PICKLEBALL BLISTER RESISTER

COOLMAX®

COOLMAX® technology transports moisture away from your skin to the surface of the fabric where it evaporates quickly to help keep you cool, dry and comfortable.

Mohair is the prize wool of the long-haired Angora goat. It is a unique and natural short staple wool known for its strength, high luster, sheen and smooth handle. These qualities combine to give the wool its most notable characteristic: Blister Resistance. It's ability to reduce friction and wick moisture help the feet stay free from chaffing.
