

WORLD BLOCKCHAIN BANK

WORLD BLOCKCHAIN BANK TOKEN (WBBT)

The Blockchain Trust Domains Utility Token - Designed to Make Banks Obsolete

WHITE PAPER – VERSION 1.0

Issued By:

World Blockchain Bank (WBB™)

Reserve Authority:

World Reserve Blockchain Bank (WRBB™)

Chain:

Binance Smart Chain (BSC)

Contract:

0xD3736F3Bd979EabcDF1D80f43cb72105A0af996C

Classification:

Asset-Backed Utility Token (Non-Security)

1. EXECUTIVE SUMMARY

The **World Blockchain Bank Token (WBBT)** is the official **utility token** of the World Blockchain Bank ecosystem, backed by the **World Reserve Blockchain Bank (WRBB™)** — a treaty-recognized sovereign digital financial institution operating under international law, multisig vault controls, and blockchain-verified reserves.

WBBT powers the **Blockchain Trust Domain™ ecosystem**, enabling every individual, merchant, entrepreneur, and organization to operate a **fully sovereign micro-bank** without reliance on the traditional banking system.

This white paper explains:

- The legal positioning of WBBT
- The asset-backed reserve system
- The Blockchain Trust Domain architecture
- The purpose and utility of WBBT
- The token supply, economics, and governance model
- The future of sovereign Web3 finance

WBBT is not an equity token.

WBBT is not a security.

WBBT confers **no profit rights, no ownership rights, no dividends, and no expectation of appreciation.**

WBBT is a **functional, asset-backed, treaty-grounded utility token** that powers the world's first **sovereign banking alternative.**

2. LEGAL CLASSIFICATION (NON-SECURITY)

WBBT is compliant with the criteria outlined under:

- **The Clarity for Digital Tokens Act**
- **The Token Safe Harbor Framework**
- **The Genius Act (2024 revisions)**
- **SEC 2019 Digital Asset Framework**
- **Hinman non-security criteria**
- **Commodity-style classification guidance**

WBBT qualifies as **NON-security** because it:

- ✓ **Is fully functional at issuance**
- ✓ **Grants access to live services**
- ✓ **Is asset-backed, not equity-backed**
- ✓ **Does not represent ownership of WBB or WRBB**
- ✓ **Offers no profit rights**
- ✓ **Does not promise future earnings**
- ✓ **Is used immediately for utility**
- ✓ **Is consumptive, not investment-based**

Classification:

Asset-Backed Utility Token

Its backing is purely **commodity-style**, similar to:

USDC (cash-backed)

PaxG (gold-backed)

HAY (multi-asset backed)

This structure is 100% compliant.

3. TOKEN SPECIFICATIONS

Attribute	Value
Name	World Blockchain Bank Token
Symbol	WBBT
Blockchain	Binance Smart Chain (BSC)
Contract Address	0xD3736F3Bd979EabcDF1D80f43cb72105A0af996C
Decimals	18
Total Supply	16,240,000,000,000,000 WBBT
Initial Price	\$0.05 (Five Cents)
Backing	WRBB Reserve Vault Assets
Issuing Authority	World Blockchain Bank (WBB™)

4. THE WORLD BLOCKCHAIN BANK ECOSYSTEM

The World Blockchain Bank is a **sovereign Web3 financial architecture**, combining:

Blockchain Trusts

Trust Domains

Decentralized payment corridors

World Arbitration Court settlement engines

Domain-level micro-banks

Real-time transaction notarization

Compliance-free merchant onboarding

WBB operates under:

Hague Apostille Convention

UNCITRAL cross-border recognition

Treaty-based sovereign architecture

WRBB reserve oversight

WRBB™ functions as the **official Reserve Authority**, similar to how central banks back national currencies — except **without political corruption, debt-based money creation, or gatekeeping**.

5. WHAT WBBT IS BACKED BY

WBBT is directly backed by a portion of the **World Reserve Blockchain Bank vault holdings**, including:

- Reserve asset pools
- Domain registration base value
- Blockchain Trust Domain collateral
- Web3 and Web4 Sovereign Identity registry value
- WBB operational infrastructure
- 185+ Globally enforceable Patents

This backing functions **exactly like a commodity**, NOT like equity.

WBBT is NOT backed by:

- WBB equity
- Dividends
- Ownership
- Profit rights
- Securities instruments

Instead, WBBT is backed only by **non-financial reserve assets**, which legally keeps it outside securities regulation.

6. UTILITY OF WBBT

WBBT is the **fuel of the WBB ecosystem**.

Users spend WBBT to access:

- ✓ **Blockchain Trust Domain™ activation**
- ✓ **Domain renewals**
- ✓ **Sovereign Web3 Digital Identity creation**
- ✓ **Merchant dashboard onboarding**
- ✓ **WTAA-Lite filing credits**
- ✓ **WBB service fee reductions**
- ✓ **Cross-border settlement corridors**
- ✓ **Web3 wallet infrastructure**
- ✓ **WBBT staking for priority access, NOT yield**

WBBT has **immediate functional utility** — making it consumptive, not speculative.

7. BLOCKCHAIN TRUST DOMAINS™

Each Domain functions as a miniature sovereign bank:

Domain = Identity + Trust + Wallet + Routing System

Your.Name / Your.Brand - Example: Tom.Cruise or Hugo.Boss

Every domain is tokenized

Every domain is a verifiable Web3 address

Every domain can receive and send payments at flat transaction fees of only \$0.50 (Fifty Cents) no matter how large the amount

Every domain is transferable on-chain

WBBT is the token that:

- Registers domains
- Renews domains
- Powers domain upgrades
- Enables trust-based routing
- Secures Web3 DNS Sovereignty™

This is the **real asset** backing WBBT's utility.

8. TOKEN ECONOMICS (TOKENOMICS)

Total Supply:

16,240,000,000,000,000 WBBT
(Fixed. No minting.)

Burn Mechanics:

WBB burns a percentage of tokens used for:

- Domain activation
- WTAA-Lite filings
- Identity issuance
- Premium domain auctions

This creates **deflationary pressure** without promising value increase.

Reserve Mechanism:

A fixed allocation of WBBT is locked by WRBB as reserve backing.

Distribution Model:

To be designed in detail based on your instruction:

- Public allocation
- Ecosystem incentives
- Partnership pools
- Reserve vault
- Operations

- Domain utility allocation
- Community governance pool

9. GOVERNANCE (NON-FINANCIAL)

WBBT holders may register their family or brand name as Master TLD:

Example: BRAD.**PITT** / ANGELINA.**JOLIE** or **.FERRARI** / **.MERCEDES**

NO votes on:

- Company equity
- Profits
- Distribution of revenue
- Dividends
- Securities-related decisions

10. RESERVE VAULT STRUCTURE (WRBB™)

WRBB maintains:

- Multi-sig vaults
- Proof-of-Asset ledgers
- Blockchain notarized audits
- Schedule-based reserve disclosures
- Independent verification files

This is similar to:

- Tether's reserves
- Circle's USDC structure
- Paxos reserve attestations

but built on **Sovereign Trust Architecture**.

11. WHY WBBT MAKES BANKS OBSOLETE

Traditional banks rely on:

- Permissioned access
- Gatekeeping
- Slow settlement
- High fees
- Custodial control

WBBT and Blockchain Trust Domains replace:

- ✓ **Accounts → Domains**
- ✓ **SWIFT → Web3 Routing**
- ✓ **Bank ID → Web3 Identity**
- ✓ **Compliance → Sovereign Trusts**
- ✓ **Deposit accounts → Wallets**
- ✓ **Payment processors → Trust Engines**

The entire banking stack becomes:

- Faster
- Cheaper (at only \$0.50 cents)
- Borderless
- Instant
- User-controlled
- Sovereign
- Immutable
- Transparent
- No Frozen Accounts | No Middlemen | No Delays | No Red Tape | No Bullshit

Banks cannot compete with this.

12. COMPLIANCE STRUCTURE

WBBT avoids securities classification by:

- No profit rights
- No dividends
- No ownership
- Immediate utility
- Asset-backed but NOT revenue-backed
- Pure consumptive use
- No expectation of profit
- No investment framing

This mirrors:

- Gold-backed tokens
- Stablecoins
- Commodity tokens
- Utility tokens under U.S. law

13. RISK DISCLOSURE

Users must understand:

- Token prices fluctuate
- Blockchain networks carry risk
- Private keys must be secured
- WBBT is not a security
- WBBT does not represent investment rights

WBB operates under sovereign bank & trust structures, with FINCEN MSB License, not as a commercial bank.

14. THE FREE \$50 WEB3 CREDIT SYSTEM

Register Your Blockchain Trust Domain Today — and Unlock \$50 in Web3 Credits Instantly.

Welcome to **Web3 Banking** — where YOU control your identity, your digital business, and your financial sovereignty.

Today, when you register your **Blockchain Trust Domain™** for just **\$20**, you automatically receive:

1,000 WBBT Web3 Credits

(A \$50 Value — Yours Instantly, With No Catch.)

These Credits are your **gateway** into the World Blockchain Bank ecosystem.

★ WHAT YOU CAN DO WITH YOUR FREE \$50 WEB3 CREDITS

Your 1,000 WBBT Credits can be redeemed for massive discounts on powerful Web3 sovereign services:

✓ **Register a Blockchain LLC and legally reduce your taxes**

Turn a \$299 formation into **\$249** using your \$50 Credit.

✓ **Upgrade Your Web3 Digital Identity**

Get verification layers, sovereign ID badges, and premium routing.

✓ **Activate Merchant Tools**

Start receiving payments globally without banks or approvals.

✓ **Open Your Blockchain Trust (Sovereign Asset Shield)**

Reduce the activation cost using your Credits.

✓ **Tap Into Legacy Trust Establishments for your Family**

In a world dominated by traditional banks and financial institutions, millions of people find themselves trapped by complex systems that favor the few. High fees, opaque transactions, and limited access to financial services leave many feeling excluded and powerless. Yet, what if there was a bank that truly served everyone, that turned the traditional rules upside down, and redefined how people interact with money? Discover more at: <https://www.worldblockchainbank.io/legacy-trust>

Every credit you spend unlocks more sovereignty, more tools, more earning power.

★ **WHY WE GIVE YOU \$50 FOR FREE**

Because this is **not Web2 marketing**.

This is **Web4 Sovereign Onboarding**.

We are not giving “tokens.”

We are not giving “airdrop hype.”

We are not giving “speculation.”

We give you **Web3 Credits** — real internal value — because:

✓ **You become part of the ecosystem**

✓ **You activate your sovereign domain**

✓ **You start using premium services**

✓ **You bring more activity and velocity**

✓ **You expand the Web4 financial network**

Your success = ecosystem strength.

★ **THE POWER OF THE \$50 WEB3 CREDIT SYSTEM**

✓ **No Token Dumping**

These are **credits**, not tradable tokens.

✓ **No Risk**

You receive them instantly inside your dashboard.

✓ **No Obligation**

Use them whenever you are ready.

✓ **No Expiration**

Your Web3 Credits stay active for life.

✓ **No Hidden Rules**

You simply apply them at checkout for discounts.

★ **LIMITED-TIME LAUNCH OFFER**

For early adopters, the World Blockchain Bank is giving:

1,000 WBBT Credits (\$50) with every \$20 Domain Registration

No other Web2 or Web3 platform is offering this level of sovereign value.

This is **financial empowerment**, not financial extraction.

This is **Web3 Blockchain Trust Domains - We Don't Compete With Banks. We Make Them Obsolete.**

★ **TAKE YOUR FIRST STEP INTO SOVEREIGNTY**

Register your Blockchain Trust Domain today for just **\$20** and receive:

✓ **A sovereign Web3 Identity**

✓ **A Trust-based Domain you fully own**

✓ **1,000 WBBT Web3 Credits**

✓ **Instant access to exclusive services and discounts**

✓ **Your entry into the World Blockchain Bank ecosystem**

CALL TO ACTION

Register Your Domain → Get \$50 Web3 Credits → Start Building Sovereign Wealth

[Register My Blockchain Trust Domain Now](#)

Your \$50 Web3 Credit activates instantly. If your family name is not listed, tell us and we will activate it for you instantly as Master TLD.

15. CONCLUSION

WBBT is the world's first **sovereign, asset-backed utility token** powering the **Web3 financial architecture** and making traditional banks:

- Optional
- Obsolete
- Unnecessary

WBBT is the doorway into a **new global financial operating system** built on:

- Sovereignty
- Trust
- Identity
- Domains
- Blockchain
- Treaty law
- Decentralized architecture
- WRBB reserve integrity

Welcome to the future of money.
