

### **Professional Experience Clearance Documentation**

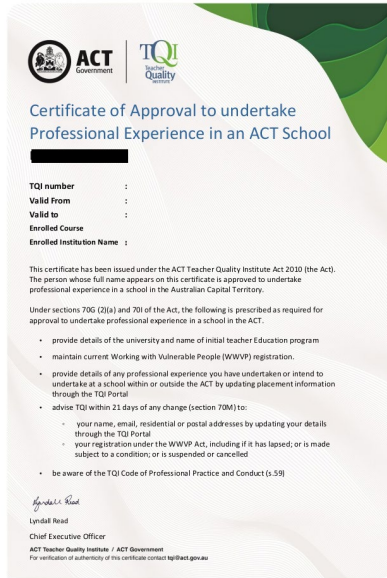

The Professional Experience program is based on the premise that you will have gradual, varied and integrated experiences. Pre-service teachers may complete their practicums in Government, Catholic, or Independent schools.

Before any Professional Experience placement can be undertaken in an accredited School or Early Learning Centre, Pre-service Teachers must have the appropriate clearance documentation, relevant to individual states, territories or countries as outlined below. Carefully check the documents required for your state to be uploaded to SONIA. All documents must be available to present to the school or early learning centre in the lead up to/first day of the placement.

#### **PLEASE NOTE:**

- You are required to obtain the mandatory clearances for the state/territory in which your placement will occur (this may not necessarily be the state or territory that you reside in).
- Your full name on all documents, certificates and correspondence must match your university enrolled name, 100 points of ID and your name on all your check documentation. Placements will not be approved until all mandatory requirements are complete.
- Please check with your school/centre for any additional requirements before starting your placement.

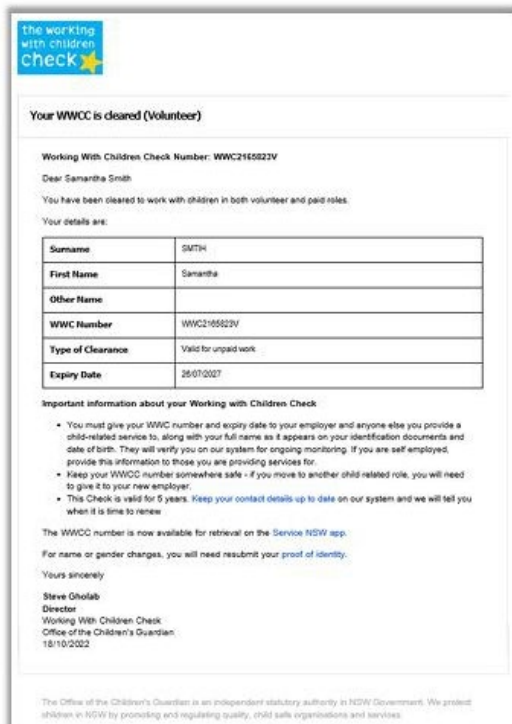

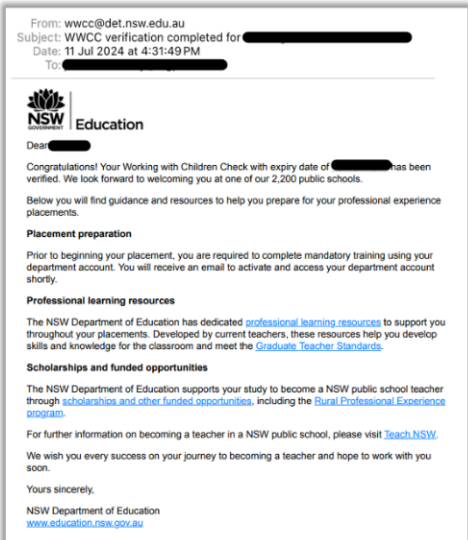

- From 1 April 2024, teachers working in Early Childhood Education and Care (ECEC) settings will be able to access teacher registration. Registration will be voluntary in these settings as we introduce the [ECT registration category](#)
- There is no fee to apply for approval on the [pre-service teacher register](#)

**\*\*Upload a copy of your clearances to the relevant 'Checks' tab of your SONIA account\*\***
