VOX

FREEDOM BEGINS AT HOME

A home mirrors the passion, style and aspirations of its inhabitants. The choice of furniture, its function and materials speaks volumes about who we are. This is why we, at VOX, we believe that the freedom of choosing and creating your own space belongs only to you since freedom begins at home. Everyone should be themselves at home.

The Concept collection allows you to choose the front colors of some parts to adjust the room to your taste.

SIMPLE CHANGE, STRONG EFFECT

Need an idea for a teenager's room? Concept will brilliantly fit in all the teen matters. And when your child wants change, just switch the color of the fronts and a new room is ready.

A strong detail can change everything. Blue, red saffron, oak - choose the color of the front and give the interior a new mood.

AESTHETICS COMBINED WITH COMFORT

The collection has been designed based on simple geometric divisions. This gives the interior an interesting, minimalistic look. The pieces of furniture based on oak legs become lighter and stable at the same time.

Silicon-framed holes are a characteristic part of the collection. They are used as handles and their colors always match the chosen color of the front.

Concept is also comfortable. The especially designed bed headboard is perfect for long hours of reading notes. It will also be ideal for evening laptop movie time.

A SOLID BASE

Legs made of natural oak give lightness and character to the spacious geometric shapes. The height of the legs makes cleaning easier.

The hanging shelf has an open and covered part. All bits and bobs can be hidden behind the graphite front.

A NICE PLACE FOR STUDYING

The desk is a very important part of a teenager's room. We made sure that the large, functional tabletop will make work easier and the spacious drawers will fit in all the needed school supplies.

No guiding rails means that the drawers can be used as boxes in which all treasures and secrets can be safely stored outside the desk. The drawers have a safety mechanism preventing from sliding out.

Let's not forget about entertainment. In a young gamer's room, all electronic devices can be stored in the clever RTV stand.

STORAGE POWER

2 and 3-door closets will match both small and big rooms. Equipped with bars, shelves and drawers, they will successfully fit in all clothes of a teenager. Thanks to the soft close mechanism in the doors and drawers, using this closet will become more comfortable and pleasant.

The collection also contains a chest of drawers, a cabinet and a bookcase that will allow you to store everything you need.

A top-down view of a desk with a laptop, pens, a coffee cup, and a small plant. The laptop screen shows a 3D interior design application. The desk is light-colored wood. There are several pens and pencils in a holder, a small green plant, a green bowl, and a cup of coffee on a saucer with a spoon. The laptop is open and shows a 3D rendering of a room with furniture and walls. The text is overlaid on the right side of the image.

YOU CAN BE A DESIGNER TOO!

Check out our original platform for creating and arranging interiors - VOXBOX. It's a simple and intuitive on-line app for designing interiors. Try out different furniture layouts and see how they can be positioned in your rooms. Post your project and share it with your friends and family.

How to design using VOXBOX?

Start by giving the room's dimensions and doors and windows positions. Then choose the color of your walls. Next you can decide which VOX collection you want and which particular furniture pieces. Place them according to your ideas and don't worry - VOXBOX will let you know if a given position is impossible. Save your project to your account so that you can get back to it later and make changes. You can also generate a printable photo. Your project can be shared with other VOXBOX users or on social media.
