

AGENTS MART

Your fast path to agent action and operational ROI

AgentSmart

ABOUT MAI

Enabling Organisations move from AI Curiosity to confident, scalable Agent Adoption

Who We Are

Our approach combines strategic insight, human-centered design, and deep technical expertise to identify and implement agentic solutions that create measurable operational value. We don't just build agents; we manage them as a service to ensure they deliver continuous ROI.

What we believe:

- Agents should amplify your people, not replace them.
- Agentic solutions must be responsible, transparent, and auditable to be effective.
- Success happens when strategy, design, and operational capability align.

What we do:

- Reimagine workflows with intelligent, autonomous agents.
- Build and manage AI agent strategies grounded in real business value.
- Empower your teams with the skills and confidence to collaborate with a digital workforce.
- Ensure every agent is human-centered and ethically sound.

AgentSmart

MAI'S CAPABILITIES

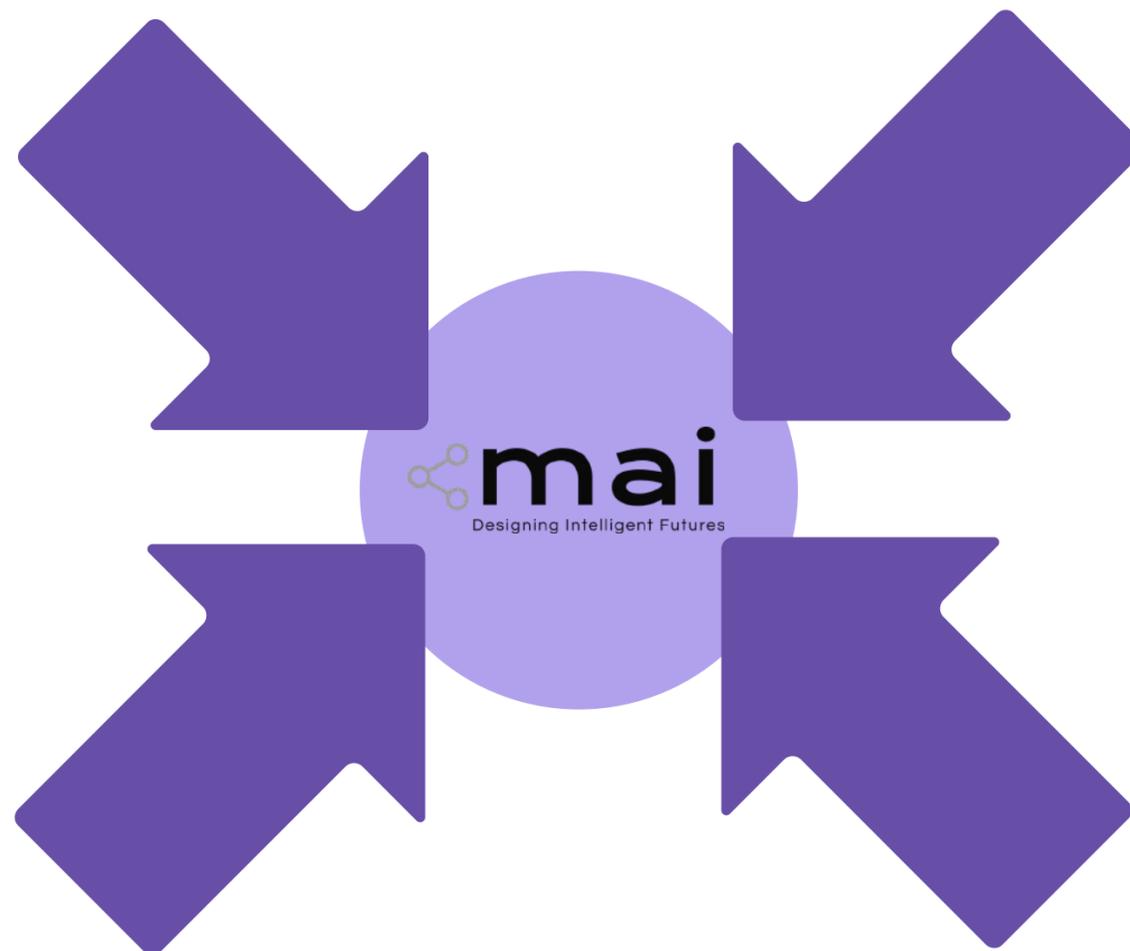

Delivering More for Less in a High-Stakes World: A structured progression from strategic advisory to fully managed, outcome-driven services.

Agent Managed Services

- Ongoing operational management, monitoring, and optimisation of your AI agent workforce to ensure continuous performance, reliability, and ROI.

Enablement

- Project delivery, change management, and capability building to ensure your teams can effectively collaborate with their new digital colleagues.

Solutions

- Human-centred design of agentic workflows and operational intelligence to ensure agents solve the right problems and are adopted by users.

Frameworks

- AI Agent Strategy & Readiness, Governance, and Ethics to build a solid foundation for scalable and responsible agent deployment.

AGENTSMART - FOR LEADERS WHO WANT TO DEPLOY AI AGENTS, BUT NEED CLARITY BEFORE COMMITTING BUDGET

The world of AI agents is evolving at an unprecedented pace. Deciding where to start, what to automate, and how to invest is overwhelming. AgentSmart gives you a practical, evidence-based plan for adopting AI agents, with clear priorities, budgets, and a roadmap to operational success.

In less than two weeks, you'll know:

- Where AI agents can create measurable operational value.
- What is feasible with your current data, systems, and teams.
- What investment is required for a successful agent deployment.
- Which agent opportunities deliver the fastest ROI.

No hype. No guesswork. Just a clear path to your future digital workforce.

THE SITUATION - THE REALITY FOR MOST LEADERS

You know AI needs to be part of your strategic agenda - but:

You're not sure which processes are right for automation or which agent use cases matter most.

You don't know how much to budget for agent development, deployment, and ongoing management.

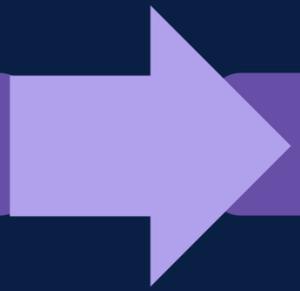

You don't know what you don't know about agent reliability, security, and governance, making decisions high-risk.

You want to invest wisely in a scalable agent strategy, not just react to the latest AI hype.

"Remaining budget this year"

"Planning for next year"

INTRODUCING AGENTSMART

We are not a tech vendor pushing tools - we are your strategic partner in building and managing a high-value digital workforce

What makes us different:

- Design-led approach → ensures agents solve real problems and are adopted by your teams.
- Ethical & transparent frameworks → reduces risk and builds trust in your agentic systems.
- Real-world delivery & management expertise → we've implemented and managed agents, not just talked about them.
- Cross-industry insight → enabling you to learn from agent successes across sectors.
- Platform Agnostic → we leverage the best platforms (Airia, Google Cloud) to fit your needs, not ours.

Purposeful agents, built around people, managed for performance - not hype

WORKSHOP OVERVIEW

AgentSmart: A short, high-impact strategy sprint designed for executives who want to build their digital workforce, fast - only £5k

Over a series of structured sessions led by our AI agent, design, and strategy experts, you'll gain:

Focus Area	What You Get
Agent Landscape Overview	Understand agent trends, proven use cases, and platform shifts relevant to your business
Competitive Benchmarking	See how competitors and innovators in your sector are leveraging agents to gain an edge
Opportunity Mapping & Priotisation	Identify the top 3-5 agent opportunities based on ROI, feasibility, and strategic fit
Investment & Capability Guidance	Receive clear ranges for budget, team involvement, technology needs, and expected operational outcomes
Agent Delivery & Management Framework	Understand the recommended approach for implementing and managing your chosen agent initiatives to ensure long-term success

This isn't a workshop - it's your agent strategy accelerator.

OUTCOMES - FROM UNCERTAINTY TO ACTIONABLE STRATEGY

You'll walk away with:

A prioritised Agent roadmap - Your top agent opportunities with clear business cases, risks, and expected operational return

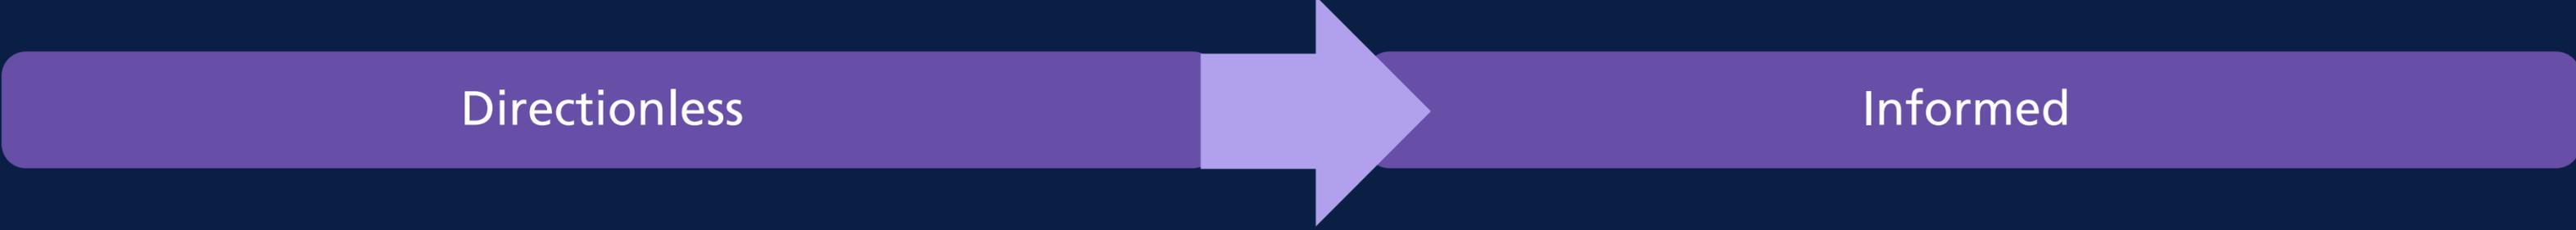

A costed investment plan - Budget, timelines, team requirements, and platform/vendor considerations for your agent strategy

A clear readiness picture - What data, skills, and governance you need to build and manage a digital workforce safely

Decision Confidence - A structured, evidence-based plan to present to the board or exec team for your agent investment.

AGENTSMART. START NOW

Tomorrow starts with clarity. The future of work is agentic. Don't get left behind. Choose your path forward.

Clarity starts with AgentSmart. Don't let uncertainty delay your progress. AgentSmart gives you the clarity, confidence, and direction you need to make smart agent investments.
