

# O'BRIEN-NOLAN LEGACY

---

**Honouring Judy & David O'Brien and their  
Legacy of Philanthropy**

# THE LEGACY

On March 7, 2025, PHSS Foundation proudly hosted an open house for our newly renovated location in London, welcoming guests to celebrate a milestone made possible by a transformative legacy donation. The event was a heartfelt tribute to Judy and David O'Brien, whose unwavering advocacy for individuals with complex care needs has left a lasting impact on PHSS and the broader community.

Although Judy was not able to celebrate this occasion with us, her spirit was very much present in the love and generosity that made this home a reality. We were deeply honored to have her daughter Erin and husband David join us, along with members of the O'Brien-Nolan family, to witness the incredible impact of their gift.

During the open house guests had the opportunity to share stories, reflect on the profound legacy Judy and David have built, and tour the home and see firsthand how this generous donation has been put into action. Conversations were filled with gratitude and inspiration as those present recognized the incredible advocacy of David and Judy—not only for their daughter Erin but for so many individuals with complex care & support needs. Every thoughtfully designed space reflects the values that Judy and David champion—compassion, inclusion, and the pursuit of a life filled with dignity and joy.

PHSS extends its deepest thanks to David O'Brien for his kindness and commitment to continuing Judy's mission. Through this gift, her legacy lives on, ensuring that individuals with complex care needs have the opportunity to live fulfilling lives in their community.

# THE HOUSE

Now fully renovated, this home has been transformed into an accessible and welcoming environment. Designed with safety and comfort in mind, it includes customized accessibility features to ensure that each person living there can thrive in a supportive space. While many updates were made, the original kitchen was preserved, maintaining the home's unique character while ensuring functionality.
