In addition to our well-known 135x275 mm and 175x275 mm series, Chocolate World now offers frame moulds up to 600 mm frame length and 400 mm frame width, for automated moulding lines for many different brands.

2 WAYS TO MAKE YOUR EXCLUSIVE PROFESSIONAL POLYCARBONATE FRAME MOULDS

1. FULL-EXCLUSIVE CONCEPT

We simply design your chocolate, your idea, your dream. Any conical shape or size is possible upon request. This is the perfect solution for both artisan and industrial producers, who know the design they want, and how they want it. This is the most professional exclusive polycarbonate mould service you will find in the market these days.

The options are endless, we work together with you to create that perfect mould you have always wanted. With a minimum order quantity of 50 pieces, this is an ideal way to promote your own design.

2. SEMI-EXCLUSIVE CONCEPT

If you want to personalise an existing mould with your logo or brand name, this is the perfect cost-effective solution for the same minimum order quantity of 50 pieces. Choose from the selected range of moulds we think are best suited for this purpose, and we can work from there.

OPTIONS

→ Sandblasted versus polished effects

These different effects are just a matter of preference. Some chocolates will look lovely with a polished finish, while others are better suited to a more sandblasted finish. It is up to you to choose which one you prefer. These visual effects can be applied to any kind of tooling.

→ Centre systems (for full and semi exclusive concept)

At Chocolate World we offer our customers the option of centring pins, to ensure faultlessly- balanced double moulds.

2 MOGELIJKHEDEN OM UW EXCLUSIEVE, PROFESSIONELE POLYCARBONAAT KADERVORMEN TE MAKEN

1. VOLLEDIG EXCLUSIEF CONCEPT

Wij ontwerpen eenvoudigweg uw chocolade, uw idee, uw droom. Conische vormen zijn in verschillende afmetingen op aanvraag verkrijgbaar. Dit is de perfecte oplossing voor zowel ambachtelijke als industriële producenten die precies weten welk ontwerp ze willen. Dit is het meest professionele, exclusieve aanbod voor polycarbonaat vormen dat u vandaag de dag op de markt kan vinden.

De mogelijkheden zijn legio. Wij bundelen samen met u onze krachten om die ene perfecte vorm te ontwerpen waarvan u altijd al had gedroomd. Dit is de ideale manier om uw eigen ontwerp te promoten. De minimale afname hiervoor bedraagt 50 stuks.

2. SEMI-EXCLUSIEF CONCEPT

Wilt u een bestaande vorm met uw logo of merknaam personaliseren, dan is dit de perfecte kosteneffectieve oplossing tegen diezelfde minimale afname van 50 stuks. Kies uit de door ons zorgvuldig geselecteerde vormen waarop we ons kunnen baseren voor de verdere uitwerking.

OPTIES

→ Zandstraal- versus polijsteffecten

Deze verschillende effecten zijn een kwestie van voorkeur. Sommige chocoladeproducten zien er mooi uit met een gladde afwerking, terwijl andere er beter uitzien met een gezandstraalde afwerking. De keuze is volledig aan u. Deze visuele effecten kunnen worden toegepast op elk type vorm.

→ Centreersystemen

Bij Chocolate World bieden wij onze klanten centreerpinnen aan om ervoor te zorgen dat dubbele vormen perfect uitgelijnd zijn.

■ 2 FAÇONS DE PRODUIRE VOS MOULES EN CADRE PROFESSIONNELS EXCLUSIFS EN POLYCARBONATE

1. CONCEPT TOTALEMENT EXCLUSIF

Nous élaborons simplement votre chocolat, votre idée, votre rêve. Toute forme ou taille conique est possible sur demande. C'est la solution parfaite pour les artisans comme pour les industriels qui savent ce qu'ils veulent et comment ils le veulent. C'est aujourd'hui le service de production de moules exclusifs en polycarbonate le plus professionnel qui soit disponible sur le marché.

Les options sont infinies ; nous collaborons avec vous pour créer ce moule parfait que vous avez toujours voulu. Avec une quantité minimum de 50 pièces en commande, c'est le moyen idéal pour promouvoir votre propre design.

2. CONCEPT SEMI-EXCLUSIF

Si vous souhaitez personnaliser un moule existant avec votre logo ou votre marque, c'est la solution parfaite et économique pour la même quantité minimum de 50 pièces en commande. Choisissez parmi la gamme sélectionnée de moules que nous pensons être la mieux adaptée à cette fin et ce sera notre point de départ.

OPTIONS

→ Effets sablés ou polis

Ces effets variés ne sont qu'une question de préférence. Certains chocolats seront beaux avec une finition polie, d'autres seront mieux adaptés à une finition moins brillante. À vous de choisir celle que vous préférez. Ces effets visuels peuvent être appliqués à n'importe quel type d'outillage.

→ Systèmes de centrage

Chez Chocolate World, nous offrons à nos clients l'option de goupilles de centrage afin de garantir que les demi-cavités soient parfaitement alignées.

EXCLUSIVE HM MOULDS

🇬🇧 HM moulds, also known as hollow figure hand moulds, are designed to create chocolate figurines. These kinds of moulds are double, available with or without magnets, and have an open base.

🇳🇱 Holgoedvormen zijn ontworpen voor het vervaardigen van chocoladefiguren. Deze vormen zijn tweedelig, verkrijgbaar met of zonder magneten, en hebben een open onderkant.

🇫🇷 Les moules HM, également connus sous le nom de moules creux artisanaux, sont conçus pour créer des figurines en chocolat. Ces moules sont doubles, disponibles avec ou sans aimants et leur base est ouverte.

EXCLUSIVE SPINNING MOULDS

 Hollow figures are mostly seen during the Easter or Christmas periods. For an exact preliminary calculation, and the assurance that every hollow figure has the same weight, a spinning mould is the most suitable solution. The spinning machines can be purchased through our machinery division.

 Holle figuren zijn vooral populair met Pasen of tijdens de kerstperiode. Voor een exacte voorberekening en om ervoor te zorgen dat elke holle figuur even zwaar is, is een holgoedvorm de meest geschikte oplossing. De zwiermolens kunnen worden aangekocht via onze machineafdeling.

 Les figures creuses se rencontrent principalement aux périodes de Pâques ou de Noël. Pour un calcul préliminaire exact et l'assurance d'un poids identique pour chaque figure creuse, un moule centrifugeur est la solution la plus appropriée. Les machines centrifuge peuvent s'acquérir auprès de notre division de machines.
