DILDO/DONG

Penetrate in style with the 8 inches of realistic cock.

Crafted lovingly from Real Feel flesh, this has all the texture and detailing of the real deal.

From the sculpted tip to the generous girth, this generously proportioned penis is easy to clean and can be used with both water-based and silicone lubricants.

Bigger and better than most men.

PRICE £17.99

GLASS DILDO

Glass dildos are suitable for both vaginal and anal use.

They frighten some people but they have not delved very deep into the subject. They are without doubt top of the tree when it comes to dildos and they feel fantastic.

One reservation that some people have is that they might break inside you. This is not going to happen as they are made out of reinforced glass that will not shatter or break during use.

One advantage of glass dildos is that they can be used when hot or cold giving different sensations either way.

This is because heat causes the blood vessels to expand in the vagina or anus. Cold causes them to contract.

Which is preferable is a matter of personal preference.

Glass dildos come in various shapes and designs but if you want an easy insertion and ease of masturbation then a straight glass dildo is ideal. As for design the beaded glass dildo is one of the most popular as the raised nodules are ideal for stimulating the areas that you want to stimulate.

The beads give a texture that stimulates both the female clitoris and G-spot as well as the prostate gland in men.

Dildos come in all sizes and to decide what size was best we asked a large number of ladies what size of cock would satisfy them.

If the dildo is too small then they said that there would be a lack of feeling. If it was too big then it could stretch the vagina in time resulting in it becoming loose and flabby.

Most women agreed that they would be happy to have sex with a man who had a 7 inch long cock with a diameter of around 1 inch.

So we went for a glass dildo of that size which was straight and had raised nodules.

The fact that this glass dildo is double ended means that it can be used by two women at once making for a shared experience.

PRICE £29.99

SOFT JELLY VIBRATOR

Vibrators are used by both men and women.

They are in fact the main option for most women when it comes to masturbation.

There are many variants of these vibrators and one design that is becoming more popular is one with a soft Jelly like exterior.

With a solid interior and a soft outer cover this vibrator is extremely comfortable to use.

It is made of 100% top grade hypoallergenic TPR and silicone material. The vibrator is really easy to keep clean

The colour varies and could be red, blue, black, pink or purple.

We could only offer this vibrator at such a price by being non specific as to the colour.

The vibration intensity of this product can be easily adjusted from low to high.

It is 17.8 cm long and is 3.8 cm wide – being a really popular size.

2 AAA Batteries are required – They are not included.

PRICE £26.99

CLITORIS VIBRATOR

The Clitoris is located close to the opening of the vagina and stimulation of it can result in an orgasm.

A clitoral stimulator is exceptionally effective in this regard.

This vibrator can be considered as one of the most proficient small products.

It is around 5 inches in length which is plenty as it functions in the area of the clitoris.

It is expertly designed to give superb, orgasmic resulting stimulation and will continue to excite for between 1 and 2 hours at a time.

Running on batteries it is a very simple and easy to use product with very simple controls.

Two AA batteries are required which are not supplied.

This vibrator is made from soft and body safe silicone and ABS. It is easy to clean with soapy water after use.

PRICE £27.99

RABBIT VIBRATOR

This rabbit vibrator is one of the most popular sex toys available. Rabbit vibrators are designed to stimulate both the clitoris and the G-spot at the same time.

It does this by firstly by having the shaft which is inserted into the vagina to affect the vagina internally and the G-spot area in particular.

There are also what are termed bunny ears which vibrate against the Clitoris.

Thus both of the most sensitive areas of the female sex organ are separately stimulated giving even more pleasure.

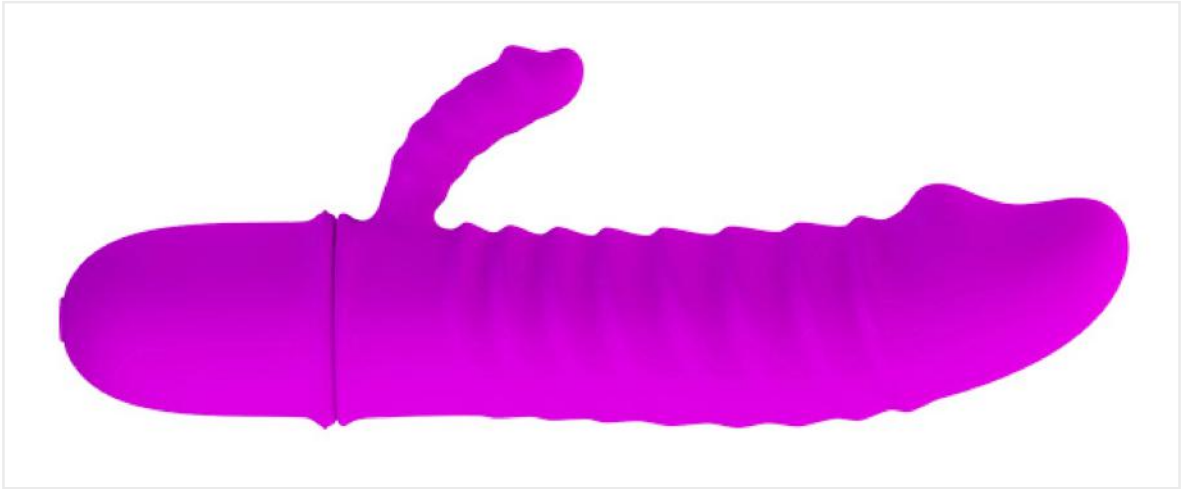

This particular vibrator is 9 inches in length and has a diameter of 1.7 inches.

It is, of course, made of body safe material.

Two AAA batteries are required – Not provided

PRICE £37.99

PRICE £33.99

G-SPOT AND PROSTATE MASSAGER

This vibrator can also be used as a G-spot massager in women but is usually used anally by men.

A prostate massager is often used merely for pleasure but stimulation of the prostate can offer a number of health benefits. The prostate, described by some as the male equivalent of a woman's G-spot, is a walnut-sized semen storage gland located at the base of the penis, just below the bladder. It can be stimulated internally through the rectum. When ignored, semen can build up within the prostate, creating stagnation and bacterial growth which can cause swelling and inflammation (prostatitis). An enlarged prostate can cause urinary and erectile problems, both distressing and uncomfortable, disrupting sleep and sexual function.

Regular prostate massage can relax tension and stress in the muscles and nerve endings in the prostate area.

When the prostate is massaged, a man can experience extremely powerful, long-lasting, often multiple orgasms, and intense ejaculation. A prostate orgasm also flushes out any stagnant prostate fluid which can cause swelling of the prostate, thus avoiding the need for surgery.

So regular prostate massage can reduce the risk of developing prostate cancer and genital pain by improving blood circulation and cleansing the prostate.

Made of body safe material this vibrator is around 19 cms in length and uses 3 AAA batteries (Not Supplied).

PRICE £35.99

PENIS RABBIT SLEEVE

This amazing toy does what so many couples have been waiting for.

It converts a mans' cock into a powerful rabbit vibrator.

The shaft is textured to provide internal massage of the vagina each time the man pounds into the vagina.

There are batteries at the tip and the powerful vibrations are activated as the man thrusts forward so stimulating the G-spot. The vibrations in the bunny ears stimulate the clitoris.

This 10 function vibrator uses three LR44 batteries and two LR1130 batteries which are not provided.

It is made of body safe material.

Never again will a woman prefer their favourite sex toy to their partner. Combine the best of both worlds.

PRICE £49.99

SUCTION VIBRATOR

This is a sex toy with a difference in that it is designed to suck on your clitoris.

Does it suck as well as a partner?

Does it suck better?

Only you can be the judge of that.

Feel the clitoris enlarge and become even more sensitive as the suction continues.

Many people continue to a climax with this toy but others like to finish off with a more conventional clitoral vibrator.
