ABOUT

melba's

Opened in 2005, the eponymous restaurant was the vision of founder **Melba Wilson**. Being born, bred and buttered in Harlem, Melba knew she wanted to stay close to home so she could nurture and provide an exquisite yet comfortable dining experience to the community that raised her.

As a young adult working at Sylvia's, Rosa Mexicano, and Windows on the World restaurants, Melba saw first-hand what it took to own and operate a successful business. She quickly became aware that diners have the opportunity to eat wherever they choose. When great food is combined with remarkable service, the

result is a dining destination that patrons come to regard as home. It is the commitment to exceptional customer service, coupled with great food, that makes the standard of excellence that exists today. On any given day, you can find Melba greeting guests with hugs, her trademark smile, and inquiring of her customers as to whether there is anything she can do to enhance their dining experience.
