# Tenant Satisfaction Measures (TSM) 2023

As a registered social landlord, Lench's Trust are governed and regulated by the Regulator of Social Housing (RSH) and under the new Social Housing Regulatory Act, from 2024 onwards, we must record performance against TSM's.

The TSM's are a set of standardised perception questions to find out how satisfied residents are with the services Lench's Trust provide. They also provide excellent information on how and where we need to focus any improvements, allowing us to prioritise our services to ensure our homes remain of a high-quality standard for our residents to live in.

In November 2023 we anonymously surveyed all our households by post, giving the opportunity for face-to-face assistance if required.

Thank you to the residents who took the time to complete and return the survey.

**This report shows percentages and figures based on the number of residents that responded.**

# Overall Satisfaction

Lench's Trust welcomes residents' feedback to enable us to listen to your views whilst continuously striving to improve our services and planned works.

The results are in, with 133 residents completing the survey, which equates to 74% of our total residents, which is an excellent response for our first survey.

91% of residents reported they are satisfied with the overall service provided by Lench's Trust.

Having a small proportion of shared ownership properties, amounting to 3.8% of our stock, our TSM results are reported collectively.

# Recommendations

91% would recommend Lench's Trust to other people

Residents were asked "What one thing could Lench's Trust improve" ?  
Below is a sample of the improvement comments:

## Here's what you said:

"Gardens need more attention- not enough staff. staff are hard overworked and try hard to keep everything tidy"

"more maintenance staff, so few and they are responsible for 3 sites, impossible odds"

"Listen to people more"

"Balcony floor needs addressing"

"Give us rent statements at every 2 months. On paper, please, though some people might be OK with it on computer"

"more pro-active communication with residents concerning upcoming improvements and scheduled maintenance- with perhaps residents have a greater say in things"

"activity seek to introduce new residents to neighbours and other residents and activity groups / gatherings"

# You said, we do

Members of the Central Team are attending more resident meetings.

We have included the residents in decision-making for the budgetary process for 2024, welcoming them to choose a specific maintenance/ décor project to be done within the 2024-year end. This went down well, and we will be working with them from June onwards on the projects to be included in 2025.

## **The projects residents chose for 2024 are as follows:**

- Lench's Close chose for a hedge to be removed/ cut down – according to residents, this particular hedge is causing darkness in the flats on the ground floor, directly behind – completed in May 2024.
- Tanner's Close chose their fire doors to be painted and ironmongery changed, which we were not able to do when fitted due to costings – due to start works June/ July 2024
- The replacement of the door on the rear of the building, onto the carpark, to be an automatic door for the ease of residents with walking aids – completed May 2024.

Lench's Trust appreciates the time everyone took to complete the survey for us.

It is important that through your feedback, we listen to your views and understand the services that work well along with those we know can and should be improved.
