for the club

A club is more than a team. More than players on the pitch.

It's the kid lacing up his boots for the first time. The veteran with a hundred battles in his legs. The grinder in the fifth team, playing for nothing but love of the game. Fans on the sideline, loyal through rain or shine.

The local hero who never misses a matchday, pouring coffee in the clubhouse.

It's all of them. All of us. Sharing the same heartbeat. The same love for the club.

We wear the club. On the pitch. In the hall. In the locker room. At the bar after the game.

The badge on our chest is more than a logo.

It's identity.
It's family.

This isn't just a jersey. It's a story. A history. A future.

Because a club isn't just something you play for. It's something you live. It's something you are.

Stanno. for the club.

A passion for Teamwear

At Stanno, where passion and team spirit meet, we are proud to partner with sports clubs across Europe and the world. We understand that a team is much more than just a group of players on the field – it is a family, a unit, and a source of pride for the community. And nothing reflects this identity better than the club's colors.

From our modern warehouse in The Netherlands, we deliver directly from our stock. No matter the size of the club placing the order – whether it's a few jerseys or a full range for multiple teams – we treat each delivery with the same care, attention, and speed.

When a team walks on to the pitch wearing our kit and the supporters in the stands proudly wear their club's colors, we know we are part of something big. These are not just team kits – they are symbols of solidarity, combative spirit, and pride.

We do not just deliver clothing and equipment. We deliver pride in the colors of every club.

**LONGEST PLC
ON THE MARKET**

In a world where every choice matters, we believe that respecting the environment is no longer an option, but a responsibility. As a partner to sports clubs, we aim to contribute to a future where sport is not only about winning, but also about making responsible ecological choices.

Our approach begins at the source – selecting materials that are not only strong (strength reduces ecological impact) and comfortable, but also planet-friendly. Think recycled fabrics, recycled packaging, and even carbon-neutral shipping.

Thus, we create sportswear that lasts longer and has a reduced environmental impact.

Sustainability is also reflected in our PLCs. We use the longest PLC on the market, minimising unnecessary interim replacements to maintain unity. Together with associations that understand that sustainability and sport can go hand in hand, we are proud to continue innovating.

We continue to innovate with pride, alongside clubs who understand that sustainability and sport can go hand in hand. Wearing your club's jersey means more than just team spirit – it can be a symbol of care for the world around us.

Together, we move forward.

And you?

Are you ready to join us?

Our Studio and Bolt collections are made entirely from 100% recycled polyester!

STANNO

**Create a kit
that you can take pride in!**

Special Design

Together we can insert that team spirit, identity and local pride together in a unique club kit. With Special Design, the possibilities are endless. From striking shirts to stylish shorts and socks, completely in line with the look of your club.

Quality meets character

Our products combine the high Stanno quality and perfect fit you can rely on, with a design that reflects your club in bespoke detail. Think unique patterns in your club's colours, everything to make your team play with style.

Our promise: Function. Shape. Appearance.

We develop every product with an eye for detail, according to our own Stanno design philosophy:

1. **Function:** Performance and comfort always come first.
2. **Shape:** Stylish and modern, down to the smallest details.
3. **Appearance:** Your club identity, translated into a powerful design.

Everything is developed under our own direction in our head office in Deventer, so that we can always guarantee the highest standard.

"A CLUB WANTS ITS OWN UNIQUE IDENTITY. THE GREAT THING ABOUT OUR WORK IS THAT WE CAN CAPTURE THE UNCONDITIONAL PASSION FROM THE CLUB IN A KIT."

Your club. Your pride. Your kit.

SKETCH AND COLOUR

DESIGN AND MATERIALS

PRODUCTION

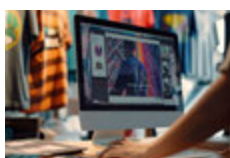

RESULT

Sketch and Colour

Design and colour all starts with a dream. Together with your club, we will work to design a kit that strengthens the team spirit, conveys the club identity and lets the local pride shine! In conjunction with your retailer, we listen to your wishes and ideas. This creates a first design, completely based on your club colours, logo and unique appearance. This is the start of a design that really suits you. With your feedback, we refine into a design that is as unique as your club.

Design and materials

Now the magic really begins. Once the design is finalised, we will choose the materials and finishes that perfectly match your needs. Think high-quality fabrics that provide ultimate comfort and top performance, combined with touches that finish your kits down to the last detail. We use our fixed, proven patterns and sizing, so you can be sure that everything fits perfectly. Then the sample process begins: your design comes to life! And only when everyone is 100% satisfied do we start production.

Tailor-Made Production

We only work with the best, specialised suppliers to deliver the quality you can count on and expect from Stanno. Based on the approved sample, we determine exactly where and how your kits will be produced. Every detail is executed with care, so that the end result is not only functional, but also perfectly reflects the club identity.

Result. Your unique kit is ready!

As soon as production is ready and arrives to us, we carry out strict internal quality control. Every detail is checked to ensure that the kit fully meets your expectations. After approval, the kits are carefully packaged and delivered to your selected retailer.. Now is the moment everyone is looking forward to: you are all set to enter the field in style and with pride!

The Stanno family

Stanno is a proud partner of passionate, unique, and inspiring sports clubs, teams, and athletes who give their best in every match. Together, they form the close-knit Stanno family – where solidarity, ambition, endurance, and passion are at the heart of everything.

With us, you are not just a customer number, but a valued partner. We treat each club as an essential partner who deserves to be seen and heard. In our family, there's room for all those who believe in the power of sport and the importance of winning together.

Will you join us?

Every club has its own story. Our team lines help to make that visible. From Stadio, with its high-quality look, to Bolt, with its sporty and modern look.

All designed and manufactured with quality and consistency in mind. All team lines are available in a wide range of colours.

The team line gives each club its own identity and, at the same time, the team spirit and cohesion that athletes need on the field to perform.

Plaza

Collection

Plaza gives your team that little bit of extra flair. Comfortable, stylish and ideal for on the go, in the canteen or on the way to the gym. It's no coincidence that it's the presentation line for clubs such as Go Ahead Eagles. This is a line that shows what you stand for.

Goalkeeper sponsorships

Stanno launched the first collection of goalkeeper gloves back in 1990. Making innovative use of foam and finger protection, the brand set a new standard for goalkeepers. Since then, every new collection is developed in close collaboration with goalkeepers at the highest level.

This way, technology and experience are united in every glove for a maximum result.

Stanno works closely with goalkeepers and clubs at the highest level. The expertise of these professionals is of major value in the development of new goalkeeper gloves and collections.

Foam information

Types of

Properties

Foam					
		Grip in dry weather	Grip in wet weather	Cushioning	Abrasion resistance
	HYPER FOAM PLUS is an ultra-soft and even thicker foam than Hyper Foam. This ensures an even better grip in both dry and wet weather conditions. Its absorbency has been considerably improved, which ensures optimum impact reduction and even better ball control. An additional advantage of Hyper Foam Plus is the improved, longer lifespan.	★★★★★	★★★★★	★★★★★	★★★★☆
	HYPER CONTROL FOAM is one of the most adhesive, thick latex types in the range. The foam structure allows the ball to stick to the glove when catching, ensuring a very strong grip, even in wet conditions. The high absorbency provides optimal impact reduction for stable control and accurate ball control. Remove the plastic film before first use!*	★★★★★	★★★★☆	★★★★☆	★★★★☆
*See the instructions on our website for the best results.					
	SUPER SOFT PROFI FOAM has excellent properties for grip in both dry and wet conditions, and it also offers excellent cushioning. The use of the latest materials ensures durability and optimal comfort.	★★★★☆	★★★★☆	★★★★☆	★★★★☆
	SOFT FOAM provides a reliable grip and excellent cushioning. Soft Foam ensures maximum ball control and optimal comfort.	★★★★☆	★★★★☆	★★★★☆	★★★★☆
		Grip in dry weather	Grip in wet weather	Cushioning	Abrasion resistance
	One Piece Fit Design The supple, lightweight material of the upper hand fits snugly and feels like a second skin. This eliminates the need for an adjustable wrist strap, as the glove naturally provides a stable, snug fit.	The adhesive properties of the foam are decisive for an optimal grip and the best performance. The weather is a big influence on the properties and performances of the foam material. Playing during dry weather requires specific foam components for optimal results.	Moisture, rain and wet conditions affect the grip and require additional components for a better grip. A softer and more open foam structure absorbs the water and is very suitable for wet weather conditions.	As well as grip, cushioning is an important factor in determining the most suitable goalkeeper gloves. The softer and thicker the foam, the better the impact of the ball can be absorbed. Also the thickness of the basic material of the gloves determines the amount of cushioning.	Foam is a very soft material that needs special treatment. Regular ball contact leads to wear and tear of the foam. The degree of wear is determined by the surface structure and the density of the foam material. A more coarse and closed foam structure will lead to less wear.
	Finger protection Firm, flexible strips on the upper side of the fingers provide good protection against injuries in contact with the ball. The flexibility of the strips guarantees that suppleness remains guaranteed while throwing, punching and catching the ball.				

Model information

One of the main features of goalkeeper gloves is the way in which the gloves are stitched. This determines the ball control, grip and comfort.

 ROLLFINGER		Rollfinger-model With the rollfinger system, the finger is completely surrounded by foam, without stitching. The magnification of the grip surface that is created in this way, allows for optimum grip on the ball.				
			Ultimate Grip JR V	Hardground JR VI		
 ROLLFINGER NEGATIVE		Rollfinger negative In a negative-stitched rollfinger model, the latex foam is rolled around the inside of the finger. This increases the foam surface area and therefore grip. The stitching seams are on the inside, making the glove fit tighter around the fingers. This increases ball control.				
			Ultimate Grip V	Ghost		
 FLATHAND POSITIVE		Flathand positive In a flathand glove, with positive stitching, the stitched seams are applied to the outside of the fingers, increasing the foam surface and creating a larger area for catching the ball.				
			Thunder JR VII	Volare Match JR III	Volare Match III	
 FLATHAND NEGATIVE		Flathand negative In a flathand glove, with negative stitching, the stitched seams are applied to the inner side of the fingers, making the glove fit more tightly around the fingers, and increasing the control on the ball.				
			Thunder VII			
 RFH NEGATIVE		Hybrid negative The advantage of the rollfinger system and stitching on the inside of the fingers combined. The glove fits tighter around the fingers because of the stitching on the inside and is also surrounded by foam. The surface area on the inside of the hand is further increased, this makes the surface to catch the ball even greater.

Size Charts

Don't know exactly what size you are?

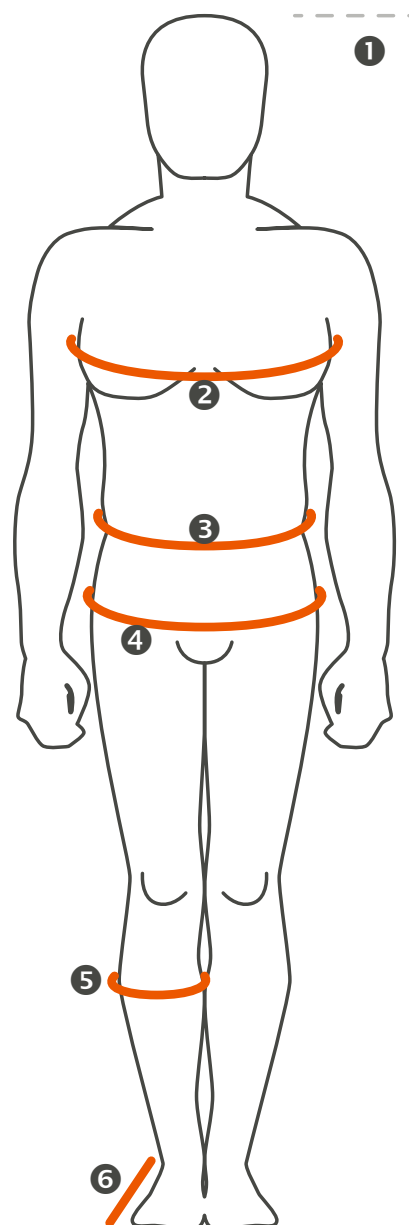

Use our size charts and measurement instructions to determine the size that fits you best.

Our size charts indicate which clothing size best suits your body proportions. We have a wide range of sizes that may vary by garment, fabric or fit, therefore garments may vary slightly from the indicated size.

How to Measure Correctly

1	Body length	Measure from the base of your feet to the top of your head.
2	Chest	Measure at the widest part of your chest.
3	Waist	Measure at the narrowest part of your waist.
4	Hips	Measure at the widest part of your hips.
5	Calf	Measure the widest part of your calf.
6	Foot length	Measure from the tip of your toes to the back of your heel.

SIZES ARE MEASURED IN CENTIMETERS.

Product Life Cycle

For many items, we display a PLC (Product Life Cycle), which indicates how long this product will be available. Stanno distinguishes itself by offering the longest PLCs on the market, which provides the club with financial and sustainability benefits, as it limits unnecessary replacements due to discontinued lines.

Our ambition is to offer very high availability throughout most of the PLC.
