You'll see some changes – a new design and layout, new product images, and a focus on our core product – our cards. Right across from here you'll see the new everyday cards we're launching this year. We hope you like what you see.

Anatomy of a Saturn Press card

People sometimes ask us what is special about a Saturn Press card.

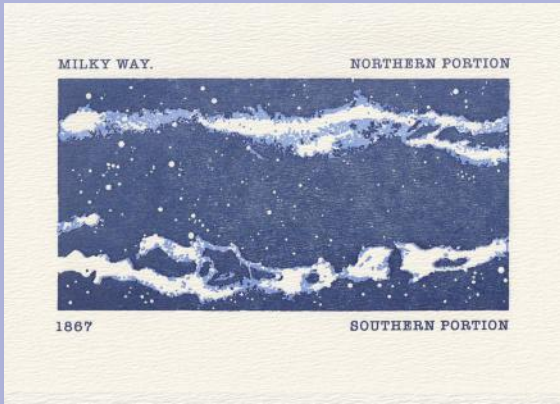

- ◊ **Images.** We inherited a huge collection of ephemera that provides a cornucopia of inspiration, and we continue to add to it
- ◊ **Paper.** We use the best card stock (80 or 100lb cover), Felt or Vellum finish, and deckle edge. It's not easy to source the fine paper we use – but we think it looks and feels right.
- ◊ **Printing.** Letterpress is an analog technology with limitations that force us to be more creative. While we strive for perfection, sometimes it's the imperfections that sneak through that make a card uniquely Saturn Press.
