**The Param
Science
Experience**

On to what happened this May

Chief Minister of Assam
Shri Himanta Biswa Sarma and
his team visited Yuvapatha

So naturally
we had to
introduce them
to **Param!**

Speaking of introducing people to Param

Param's very first feature in IFIA!

The International Federation of Inventors' Associations

We also had the honor to hear Dr. Prof. Manjul Bharghava talk hosted by Chanakya University.

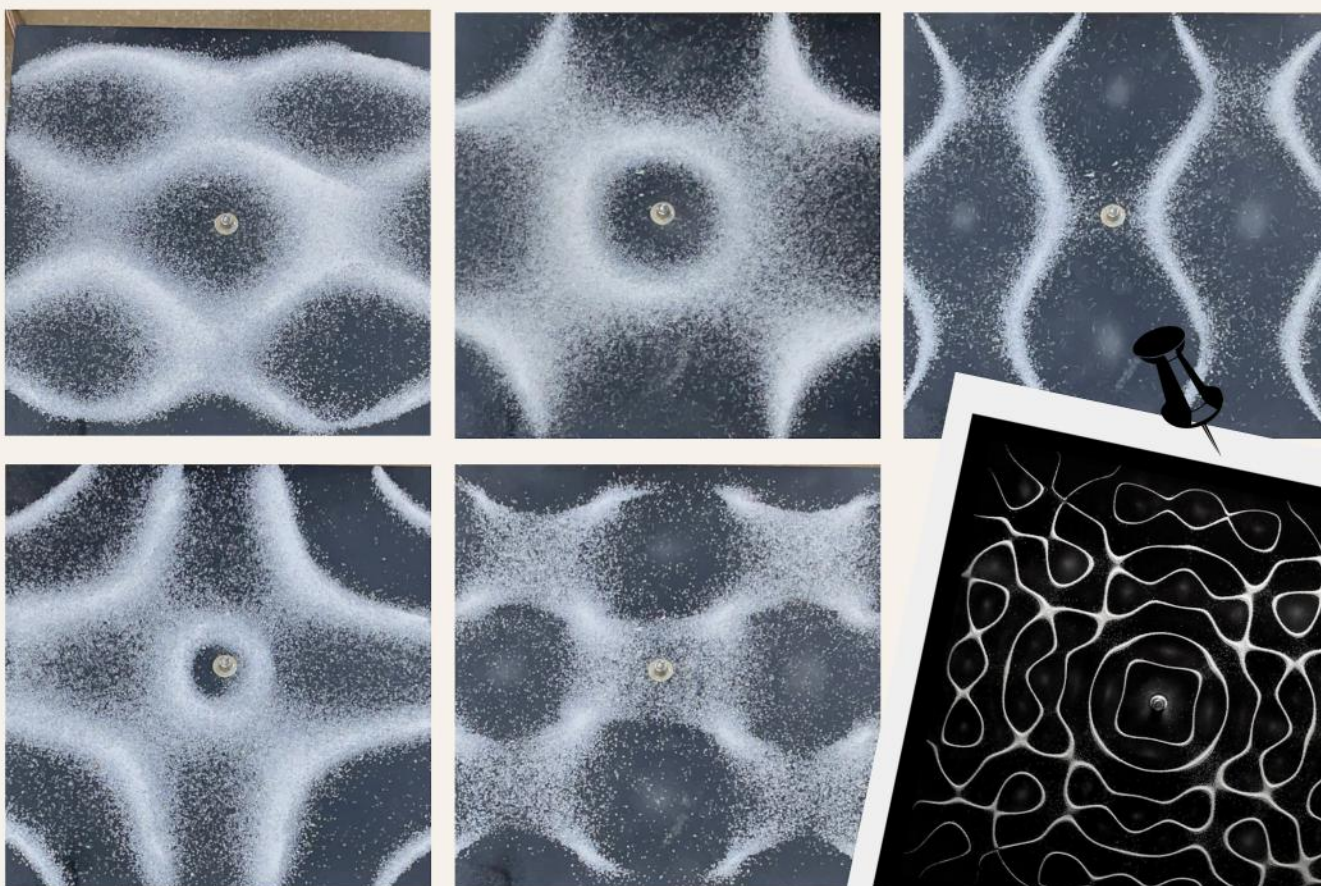

Presenting the creations of the
ImplementTation
Team

Sometimes we need to sit on the floor to find answers

Cymatics

Where sound dances, waves groove, and vibrations make art visible.

SOUND VIBES ONLY

PARAM

Shivam Full Stack Developer

"Being a science enthusiast, I was naturally drawn to Param which combines my passion for technology and curiosity for understanding the science behind things.

Under the guidance of my team head, Umang Gala, I have had the privilege of working on a variety of exciting projects. The exposure to new technologies and libraries has been a significant highlight for me. I have been entrusted with a range of responsibilities, allowing me to expand my skill set and deepen my understanding of different aspects of software development.

In just three months, I have learned so much and am already been able to contribute significantly to the various projects we undertake. The hands-on experiences and exposure to cutting-edge technologies have given me a solid foundation to further my career as a full stack developer. I am immensely grateful for the opportunity to work in such a dynamic and enriching environment. This experience has not only broadened my technical knowledge but has also fueled my curiosity and passion for science. I look forward to continuing my journey here at the Param Science Experience Center and contributing to its mission of making science accessible and exciting for all."

Gowrishankar Industrial Designer

"From the moment I joined the PARAM, I knew I found my calling. Combining my love for Science, Technology and Design, I was able to bring a unique perspective to the table. PARAM embraced my enthusiasm for Industrial Design, and I quickly became an integral part of the implementation team. Working in PARAM has been a transformative experience for me."

Bio-Geo

This month we explore the colours we get from the nature!
