comes from 3 AA premium batteries (Not Included).

Lumens	Flashlight - 210 Floodlight - 130 Dual Light - 285
Run Times (Hrs)	Flashlight - 14 Floodlight - 20 Dual Light - 10
Beam Distance	187m

Normal List Price £71.00 + VAT
Special offer price £49.00 + VAT

Large Spraying Stand

Part Number: EST2

This universal Panel stand has been designed to support Panels doors and other parts. Remains stable and manoeuvrable even with the largest panels.
Fully galvanised steel construction.

Wide Wheel Base for Stability
Extension bar provides extra area for larger panels
quick brackets provide multiple holds
Foot operated swivel lock

Normal List Price £270.00 + VAT
Special offer price £145.00 + VAT

Standard door spray stand

Part Number: EST1

This universal door stand has been designed to support car doors and other parts. Remains stable and manoeuvrable even with the largest panels.
Fully galvanised steel construction.

The School of Thought Automotive in collaboration with Autotech Academy launched the very first Automotive Careers Week (AWE 24) which took place from 15th April - 19th April 2024.

A call to action for the industry. By having a dedicated week will present the automotive sector as an exciting career choice for school leavers, address the current skills gap, and empower automotive employers to recognise the importance of offering work experience and apprenticeships to young people.

School of Thought have created a FREE directory to make it easy for young people in education to find automotive employers from all sectors.

While emphasising the pivotal role of work experience in nurturing young talent and addressing the industry's skills gap School of Thought will also provide a new website designed by young people for young people showing the diverse career paths available within the automotive sector.

The School of Thought Automotive was established in 2019 as a not-for-profit organisation to elevate the profile of the automotive industry in school years 9 to 11, targeting pupils, parents, and educational institutions. Our new website www.schoolofthoughtautomotive.co.uk has been developed for young people to find out more about the careers in the industry. There is also a section showcasing current partners from all the industry giving visitors the chance to understand that we have an industry that is more than spanners and sprayguns.

By being in this National directory companies will become visible to pupils and students looking for work experience, apprenticeship or job opportunities and it's really easy to register on the School of Thought website.

“In today's fast-changing automotive world, the importance of attracting and retaining young talent cannot be overstated. The automotive industry is steeped in myths and perceptions, with many believing there are limited progression opportunities,”

“Through a National Automotive Careers Week, our united aim is to change this narrative and showcase the automotive sector as an innovative, diverse, and exciting career route and attract a new generation.

We need to work collaboratively as an industry to attract young people to the automotive sector before they enter further education and work experience is a vital way to achieve this leading on to more apprentices Therefore, we are encouraging as many organisations as possible to sign up and commit to offering at least one young person a work experience placement in the new School year”

comments Dave Reece, founder of The School of Thought Automotive.

For more information about National Automotive Careers Week 2025 or getting on the National Directory and how to get involved, please visit www.schoolofthoughtautomotive.co.uk or email Dave at dave@ready4work.uk

HORIZON

ACCIDENT REPAIR GARAGE

0161 543 7222

Introduction to Horizon Car Repairs, an independent, family-run body shop with a proud tradition of excellence. Our new site in Poynton, which opened in April 2024, represents a significant expansion of our services and capabilities, allowing us to cater to a broader range of vehicles and repairs.

At Horizon Car Repairs, we specialise in everything from minor repairs to large structural damage for all makes and models of vehicles. Our commitment to quality is demonstrated by our BSI10125 certification, ensuring the highest standards in vehicle body repair.

Our new Poynton facility is equipped to handle a variety of vehicles, including large vans, motor homes, and caravans. We boast three state-of-the-art booths: one for commercial vehicles, one for semi-commercial vehicles, and one standard booth. This expansion enables us to serve an even wider range of customer needs with efficiency and precision.

We also offer comprehensive services for non-fault claims, providing free courtesy vehicles and eliminating excess charges to ease the process for our customers. Whether you're a retail customer, an insurance client, or part of a fleet operation, we are ready to meet your needs with professionalism and care.

Our grand opening event in June was a resounding success, and we are excited to bring our enhanced capabilities and exceptional service to the Poynton community and beyond.

Thank you for considering Horizon Car Repairs for your vehicle repair needs. We look forward to serving you.

Poynton Industrial Estate. Poynton, Stockport SK12 1YL

Family Owned & Fine Tuned Vehicle Collision Repair Centre.

Collision Repair

Shalliker Autobody repair was established in 2016 by Andrew Shalliker who has over 25 years' experience in the car body repair industry, his knowledge proves invaluable and can only be attained through work-based learning.

The company has now doubled in size and includes top of the range equipment such as a new spray booth and a chassis jig. By investing in the company, it shows we provide high quality repairs.

This also shows through our customer relationships, we have built a strong rapport with our customers who always return, which we are always thankful for.

Shalliker Autobody now has a good team of employees who share the importance of a high standard of repairs. Andrew's wife, Lauren has also joined helping run the business side of the company on 2021.

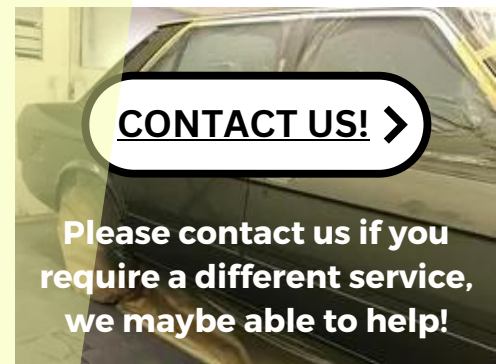

In 2024 the business has seen a huge increase in demand thanks to gaining new contracts and we are working towards BSI Standard.

SECURING NON FAULT REPAIRS

5 Tips to securing non-fault repairs.

- 1: Ask some simple questions at the start of doing an estimate as to who was to blame for the accident – you will be surprised as to how willing customers are in providing their views, particularly if its not their fault.
- 2: Remind your customers that they paid for their insurance to cover them should they cause an accident, and not for the benefit of the other driver.
- 3: Advise them that should they claim on their policy, fault or non-fault, they will pay up front their excess amount.
- 4: Also confirm to them that their policy is effected if there is a claim . Even if its isn't their fault, their policy will have a claim registered against it, and this WILL affect their premium amount, come the time of renewal.
- 5: Finally make them aware that if they let their insurer choose the repairer, then they will only be offered a small courtesy car while their car is being repaired. However by following your recommendations, they will be provided with a vehicle similar in size to their own.

There is only one way to ensure that;

A: Your client doesn't pay an excess

B: They keep their insurance no claims status clean

C: They get provided with a like for like replacement vehicle

D: And they have all the hassle and stress taken away from them

and that's to allow a specialist company to take the claim directly to the third party insurers on their behalf. If you follow these steps you will secure more repairs, securing top labour rates, being paid in 24Hrs, and you will earn more from your hire commissions.

GDI *Services*

Specialists in OE Dealer Diagnostic Procedures,
ADAS Calibrations, Key Programming, Air Conditioning,
Resetting of Dashboard Warning Lights

Bodysshops with their own ADAS equipment may be experiencing problems calibrating newer vehicles.

This could be Secure Gateway security (SGW), blocking communication with diagnostic equipment or vehicles that are working on new diagnostic protocols E.g. DOIP.

Vehicles currently affected or require a security login to access certain control modules.

Alfa, Fiat, Ford, Hyundai, Jaguar, Jeep, Kia, Land Rover, Mercedes, Nissan, Renault, VAG.

GDI have the ability to get through the SGW by the use of our OE diagnostic equipment & account security logins.

If you can't complete your calibration or you simply don't have the calibration target, software or extra equipment needed we can help.

Unlike other companies GDI don't use or rely on a third party to remotely program & code new control modules. We use genuine original equipment and software.

Our OE Diagnostic equipment, software & security access allows us to complete OE ADAS Calibrations and safely program, code & configure new control modules Headlights, S-Racks, Radar, Airbag, Keys etc.
