Sauna Cabins

The genuine Waves experience comes in many sizes, shapes and styles each a singular expression of quality, expertise and design. So which one is right for you? You want a sauna cabin to become a seamless part of your every day home life which means considering structure and performance specifications as well as aesthetics. In the next few pages, you will be introduced to many of our cabin layouts and options. Whatever your choice, each offers the comfort, dependability and well being only a genuine sauna from Waves can provide.

Waves Flex Interior

Waves appeal centres around the unique low level deck benching covering the entire floor area. In conjunction with beautifully finished sauna stools, the interior layout is infinitely variable according to mood position the stools for social ambience or remove them and stretch out in comfort on the smooth, continuous benching. The modules are bespoke built to integrate heater, special lighting and comfortable backrests.

Fibre optic lighting may be discreetly blended into the backrests or heater surround.

Lift-out bench sections simplify sauna cleaning.

The finished benches are easy to install.

Waves Flex Material

Waves Flex products are offered in a selection of specialist wood finishes: Aspen, heat-treated Aspen, Alder, Red Cedar, Spanish Cedar and Mahogany.

-  Aspen
-  Heat-Treated Aspen
-  Alder
-  Red Cedar
-  Spanish Cedar
-  Mahogany

These contrasting woods may be blended to create stunning sauna designs!

Waves Steam Room

A modern approach to traditional steam bathing

For many years Waves has brought the time-honoured tradition of the Turkish Steam Bath to the British bathroom by adding steam conversion kits to regular showers.

At the same time, our Waves modular steam rooms have been offering safe, hygienic and comfortable steam bathing in countless leisure centers across the country. Now, with a new range of compact sizes, these highly efficient plastic steam cabins may be integrated into the modern luxury bathroom. With family or guests, you can enjoy the social and relaxing benefits of steam in the privacy of your own home.

Why Waves?

You can trust Waves to bring you the very best in sauna and steam products. Check these special features:

- Integrated smooth panels double as generous individual seats or continuous benching for lounging
- Neat, tight panel joining with silicone seal and self draining seats for easy cleaning
- Wide access 8mm bronze tinted safety glass door with white aluminum frame, snug seal and positive roller closing
- Simple screw cap ventilation system to control environment
- Waves famous steam generator with intuitive controls and safety steam outlet
- Models from 1600mm square, with various door positions and corner door options
- Installation service available by Waves own fitting team
- Most models available from stock

Luxury options include:

- Essence injection system
- Stereo speaker kit with waterproof volume control
- Optic star alternating light therapy unit a low voltage single light source with 100 tails to simulate a starry night sky

The Joy of Steam at Home

Steam at home is truly the ultimate luxury an oasis of calm as a complete release from the stresses of hectic daily life.

Whether you choose a quick 10 minutes or so in advance of the morning shower to set you up for the day or a longer period of contemplation in the evening to promote a great night's sleep, your investment in steam will pay you back many fold and with Waves specially selected "extras" you can personalise your steam room to include specialist lighting, sounds and fragrance to enhance and vary the effect according to your mood.

Total control at your fingertips!

Fibre Optic Mood Lighting

Mood lighting can dramatically influence the effect of steam on the senses from invigorating to ultimate relaxation. For reliability and longevity in the testing Turkish bath environment Waves favours Fibre Optic lighting with the single high power light box remote from the humid area. Of course we only offer the best – 100 top quality glass tails with brass sleeve and solid lens – neatly concealed in roof grout or using discrete sleeved lenses supplied.

Home Stereo Kit

Enjoy soothing music whilst relaxing, with our stereo kit. Stereo sound from 35W steam proof speakers may be controlled and muted with the simple dial type water proof volume control. You need only a wired active input to hear your favourite tunes while bathing a must for music lovers!

CAVA – HEART OF THE SAUNA

Even temperature in the sauna is achieved by the radiating soapstone surfaces both in front and on top of the heater. Cava is the only sauna heater on the market, which combines the best properties of soapstone and vulcanite stone.

The massive amount of stones, all together about 55kg, guarantees rich and long lasting steam. Heater is available in 6 kW and 9 kW, 400V3N~.

CONTROL UNITS

Waves heater is controlled by a separate control unit. Available options:

MIDI

- 2 LED displays showing actual bathing temperature and time
- installation inside the sauna room

EASY

- Simple basic functions with fixed 2 hour bathing time
- installation outside the sauna room

Digi I & digi II

- More advanced control functions
- installation outside the sauna room
