Welcome to #LCRE2023

The team at Shout Expo is delighted to once again host the **Liverpool City Region Business Expo**.

We extend a warm welcome to exhibitors and delegates from businesses across the North West to the **Liverpool City Region Business Expo 2023**.

Following Liverpool's sensational success in hosting the Eurovision Song Contest, there couldn't be a better time to celebrate Liverpool City Region's thriving business community!

Today's exhibitors have raised the bar with innovative, interactive stands that showcase a wealth of products and services. They are eager to talk to you about collaboration opportunities and how they can help your business.

Browse the list of exhibitors so you can plan your day to ensure you have chance to visit all the stands that interest you. Many exhibitors are running competitions with amazing prizes to be won and goodies to give away, so be sure you don't leave empty-handed!

Our expo hashtag is #LCRE2023. Use it throughout the day and after the event to connect with exhibitors, delegates and the wider business community. Join the conversation on Shout Expo's Twitter, LinkedIn, Instagram, Facebook and TikTok accounts.

Thank you for being part of this fantastic annual event. We hope you have a very successful and memorable day.

With best regards,
The Shout Expo Team

- ✓ 2030 and what it means for you
- ✓ EV salary sacrifice scheme
- ✓ Managed company car schemes
- ✓ New technologies & alternative fuels
- ✓ Tax incentives
- ✓ ESG, sustainability and reducing your carbon footprint

At **Greenarc Vehicles** we specialize in helping businesses select, fund and manage their company vehicles. As businesses look at reducing their carbon footprint and becoming more sustainable one of the first and obvious places to start is their fleet of vehicles.

Since the announcement of attractive tax incentives for electric vehicles and the 2030 ban on the sale of new diesel & petrol vehicles plus the introduction of clean air zones across the UK – never has it been so complex to make informed decisions about your business motoring.

Proving extremely popular are electric vehicle salary sacrifice schemes as an added benefit to offer employees. For businesses looking to retain and recruit the best staff, plus improve their green credentials, these schemes are great.

If you are a small business with just a few vehicles or an SME looking to introduce a managed company car scheme or maybe a business looking to introduce an electric vehicle salary sacrifice scheme to your employees - **we can help!**

We offer a consultative approach with an emphasis on building long-lasting relationships.
