About us

TedesContract is part of the OXA group. Our work is the perfect development of the combination of traditional craftsmanship and modern technology. Our designs are reinterpreted to meet today's environmental needs. Each piece embodies the best values of craftsmanship of our time. Scandinavian clarity, Japanese simplicity and American ingenuity, all combined and refined into what we call the TedesContract style.

“
A great and
professional team with
sharp vision!”

We are a team of creative professionals who cultivate a culture of integrity and quality and corporate culture, which is characterized by many years of experience in woodworking, design, engineering and art. Our designers work closely with our craftsmen to meet structural and technological requirements and to ensure that each piece is made with precision and accuracy. Our design process begins with a vision of what a space can offer and a concept of how you can transform your environment to add functionality and beauty to your life. From furniture to kitchens, to architectural interior design, our attention to details will guarantee a result that will enrich your life for years to come. Our factories are equipped with the latest and highest quality woodworking technology. These tools, combined with masterful craftsmanship, allow us to create perfect standards and assemble them into quality pieces.
