THE CLOUD MAKERS

Introduction

Welcome to the 2024 NotATypical Festival. The inaugural collaboration between The Little Sober Bar and Artist CTRL Music. Why a music festival? Well, because music is fuel for the soul and because everyone deserves to enjoy it! This festival was inspired by the desire to have options when socializing. Yes, non-alcoholic options but it's more than encouraging a sober curious lifestyle. It's about making sure everyone has the option to feel included. Why Woodstock? Because Woodstock is a town that lives for the music and it's where we met!

About us:

Bryttany the Founder of The Little Sober Bar first met TJ the Founder of Artist CTRL Music years ago while working together at Rootstock. We jokingly decided to be "siblings" and would play pranks on others who asked "for real?" Flash forward to 3 years ago TJ is dating Bryttany's niece and officially family. Clearly the universal alignment was there, we just needed time and clarity to grow. So you can kinda say, this is a family affair!

The goal is to make sure that everyone feels safe and has fun! Some things to mention, if you are feeling overwhelmed please visit our **"Sensory Escape"** tent located away from the stage. We've provided a relaxing environment, fidget toys, and headphones to use within that space. We also encourage you to visit the Headphone Rental booth by the stage if you are wanting another option than our scheduled live music. Artist CTRL Music is providing 3 additional stations to rock out with on Silent Disco!

THE CLOUD MAKERS

 [@thecloudmakers](https://www.instagram.com/thecloudmakers)
 [thecloudmakers.com](https://www.thecloudmakers.com)

These rain clouds turn watering plants into an artistic event by gently dripping water like rain. This visually calming and delightful experience involves each cloud holding 4 ounces of water and raining for 5-10 minutes, giving plants ample time to soak up the water. The design aims to bring joy to regular watering sessions rather than extended watering periods.

From the Maker: "I listed my rain clouds on Etsy on January of 2021. I am so glad that others have found them as pleasing as I do. The popularity of this product has taken me from artist to entrepreneur. I made over 3,500 rain clouds at home on my 3D printer until in December 2022 when we were able to get them manufactured by a local injection molding company. It was a lot of work to keep the same aesthetic and design quality but our manufacturing partner was amazing at understanding how important it was to us."

What happens when two great friends and entrepreneurs meet up for a beer and start exchanging ideas about "the perfect sports bar?" Despite their competitive history as Georgia Tech and UGA graduates, Sean and Greg both felt that conventional sports bars were outdated and lacked inspiration.

The Daily Draft was created to revolutionize the sports bar experience and reignite the thrill of game day for community members to celebrate victories from local to national teams.
