

THE TIPSIAN BIWEEKLY

As we commemorate the 78th Independence Day of our great nation, it is important to reflect on the values that have shaped our society and continue to guide us. Independence is not just a historical milestone but a continuing journey toward a more inclusive, just, and harmonious society.

"The true essence of freedom is respect for one another. In a civilised society, our strength lies in our unity, understanding, and mutual respect."

Let us instill these values in our students, nurturing them to become responsible citizens who contribute positively to our nation's growth. To celebrate this momentous occasion, our kindergarteners had a special Independence Day assembly, and for the students of Grades 1-12, we organized two CAS events:

1. Arpanam 2024:

Our CAS competitions were based on the theme - India's Independence. Students showcased their talents in various disciplines, celebrating the spirit of freedom and creativity.

2. Varnam Drawing & Handwriting Competition:

Organised by JCI, this competition encouraged our young artists to express their love for the country through vibrant and meaningful art. It was also a feast for the eyes to see our budding calligraphers display their beautiful handwriting.

It was wonderful to see students participate enthusiastically in these events. We hope these activities provided a platform for creative expression and deepened their collective understanding of the values that Independence Day represents. This 78th Independence Day has been a reflective occasion, reminding us the importance of equality and the need for societal development in our nation.

KG COORDINATOR DESK

Outdoor play is crucial in the early years as it lays the foundation for physical and cognitive development, social skills, and emotional well-being. It also helps children to develop their self-confidence, independence, and self-esteem. Playing outdoors teaches children to understand boundaries, and embrace challenges in their play.

The outdoor environment offers endless exploration opportunities, stimulating curiosity, creativity, and problem-solving skills. Children learn about the world through hands-on experiences, like observing plants, feeling the weather, and exploring natural materials. The diverse textures, sounds, and sights of the outdoors enrich sensory experiences, vital for brain development, allowing children to explore and understand the world through their senses. It helps them build a strong connection to the natural world, fostering an appreciation for the environment and a sense of responsibility for its protection.

At TIPS, we prioritise outdoor play as an integral part of our school routine to provide a balanced and enriching educational experience that supports the holistic development of our young learners.

Congratulations!

Dhanvik Eswar of KG 2 D participated in a marathon conducted by Ramalingam Hospital and received a medal.

Independence Day Special Assembly

Independence Day serves as a time to honour the sacrifices of our freedom fighters and celebrate the principles of liberty, unity, and democracy that define our nation. Our KG 1B and KG 2B children participated actively and confidently, making meaningful contributions to the assembly. They demonstrated respect and a profound understanding of the event's significance.

Parent Involvement Program

Mrs. Gayathri Mohan, Parent of Krishanya U (KG 1A) imparted valuable knowledge about extinct animals and birds to our young learners. Through a captivating presentation, she highlighted how natural factors and human activities contribute to species extinction. The session provided children with a deep understanding of the actions required to preserve endangered habitats, instilling a strong sense of responsibility to protect our planet's invaluable biodiversity.

Value of the Month - Trust

Trust forms the foundation of all human relationships and society. It is built on the pillars of reliability, integrity, and character. Teaching children about trust is crucial, as it equips them with essential life skills such as reliability, affection, honesty, disciplined behaviour, empathy, and understanding.

Hand-Eye Coordination Activity

Developing hand-eye coordination is crucial for children as it supports their physical and cognitive development. This skill improves fine motor abilities and enhances concentration and problem-solving skills. Additionally, mastering balance is essential, enabling children to control their body position during various activities, promoting attention, body awareness, self-regulation, and precise movement.

UOI: Theme - Who we are

Who is in my family?

Family is a vital part of our lives, offering love, support, and a sense of belonging. Understanding their family helps children develop a strong sense of identity and connection. Our little ones eagerly participated in creating a family collage, an activity that helped them identify the members of their family, grasp counting concepts, and appreciate the diversity of family structures.
