

# Building Smarter, Safer, More Sustainable Facilities, Together.

## Optimizing Healthcare Logistics: Comprehensive Solutions for Facility Efficiency and Patient Focus

### Customized Supply Solutions for MRO Needs

Our team collaborates with healthcare facilities to streamline Maintenance, Repair, and Operations (MRO) procurement through tailored, easy-to-navigate punch-out catalogs. By providing instant access to pricing, availability, and product specifications, we help healthcare providers manage and optimize essential supplies for seamless operations.

### Strategic Inventory and Energy Management

With a focus on cost and energy efficiency, we conduct thorough MRO inventory evaluations and energy audits to uncover opportunities for vendor rationalization and consumption reduction. Our energy-focused strategies support hospitals, clinics, and senior care facilities in reducing costs and enhancing sustainability.

### End-to-End Support for Capital Projects

For large-scale upgrades, our Switchgear and Lighting Specialists oversee all stages of equipment procurement and storage, ensuring reliable access to critical components despite potential supply chain challenges. Our experts partner closely with your procurement and engineering teams, enhancing your facility's ability to prioritize patient care.

for Sustainability

Our team of experts offer a **comprehensive range of solutions** to ensure your project meets your deadlines and your design specs.

- Design Assistance
- Value Engineering
- Project Management
- Start Up and Commissioning
- Supply Chain Management
- Cyber Security

# Smart, Sustainable Construction Solutions that Drive Value, Efficiency and Effectiveness

Our expert team is dedicated to helping you enhance your operations with:

## Safe & Efficient Switchgear Solutions:

Ensure control and protection of electrical power systems through technical project management, drawing submittals, and post-delivery start-up services management.

## Lighting Energy Efficiency & Effectiveness:

Customize lighting solutions to reduce energy costs, improve workplace conditions, and ensure compliance with local regulations.

## Industry-leading Construction Consulting:

With custom operations and maintenance manuals, our team of experts works hard to ensure that your project adheres to tight timelines and that installations are done safely and according to design specs.

## Safety First Solutions & Services:

We can spot electrical hazards during the design phase prior to construction, and we can help you recover quickly to minimize downtime from unexpected failures due to fires, flooding, and storms.

## Backup, Redundancy, & Resiliency Solutions:

Comprehensive solutions to ensure continuous operations and protection against power disruption.

## Our Related Offerings

### Power Conditioning, Quality & Backup

Uninterruptible power supplies, power factor correction & automatic transfer switches

### Components for Electrical & Mechanical Subsystems

Variable frequency drives, circuit breakers and fuses

### Facility Power Distribution

Busway, transformers, panelboards, switchgear and floor-based power

### Facility/Power Monitoring & Management

Integrated facility systems, facility management software, remote monitoring meters & software

### Monitoring Consoles

Network operations center consoles

### White Space Power Distribution

Low voltage busway, floor-standing/wall-mount /enclosure power distribution units (PDUs)

### Airflow & Thermal Management Solutions

Rack and aisle-based containment solutions

### Racks & Enclosures

IT equipment racks, enclosures and colocation cages

### Wire & Cable Management

Cable tray and modular wiring systems

### Indoor & Outdoor Lighting

High efficiency LED luminaires and lighting controls
