THE GREAT BUBBLE BARRIER®

ABOUT US

Cleaning rivers from plastic pollution with bubbles

The Great Bubble Barrier is a Dutch social enterprise, founded in 2017, which developed an effective technology to stop plastic pollution in rivers before it flows into our oceans, using bubbles.

Our Bubble Barrier technology captures plastic across the entire width and depth of rivers, operates 24/7, and does not disrupt regular river activities.

FUNDRAISE FOR US

**Become a fundraising activist!
Starting a campaign is easy.**

Activate your community to support the fight against plastic pollution! Start a fundraiser in honour of your company, a special event, your birthday or even a race/sporting event.

By fundraising for The Great Bubble Barrier you are helping us clean rivers from plastic pollution using bubbles.
