LANDSCAPE SUPPLIES

Product Catalogue

'Delivering The Material Advantage'

A vertical photograph on the left side of the page shows a yellow excavator with its arm extended, digging a deep trench into rich, reddish-brown soil. The excavator's bucket is partially visible, and the background is a bright, slightly hazy sky. The soil in the foreground is piled up, showing its texture and color.

WELCOME TO NEPEAN LANDSCAPE & BUILDING SUPPLIES

Located in Penrith, Nepean Landscape & Building Supplies has been a cornerstone in Sydney's landscape supply industry for years. As a family-run business, we are proud to serve the Sydney-wide area, offering an extensive range of premium landscaping and hardware supplies from renowned brands and boutique suppliers alike.

Unmatched Expertise & Quality

Our dedicated landscape supply yard offers personalized service, ensuring you get expert advice and high-quality materials for all your projects. Whether you need sand, playground mulch, or even structural soil, our team of specialists is here to guide you. We specialize in specified soils and high-quality applications, with both VENM and recovered options.

In-House Soil Science & Certified Products

With in-house soil science capabilities and subject matter experts, we ensure that every product meets the highest standards. Our team brings over 150 years of combined experience in bulk material management, coordinating the specification, sourcing, supply, and processing of over 1.5 million m³ of materials for construction, civil, and landscaping industries.

Accredited & Certified

All our products are accredited and certified, ensuring you receive only the best for your projects. Visit us in Penrith or contact us today to discover how Nepean Landscape & Building Supplies can support your landscaping and building needs.

WHAT SETS US APART

Expert Supervision

Murray Fraser oversees production, ensuring compliance and quality standards in collaboration with SESL/CPB

Direct-to-Site Delivery

All materials are delivered by NLS, pre-manufactured to specification—no site mixing required

Natural, Sustainable Soils

Our soils are natural and free from recycled fines, ensuring long term structural integrity and reduced risk

Accredited Supply Chain

Backed by a robust QA and audit process, including ongoing project-specific testing

NLS RealTime SoilTrak

Tracks load data, routing, vehicle details, weight, volume, test results, and geo-referenced delivery information

Proven Performance

NLS has successfully supplied Tier 1 government projects, including Western Sydney Airport and CPB developments

Superior Economic Value

SU3 soil offers exceptional structure, outperforming high organic/recycled soils prone to slump and breakdown

Comprehensive Solutions

Full spectrum of landscape and civil materials, supported by agronomy, risk management, logistics, and customer care

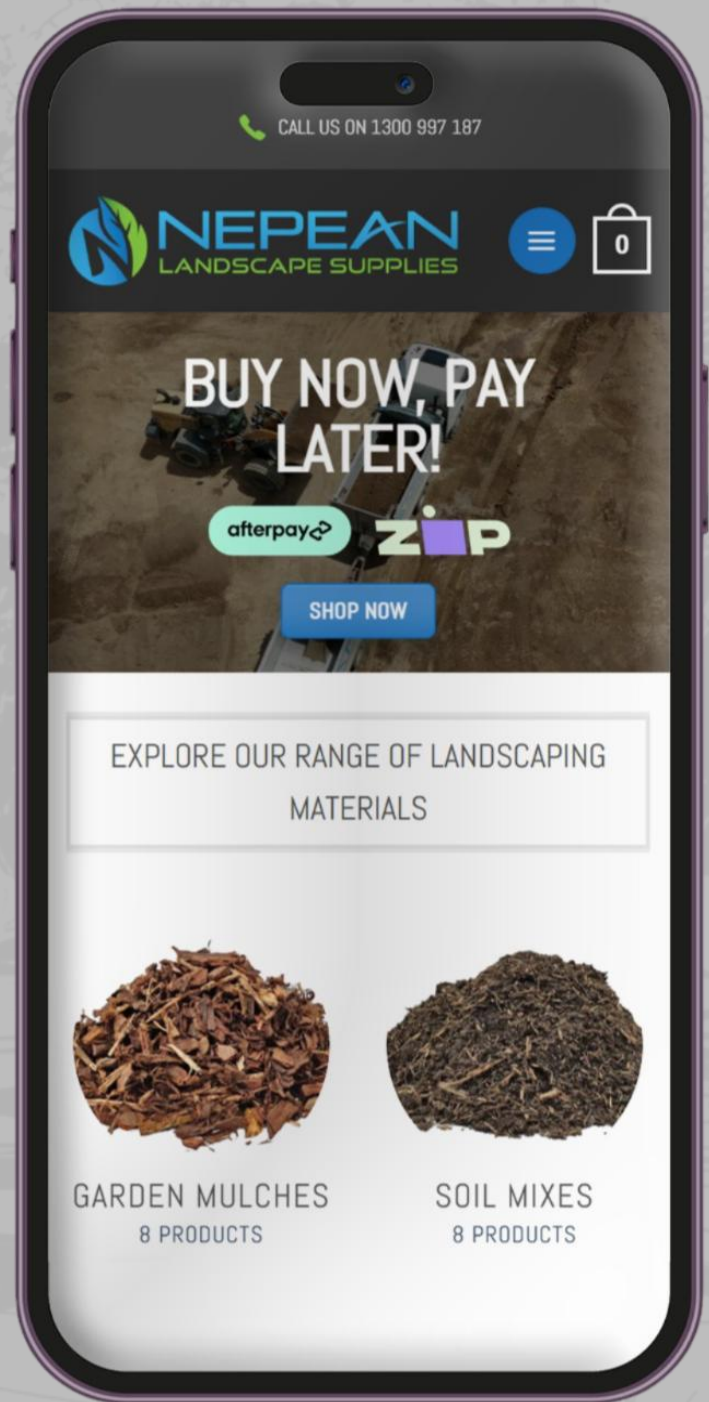

INNOVATIVE SOLUTIONS

WHAT OUR CUSTOMERS SAY

ABOUT US

The team at Nepean Landscapes offer a collaborative and supportive approach in the market, their approach extends beyond the supply of material as they actively look to provide efficient and productive solutions for each project. Paul, Gav, Ian, and the rest of the team are a pleasure to deal with through from procurement to delivery and final administration.

Scott Pareezer | HL Landscapes

*Nepean Landscape is an absolute delight to work with. They are quick and efficient as well as delivering excellent products.
All their staff are extremely friendly and helpful.*

Maddie | Posh Services

*I recently had the pleasure of working with Nepean Landscape Supplies and I cannot speak highly enough about the exceptional service provided by Paul and Ebony. Their dedication to customer satisfaction truly sets them apart in the industry. Not only do they deliver high-quality products that exceeded my expectations, but their reliable delivery service ensures everything arrives on time and in perfect condition. The combination of top-notch materials and prompt service have made my projects not only successful but also enjoyable.
If you're looking for a landscape supplier who delivers both outstanding products and stellar customer service, look no further than Nepean Landscape Supplies. Paul and Ebony have set a new standard for excellence, and I am grateful for their remarkable support.*

Cassie | Green By Nature

*I'm pleased to share that my experience with Nepean has been fantastic so far, and I would love to continue the relationship for as long as it remains mutually beneficial. Paul has been an exceptional contact for us, consistently going above and beyond, and his efforts have certainly not gone unnoticed.
While we've experienced a couple of minor hiccups with deliveries and quantities, these issues have always been promptly addressed, which speaks volumes about the quality of your operation.
Thank you again for your ongoing support.*

Kieran | WEM CIVIL

OUR DELIVERY OFFERING

TIPPERS

OUR SMALL TIPPERS ARE PERFECT FOR SMALLER DELIVERY LOADS IN RESIDENTIAL, COMMERCIAL, AND TIGHT ACCESS CONSTRUCTION SITES.

LARGE TIPPERS 5T – 19T

FOR WHEN LARGER QUANTITIES OF BULK MATERIALS ARE REQUIRED!

EZ STREET – ASPHALT COLD MIX

EZ STREET ASPHALT – 20kg

EZ Street Asphalt is a revolutionary, ready-to-use cold mix asphalt that's designed for both professionals and DIY homeowners. Whether you're patching potholes in a busy commercial parking lot or repairing a driveway at home, EZ Street delivers a permanent solution that's simple, fast, and reliable.

1 TONNE BULKA BAG

Benefits of Cold Mix Asphalt:

- Australian Made
- Non-hazardous and environmentally friendly, made with bio-fuel
- Premixed and ready to use
- Can be opened to traffic immediately
- Conveniently packaged in 20kg bags
- Long shelf life (up to 3 months)

1 TONNE LOOSE

NATURE JUST GOT BETTER

**MORE RESISTANT,
HEALTHIER AND PRODUCTIVE,
PLANTS, TREES, CROPS & GRASS**

TERRACOTTEM®
Leading soil conditioning technology

**Authorised
Distributor**

TERRACOTTEM UNIVERSAL

TERRACOTTEM UNIVERSAL

TerraCottem Universal is the "original" TerraCottem soil conditioner. Since it was launched in 1993, the product has constantly evolved with better performing polymers, fertiliser and carrier material to further enhance root and plant growth and reduce inputs. This is still the TerraCottem to use in most applications such as trees, shrubs, revegetation, annuals, perennials, roof gardens, horticulture and potting soils.

APPLICATIONS

- Tree and shrub planting
- Reforestation and land restoration
- Flower and shrub beds, roof gardens, lawns, etc.
- Window boxes, hanging baskets and containers
- Horticulture
- Agriculture

WHEN TO APPLY

- When planting and just before seeding.

APPLICATION FREQUENCY

- Just once

BENEFITS

- Healthier plants & increased yields
- Increased survival rate
- Increased water retention capacity
- Water savings of up to 50%
- Stronger & deep root development
- Faster & better plant establishment
- Higher resistance to drought stress and diseases
- Enable plant growth in degraded, saline or otherwise marginal soils

TERRACOTTEM ARBOR

TerraCottem Arbor has been developed specially for tree and shrub planting. Central to this latest formulation are the new generation polymers, the inclusion of humic acids to further enhance water retention capacity, soil structure and microbiological activity and tree specific fertilizer (with a lifespan up to 12 months) balanced with starter fertilizer for rapid plant establishment a synthetic nitrogen fertilizer. All this, to ease early tree acclimation to the planting area, enhance root and plant growth and increase tree survival rate whilst reducing inputs and replacement costs.

APPLICATIONS

- Tree & Shrub Planting

WHEN TO APPLY

- When planting

BENEFITS

- Healthier plants & increased yields
- Increased survival rate
- Increased water retention capacity
- Water savings of up to 50%
- Stronger & deep root development
- Fast & better plant establishment
- Higher resistance to diseases and drought stress

ROCKY POINT FERTILISER

ROCKY POINT SUGAR CANE MULCH

Acting like a protective blanket Sugar Cane Mulch protects soil from the elements whilst locking in nutrients released as it breaks down over time. Keeping weather out and goodness in now is the time to get mulching!

ROCKY POINT TEA TREE MULCH

Rocky Point's Tea Tree Mulch is dark, fragrant, eco-friendly, and perfect for saving water and preventing weeds in ornamental and native gardens.

- Available in 50L Bag

ROCKY POINT FERTILISER

ROCKY POINT POULTRY MANURE

Rocky Point's Premium Poultry Manure is fully composted and pelletized for easy use. Rich in nitrogen, phosphorus, and potassium, it provides controlled, slow-release nutrients to promote healthy plant growth. This nutrient-dense, organic fertilizer improves soil and feeds your plants naturally.

- Available in 25kg Bag

ROCKY POINT BLOOD & BONE

Rocky Point's Blood & Bone combines nutrient-rich poultry manure with Blood & Bone in easy-to-use pellets. Packed with nitrogen, phosphorus, potassium, and calcium, it promotes strong roots, flowering, and overall plant health. This soil conditioner also boosts microbial activity and earthworms, ensuring a thriving garden with abundant fruits, vegetables, and flowers.

- Available in 25kg Bag

BY THE NUMBERS

The value of collaboration between organizations is undeniable. By prioritizing people over profits, the positive impact resonates throughout the workplace and the broader community, fostering growth and mutual success.

Driving Sustainability

We handle over 1 million Tonnes of material each year with a commitment to minimizing environmental impact and promoting long-term sustainability.

Mitigating Risk

With over a century of combined expertise, we continuously enhance how we manage critical risks for safe and responsible execution.

Building Partnerships

We prioritize safety and care to foster strong local partnerships and drive sustainable community growth

Smarter Solutions

Through advanced systems and collaborative problem-solving, we empower our teams to achieve lasting results.

SMART COLLABORATION

LANDSCAPING MATERIALS

WOOD CHIPS & GARDEN MULCHES

PREMIUM HARDWOOD CHIP

25-40MM

A great balance between appearance, durability, and economy. Made from mixed sustainable hardwoods. A good choice for busy play areas. Long lasting natural timber chip ideal for moisture retention and weed suppression. Used in both domestic and commercial applications. For domestic usage 75-100mm is suggested.

WOODLANDS BLEND MULCH

10-40MM

A great balance between appearance, durability and economy. Made from a mixture of soft/ hard natural shredded timbers.

Ideal for moisture retention and weed suppression.

WOODLANDS NATURAL MULCH

A great balance between appearance, durability and economy.

Made from a mixture of soft/ hard natural shredded timbers.

Ideal for moisture retention and weed suppression.

Used in both domestic and commercial applications.

WOOD CHIPS & GARDEN MULCHES

NLS PINE BARK

A great balance between appearance, durability, and economy. Made from mixed sustainable hardwoods. A good choice for busy play areas. Long lasting natural timber chip ideal for moisture retention and weed suppression. Used in both domestic and commercial applications.

For domestic usage 75-100mm is suggested.

NLS SOFTFALL PLAYGROUND MULCH

A great balance between appearance, durability and economy. Made from a mixture of soft/ hard natural shredded timbers.

Ideal for moisture retention and weed suppression.

NLS BLACKWOOD CHIP MULCH

Achieve a bold, modern look with our Black Wood Chip Mulch. Made from high-quality, environmentally dyed natural timbers, it retains moisture, suppresses weeds, and adds a striking contrast to any landscape. Ideal for residential and commercial use, this durable, cost-effective mulch is perfect for plant beds and garden borders.

NLS ORGANIC GARDEN MIX

Organic Garden Mix is ideal for growing vegetables, herbs, and fruit plants. Its coarse sand component ensures excellent drainage, promoting rapid plant growth and supporting healthy root structures. This mix retains moisture to keep the soil consistently moist and healthy. Suitable for a wide range of plants, including vegetables, fruit, ornamental grasses, shrubs, vines, shade trees, and flowering trees..

NLS NATIVE GARDEN MIX

Native Garden Mix is a specially formulated blend designed to support the growth of Australian native plants. This mix combines nutrient-rich soil with a balanced mix of organic matter and natural elements, tailored to the needs of native plants. Ideal for creating vibrant, sustainable gardens, it promotes healthy plant growth, improves soil structure, and supports local biodiversity.

NLS TOP DRESSING

A premium blend of finely screened organic matter and soil, NLS Organic Top Dressing is designed to revitalise lawns and garden beds. It boosts moisture retention, improves nutrient availability, and supports healthy, sustained growth.

Perfect for residential and commercial use, this organic mix promotes lush lawns and long-term soil health.

NLS PREMIUM TURF UNDERLAY 80/20

Turf Underlay is a quality assured mix of soil, sand and composted organics, which gives your newly laid turf the head start it needs to establish good root growth and drainage.

It is suitable for Buffalo, Couch, Durban, Kikuyu and Zoysia turf varieties.

NLS STANDARD TURF UNDERLAY

Standard Turf Underlay is a recycled soil made up of a combination of recycled screened sands and soils.

It is a great alternative for lawn / turf establishment.

Being a recycled product it is also ECO friendly. Standard turf underlay can also be used as an alternative for minor filling prior to using Premium Turf Underlay.

NLS STRUCTURAL SOIL

Designed as a compactable horticultural sub-base, ideal for tree planting in pavements, courtyards, car parks, and kerbsides. This solution maximizes soil volume for tree root growth while preventing pavement damage caused by root heave.

SOIL MIXES

PLANTER BOX A (Horizon A)

A premium soil blend designed for deep-rooted plants in planter boxes and raised beds. It enhances root development, nutrient retention, soil stability, and moisture management for thriving plants.

Composition:

A blend of organic matter, soil conditioners, and natural materials, ensuring stability and long-term nutrient availability.

NLS PLANTER BOX B (Horizon B)

A premium soil blend designed for planter boxes and container gardens. It offers essential nutrients, excellent drainage, and balanced moisture retention to promote healthy plant growth.

Composition:

A carefully crafted mix of nutrient-rich organic materials and soil conditioners for optimal plant health.

SANDS

NLS SYDNEY SAND

Sydney Sand, also known as washed sand, tiling sand, or rendering sand, is a fine sand commonly used for floor tiling, rendering, and as bedding sand for paving and paver grouting. Sourced from Sydney beaches, this sand is free of clay content, making it safe for children's sandpits. Ideal for plastering, rendering, tiling, and grouting, Sydney Sand also works well for filling joints between pavers.

NLS WASHED RIVER SAND

Great for paving and mixing with concrete, Washed River Sand also has excellent filtration qualities so it's great for use as fill. Plus, it's the sand you need to combine with potting mix for those plants that love sandy soil. Ideal for subbase for laying pavers, and backfilling around plumbing and electrical pipes.

NLS COARSE RIVER SAND

Coarse washed river sand when mixed through garden beds helps to improve drainage, break up other soils and lift the texture. It is also used as a concrete sand in landscaping as well as a bedding for pavers and slabs.

SANDS

NLS YELLOW BRICKIES SAND

Our clay-based Yellow Brick Sand is a versatile and essential choice for a variety of landscaping and construction projects. Perfect for brick and block laying mortar mixes, its soft and fine texture makes it an ideal base for pools, rendering, and brick bagging.

NLS WHITE BRICKIES SAND

Also known as fatty sand, our White Brick Sand is a versatile, light grey sand perfect for projects where a light-colored mortar is desired. Primarily used for mortaring brickwork, this sand is also an excellent choice for creating a smooth and even surface under pool liners for above-ground pools.

NLS RECYCLED PIPE BEDDING SAND

Recycled Bedding Sand, made from crushed and screened concrete and brick, is a cost-effective and eco-friendly alternative to quarried sands. Ideal for use in various construction and landscaping applications, it offers excellent drainage and stability, making it a practical choice for bedding and leveling in both residential and commercial projects.

NLS VENM DRAINAGE SAND

NLS – VENM Drainage Sand is a high-quality, naturally sourced sand certified as Virgin Excavated Natural Material (VENM). Its coarse grain structure promotes optimal water flow and soil aeration, making it ideal for various civil, construction, and landscaping applications.

NLS KILN DRIED SAND

Washed beach / dune sand which has been put through a kiln to dry. Also known as ACI kiln dried sand, Dried silica sand. Kiln Dried Sand is ideal for use in Synthetic turf applications as a turf infill to hold the turf in position and to keep the turf pile in the upright position. Kiln dried sand is also used as a foundry sand.

NLS BLUE QUARRY SAND

Blue Quarry Sand also known as Blue Metal Dust or Crusher Dust is the crushed residue of natural Blue Metal. Blue Quarry Sand is extremely versatile and compacts down hard, making it an ideal base for underneath artificial lawns, some paving, pathways & driveways. Due to its great particle strength, it can also be used to mix through concrete mixes.

Thermal Resistivity Sand (TR Sand)

TR Sand is a premium engineered backfill material for underground power cable installations, ensuring optimal thermal conductivity and cable protection.

GAS SAND

Gas Sand, also referred to as pipeline bedding material, is essential for the installation and maintenance of gas pipelines. It offers a stable, supportive foundation that protects pipelines from external forces while ensuring proper drainage and thermal insulation.

AGGREGATES AND GRAVELS

NLS BLUE METAL

Blue Metal is a durable, quarried aggregate with a distinctive blue-black color, ideal for concrete mixes and drainage. Perfect for backfilling retaining walls, pathways, driveways, drainage pits, and as a drainage filler in pot plants or veggie beds.

Available in sizes 5-7mm, 10mm and 20mm.

NLS NATURAL ROAD BASE DGB20

Natural Road Base (DGB20) is a well-graded, coarse base material with particles from 26.5mm to fine dust. Ideal for smaller projects, it provides a solid foundation for driveways, paving, and concreting.

Available in sizes 20mm and 40mm.

NLS RECYCLED ROAD BASE 20MM

Recycled Road Base (DGB20) is a well-graded coarse material that compacts well, providing a stable base for paving, pathways, driveways, and concreting. It's also perfect as a solid foundation under decorative gravels or decomposed granite.

Available in sizes 20mm and 40mm.

AGGREGATES AND GAVELS

NLS RECYCLED CONCRETE AGGREGATE

Recycled Concrete Aggregate, available in 10mm and 20mm sizes, is made from crushed concrete and brick, featuring color variations from white to red and orange. This sustainable, cost-effective option is ideal for drainage, pathways, and driveways. Note that it may contain small sand and dust particles, making it less clean than Blue Metal, and is not suitable for concrete production.

NLS 5 MM PEA GRAVEL

A versatile material with excellent drainage properties, ideal for pathways, garden beds, and decorative features. Perfect for landscaping and stormwater management.

DECORATIVE GRAVELS

NLS ROUND RIVER GRAVEL

Nepean River Pebble is a locally sourced, smooth gravel available in hues of peach, cream, grey, and red-brown. Ideal for native gardens, these versatile pebbles enhance water features, pool surrounds, and garden beds. Perfect for pathways, driveways, and decorative uses, they add elegance to any landscape project.

Available in sizes 10mm, 20mm, and 40mm.

PEARL QUARTZ

Pearl Quartz is a premium decorative aggregate with a smooth, lustrous finish and a subtle, pearlescent sheen that adds elegance to any project. Ideal for pathways, garden beds, and decorative features, it combines beauty with durability.

Available in sizes 10mm and 14-20mm

COWRA WHITE

Cowra White is a quartz river stone from the Cowra region, featuring natural white to cream-grey tones. These smooth pebbles enhance modern landscapes and are ideal for garden beds, pathways, driveways, and pool surrounds.

Available in sizes 10mm, 20mm and 40mm.

DECORATIVE GRAVELS

COWRA GOLD

A great balance between appearance, durability, and economy. Made from mixed sustainable hardwoods. A good choice for busy play areas. Long lasting natural timber chip ideal for moisture retention and weed suppression. Used in both domestic and commercial applications. For domestic usage 75-100mm is suggested.

Available in sizes 10mm, 20mm and 40mm.

GOLD DECOMPOSED GRANITE

Decomposed Granite is a fine, golden aggregate ideal for natural surfaces. It can be used loose as mulch or compacted with cement for durable pathways and driveways. Best for low-rainfall areas, it enhances landscapes while providing a practical solution for outdoor spaces.

PINK DECOMPOSED GRANITE

Ideal for pathways, driveways, and entertainment areas, Pink Decomposed Granite offers a natural, rustic charm. Its pinkish-brown hue provides a softer, more subtle look compared to the gold variant, making it a great choice for creating warm and inviting outdoor spaces.

SANDSTONE

CRUSHED SANDSTONE 53MM MINUS

Our 53mm Minus Sandstone is a high-quality, finely crushed material with a size grading of 53mm and smaller. Originating from premium deposits, this sandstone offers both durability and visual appeal, making it an ideal choice for a range of construction and landscaping applications.

SANDSTONE LOGS A / B / C GRADE

Our Sandstone Logs come in A, B, and C grades, offering a range of options to suit various project needs. Whether you're building a retaining wall, garden edging, or decorative feature, our sandstone logs provide a natural and durable solution.

NLS SANDSTONE SPALLS

Available in 20-40mm, 60-150mm, 150-250mm, and RMS specification, Sandstone Spalls are natural sandstone rocks, carefully screened to sizes ranging from 75-200mm. Perfect for enhancing outdoor spaces, these versatile stones are commonly used for decorative ground cover, dry creek beds, garden edging, retaining walls, and gabion baskets. They bring a rugged, natural aesthetic to any landscape project.

1300 997 187 // NEPEANLBS.COM.AU

Commercial In Confidence

SANDSTONE

NLS SANDSTONE MULCH 40/60

A natural, decorative mulch ideal for garden beds, pathways, and erosion control. With its 40-60mm size, it provides excellent drainage, soil protection, and a rugged, earthy finish to any landscape.

NLS ENGINEERED SANDSTONE

Premium, high-strength sandstone designed for retaining walls, landscaping, and civil works. Precision-cut for consistency, it combines natural beauty with engineered durability. Available in various sizes and finishes.

- ✓ High-strength & durable
- ✓ Consistent quality
- ✓ Ideal for structural & aesthetic use

TURF & LAWNCARE

SIR WALTER DNA CERTIFIED BUFFALO

Sir Walter Buffalo, Australia's top buffalo turf, is tough yet soft, thriving in full sun or shade, extreme heat, drought, and frost. It stays green in winter; resists wear and recovers quickly. Its dense growth naturally prevents weeds, and it's resistant to many pests and diseases, making it an ideal choice for family lawns or commercial use.

ZOYSIA AUSTRALIS

Zoysia Australis is a durable, medium-textured grass with a striking blue-green leaf. This new variety suits a range of areas, handling the wear and tear of family life and pets. Its excellent shade tolerance allows it to thrive where other grasses struggle.

SIR GRANGE ZOYSIA

Sir Grange Zoysia is a premium fine-bladed turf with high shade tolerance, and very low nutrient and water requirements. It has exceptional wear tolerance and is highly adaptable to different climates. Sir Grange is a highly functional lawn that will look great in any yard!

TIFTUF BERMUDA

TifTuf is a hybrid Bermuda grass developed by top turf scientists. It has a fine leaf and exceptional drought, shade, and wear tolerance. As the only turf globally to earn the Smart Approved WaterMark, it's the most drought-resistant grass available. TifTuf also outperforms other varieties in flood-prone areas, making it ideal for Australian lawns, sports fields, and low-maintenance areas like drains and causeways, where it thrives in changing conditions.

EUREKA KIKUYU

If you want an old favourite that grows in extreme neglect, then Eureka kikuyu is for you! While it requires more maintenance and mowing than other turf varieties, it is inexpensive and looks great all year round.

Expert Lawn Care Solutions for a Lush, Green Lawn All Year Round

LAWN SOLUTIONS - LAWN CARE

LAWN SOLUTIONS – ALL PURPOSE WEED CONTROL

Easily tackle weeds like Bindii, Clover, and Dandelion with Lawn Solutions All Purpose Weed Control.

Safe for couch, kikuyu, zoysia, and buffalo lawns (except older ST varieties). The 2L ready-to-use bottle with a clip-on hose covers up to 200m²—no mixing required!

LAWN SOLUTIONS – EXCEED LIQUID FERTILISER

A premium, professional-grade foliar fertiliser that boosts lawn health and colour year-round. Its balanced NPK ratio suits all grass types, including kikuyu, couch, buffalo, zoysia, and cool-season varieties, ensuring lush growth and vibrant appearance.

LAWN SOLUTIONS – COLOURGUARD PLUS

Restore your lawn's vibrant green instantly with ColourGuard PLUS! This 100% natural colourant and fertiliser provides lush, long-lasting colour for up to three months. Safe for pets, people, and the environment, it penetrates leaf tissues with organic pigments for a healthy, year-round green.

LAWN SOLUTIONS - LAWN CARE

LAWN SOLUTIONS – OXAFERT

Prevent weeds and boost lawn health with OxaFert, a pre-emergent herbicide for warm-season turf that controls weeds like Winter Grass and Crabgrass before they sprout. Enriched with essential nutrients, it promotes strong, green growth without harming healthy turf. Each 3kg bag treats up to 100m² for 12 weeks of protection and nourishment.

LAWN SOLUTIONS – BATTLE INSECTICIDE

Battle Insecticide provides fast-acting, long-lasting pest control through direct contact and residual action on treated surfaces. With Bifenthrin as its active ingredient and a surfactant for better adhesion, this liquid concentrate ensures effective knockdown and continued protection from a wide range of pests.

LAWN SOLUTIONS – Lawn Kelper 2L

Lawn Kelper is a balanced liquid spray enriched with Seaweed Kelp, Fulvic Acid, and essential trace elements to boost turf health. Designed for year-round use, it enhances lawn vigor, strengthening roots and shoots for a lush, dark green lawn.

LAWN SOLUTIONS - LAWN CARE

LAWN SOLUTIONS – Lawn Rescue 2L

Revitalise and drought-proof your lawn with Lawn Rescue! This powerful blend of liquid fertilisers, seaweed extracts, and wetting agents promotes root development, restores color, and boosts growth in both new and established lawns. Ideal for post-winter revival or year-round care, Lawn Rescue treats up to 150m² with its easy-to-use 2L hose-on bottle—no mixing required. Suitable for all lawn varieties.

LAWN SOLUTIONS – Lawn Soaker

Lawn Soaker is a ready-to-use soil wetting agent designed for lawns, ensuring water penetrates deeply to reach roots and prevent dry spots. With regular use, it improves soil hydration and drought resistance by breaking down water-repellent layers. The 2L hose-on bottle treats up to 150m², making application easy and hassle-free—no mixing required.

LAWN SOLUTIONS – Iron Guard Plus

Iron Guard Plus is a 2.5L concentrated bio-stimulant packed with iron and amino acids to enhance turf color, strength, and growth. Ideal for maintaining vibrant color and promoting lateral growth, it's perfect for boosting winter dormancy transition.

LAWN SOLUTIONS - LAWN CARE

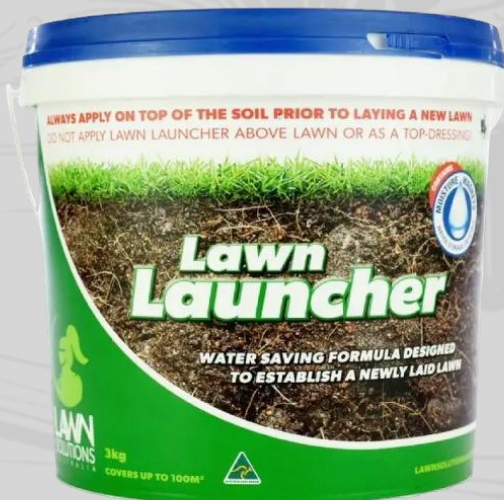

LAWN SOLUTIONS – Fertiliser

Lawn Solutions Premium Fertiliser nourishes all lawn types with a balanced blend of fast and slow-release nutrients, supporting strong growth and rich colour for up to 12 weeks. Designed for Sir Walter DNA Certified Buffalo and equally effective on other varieties, a 4kg bucket covers 400m², making it ideal for home lawns, sports fields, and golf courses.

LAWN SOLUTIONS – Grub Guard Ultimate

Grub Guard Ultimate, with Acelepryn technology, provides powerful, preventative control against common lawn pests. This easy-to-use granule is perfect for early-season application, covering up to 500m² with each 4kg bucket for lasting lawn protection.

LAWN SOLUTIONS – Lawn Launcher

Kickstart your lawn with Lawn Launcher—a premium fertiliser and Moisture Magnets mix. Perfect for turf, seeds, or new gardens, it strengthens roots and releases stored water as needed, ensuring resilience in heat and water restrictions.

Enhance your landscape with LinkEdge Aluminium Edging—a precision-engineered solution offering durability and design flexibility for any project.

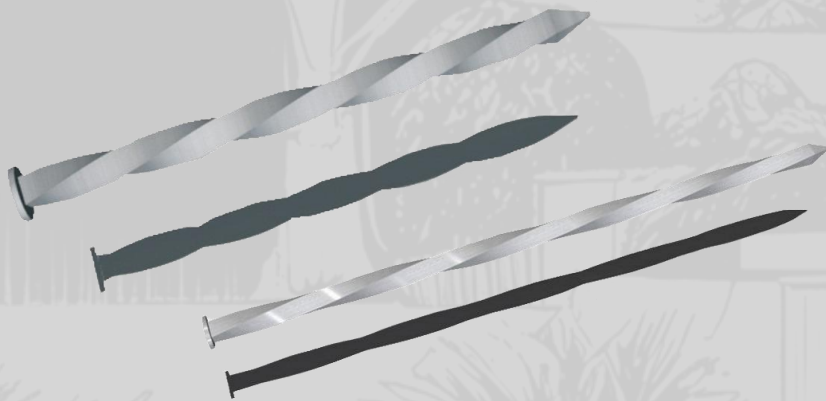

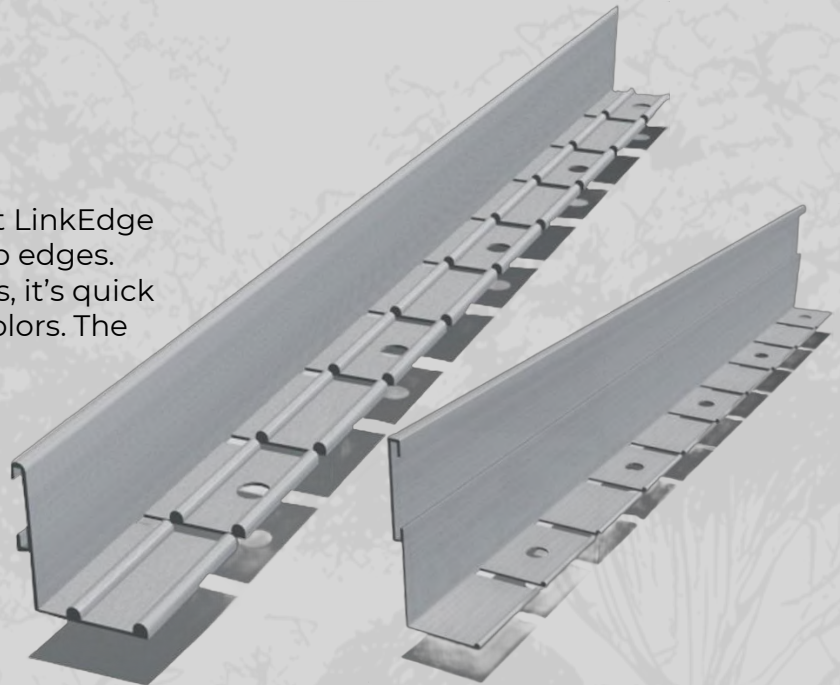

LINKEDGE ALUMINUM EDGING STANDARD

Cement cracks, plastic becomes brittle, but LinkEdge offers lasting strength without rust or sharp edges. Flexible for curves, circles, and straight lines, it's quick to install and available in powder-coated colors. The ultimate edging solution!

AVAILABLE SIZES:

Colour: Alloy

- 40MM x 3M
- 50MM x 3M
- 75MM x 3M
- 100MM x 3M

LINKEDGE SPIKE

AVAILABLE SIZES:

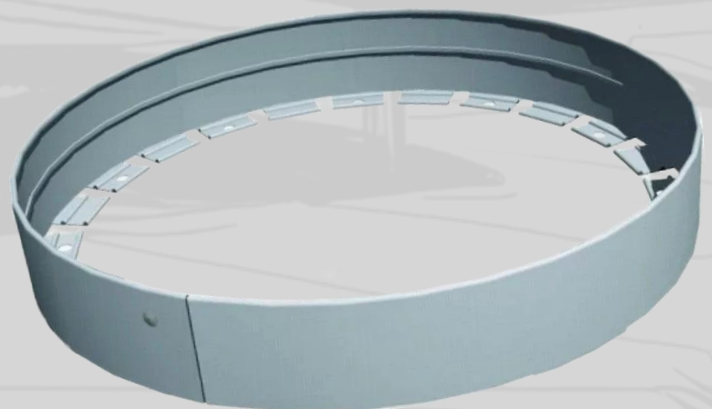

- 150MM
- 300MM

LINKEDGE CIRCLE KIT

100mm LinkEdge that has been precut and rolled to form a perfect 630mm/950mm diameter circle. Ideal for creating precise, attractive edging around your specimen trees. Price for each circle includes spikes and a connectors.

AVAILABLE SIZES:

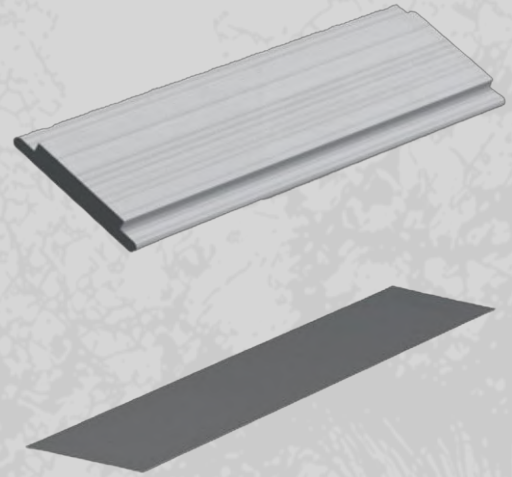

- 100MM x 630MM Dia
- 100MM x 950MM Dia

LinkEdge Aluminium Edging

LINKEDGE FISHPLATE CONNECTOR

Each length of LinkEdge requires 1 specially designed connecting fishplate that slides into the designed slots and snaps the lengths together providing a smooth uninterrupted edge. There is a model suitable for the 40mm & 50mm high LinkEdge, and one for the 75mm & 100mm high LinkEdge.

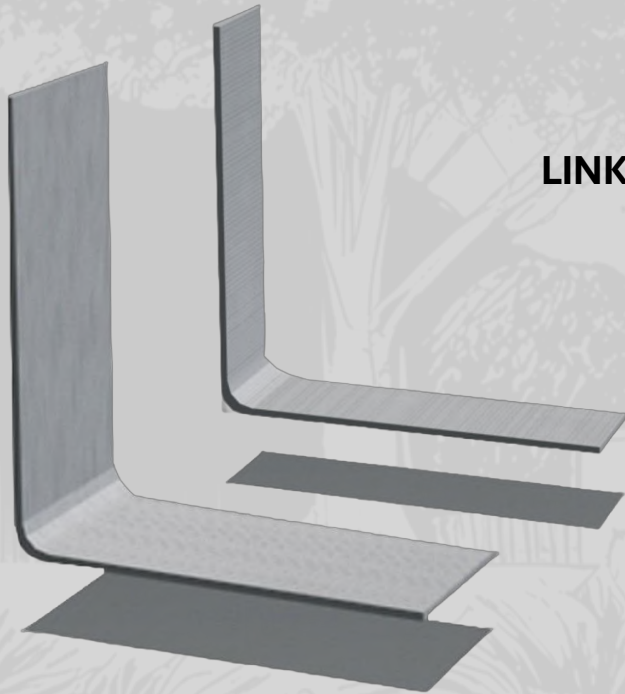

LINKEDGE CORNER CONNECTING BRACKET

The corner connecting bracket allows two lengths of LinkEdge to be joined seamlessly at right angles

AVAILABLE SIZES:

- 40MM & 50MM
- 75MM & 100MM

LINKEDGE SPIKE GUIDE

The spike guide provides extra vertical stability for the LinkEdge when there is heavier traffic & heavier compacted areas. The spike guide slides into the slot where the fishplate connector slides into and allows for the spike to go through the guide and then the LinkEdge so it will not buckle. Only suitable for use on the 75mm or 100mm LinkEdge.

LinkEdge Aluminium Edging

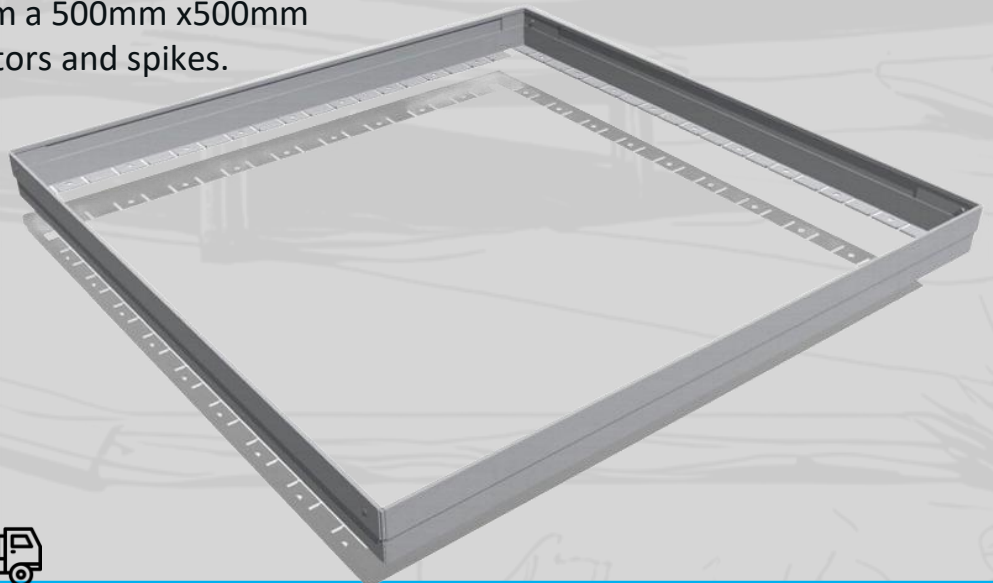

LINKEDGE ALLOY LANDSCAPE EDGING – HEAVY DUTY

Heavy Duty LinkEdge is built for high-traffic areas, featuring dual hole series—10mm for LinkEdge Spikes and 5mm for extra fastening. Unlike cement, which cracks, or plastic, which becomes brittle, LinkEdge is strong, rust-free, and easy to install. Flexible for curves, circles, and straight lines, it comes in powder-coated colors for a durable, sleek finish.

LINKEDGE SQUARE KIT - 500MM SQUARE

75mm LinkEdge precut to form a 500mm x500mm square. Price includes connectors and spikes.

An aerial photograph of a large-scale construction site. The ground is a mix of brown earth and light-colored sand, with numerous tire tracks crisscrossing the terrain. Several pieces of heavy machinery are visible, including yellow excavators and a red truck. In the lower-left quadrant, there is a circular area of white material, possibly gravel or sand, with a small pool of blue water in the center. Various construction materials, such as pipes and structural components, are scattered across the site. The overall scene depicts an active and extensive earthmoving project.

ROOT BARRIER 600MM X 30M Roll (1mm)

Vercan Root Barrier, available in 1mm, 2mm, and 3mm, protects against roots. 1mm suits most needs, while 2mm & 3mm handle aggressive roots or safeguard services.

Rally - Weed Mat

Weed Mat blocks weeds while allowing air, water, and nutrients through. Ideal for gardens, pathways, driveways, and erosion control, it reduces maintenance and supports plant growth.

Available in:

- 910mm x 50m
- 1830mm x 25m
- 1830mm x 50m

Ground Protection

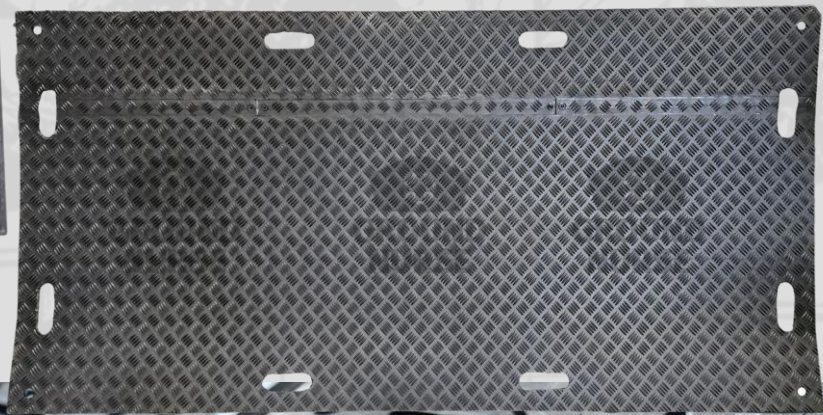

GROUND MATS

Ground Nurse – Heavy-Duty Ground Protection

Ground Nurse provides durable solutions for any worksite, including ground protection mats, access ramps, site covers, crane pads, and temporary roadways. Built for strength and stability, our products keep your site safe and efficient.

Varieties available:

- GroundMatz,
- TrackMatz,
- Outrigger Pads, Cranepadz,
- Connectors, GroundMatz, and MatStor Stilage.

RELATED SERVICES

At Nepean Landscape Supplies, we offer more than just high-quality materials—we provide end-to-end solutions to support your projects.

From expert material sourcing to efficient logistics, our services ensure your job runs smoothly from start to finish.

Our Services

1. Bulk Material Supply

We provide a wide range of premium landscape and civil materials, including:

- ✓ Soil blends & engineered fill
- ✓ Custom blends made to your specifications
- ✓ Aggregates & road base
- ✓ Decorative gravels & mulch
- ✓ Sand & specialty mixes

2. Carting & Disposal Services

Managing site waste and material disposal? We handle:

- 🚚 VENM, ENM, GSW, and hazardous waste removal
- 🚚 Tunnel spoil, ACM, ASS, PFAS, and demolition waste
- 🚚 Sustainable disposal solutions & site remediation

Additional Services:

- ✓ Spoil management & onsite soil manufacturing
- ✓ GSW management & soil remediation work
- ✓ Agronomy services to meet soil specifications for your project
- ✓ Soil contamination management & testing
- ✓ Waste classification services
