DAY 2

Discovering Saigon

This morning, take a 2hr drive northwest to the famous Cu Chi Tunnels, an immense network of connecting underground tunnels started in 1948 to protect the Viet Cong guerrillas from the French air and ground sweeps. The tunnels also served as living quarters, communication and supply routes, and housed hospitals, food and weapons caches. Touring the underground compounds will provide a better understanding of the history of the tunnels, the hardship of life in the tunnels and the Vietnamese resilience during combat. Return to Saigon. Stop at a local restaurant for lunch.

Afternoon we continue to the highlights of city tour. With over eight million inhabitants and four million motorbikes, Saigon is truly a city that never sleeps. Despite its modernity, Saigon maintains a strong link to the past and our city tour takes in some of Saigon's most historic landmarks including the Notre Dame Cathedral, a red brick edifice with twin spires constructed from materials imported from France (entrance is only permitted when no services are being performed).

Then head across the square to the Central Post Office, completed in 1891. A short drive away is the former Presidential Palace, the headquarters of the Saigon Government during the American War. Continue to the War Remnants Museum for a vivid perspective of the American War through the eyes of the Vietnamese. (Please note that some of the displays are very graphic.) Experience Saigon's famed street coffee culture while your guide provides a brief language lesson as well as insights into daily life of a Saigoneuse before returning to your hotel.
