Spicers 

and fine art

Exceptional Print Quality for Photography & Fine Art

At Spicers, we believe every image deserves to be showcased at its absolute best. Whether you're producing gallery-quality photography, museum-grade fine art, or commercial display prints, achieving outstanding color accuracy, depth, and detail is essential. That's why we offer a carefully curated range of Aqueous and Solvent solutions—each designed to meet the highest standards of print reproduction.

AQUEOUS

For prints that demand the finest detail and color precision, our Aqueous range delivers exceptional results. Designed for water-based inkjet systems, these media offer superior tonal gradation, deep blacks, and brilliant color vibrancy—making them ideal for professional photography and fine art reproductions. With options ranging from matte and satin finishes to textured art papers, Spicers' Aqueous solutions ensure your work is presented with the utmost clarity and richness.

ECO-SOLVENT, LATEX & UV

When durability and impact are just as important as print quality, our Solvent range provides a perfect balance of performance and longevity. Engineered for solvent, eco-solvent, UV, and latex ink systems, these media offer outstanding resilience against fading, moisture, and handling—ideal for high-traffic environments, commercial displays, and outdoor applications. With a selection of gloss, satin, and canvas finishes, Spicers' Solvent solutions bring artwork and photography to life with stunning vibrancy and long-lasting appeal.

EDITION 1

Welcome to the latest edition of the Photography and Fine Art Catalogue.

Explore our extensive range of high-quality media tailored for photographers, artists, and CAD professionals. Our selection includes specialised materials for stunning photo prints with vibrant colours and superior detail, premium fine art media that ensures beautiful reproductions of paintings and drawings, and reliable CAD media engineered for precise technical drawings and plans.

Discover the perfect media to meet your creative and technical needs with our carefully curated collection designed for exceptional clarity and performance. With our team of Photo Fine Art specialists, Spicers can provide you with information and expert advice. We are your local supplier with stock on the floor and a distribution network ready to deliver to you. Please contact your local Spicers representative for enquiries or to request a sample.

Spicers 

Partner with Spicers,
the ultimate destination
for innovative Visual
Communication solutions.

Spicers is a dynamic and solutions-focused company with a passion for supplying quality materials, equipment, and solutions to our customers in the commercial print, labelling, signage, visual display, and architectural industries.

Our wide range of products, high quality materials, commitment to sustainability, and experienced and knowledgeable team can offer expert advice and guidance to clients. We aim to be the business partner of choice for our customers, by delivering on our promises, every day.

Environment

Spicers is FSC® and PEFC certified, offers a wide choice of environmentally friendly materials and operates under a Sustainable Supply Chain Policy.

Roll Media

Spicers carries your roll media essentials as well as a collection of specialty products to help bring your creative ideas to life. We have media for eco-solvent, UV curable, Latex and LED ink technologies. Key brands include 3M™, General Formulations, Neschen, Yupo® and Photo-Tex™.

Spicers offers a range of computer cut colours, wall coverings, banners and repositionable materials to create a unique look and feel.

Rigid Media

Spicers supplies a market leading range of essential sign and display substrates, as well as some unique products that stand out from the crowd. Key brands include Ace, Yupo®, Skybond™ and Rodure.

Finishing

If you require essential laminating products to protect your print and extend its longevity, Spicers can help you. Our range includes matt, gloss, specialty, anti-graffiti and textured floor graphic products.

Ink

OEM ink for a vast range of digital wide printers are part of our offering. These include Mimaki™, Roland and Epson®.

Hardware

Spicers holds a vast portfolio of wide format printing and finishing equipment. We are proud to sell machinery from respected brands such as Mimaki™, Roland, Epson®, ROLLSROLLER™ and Neolt.

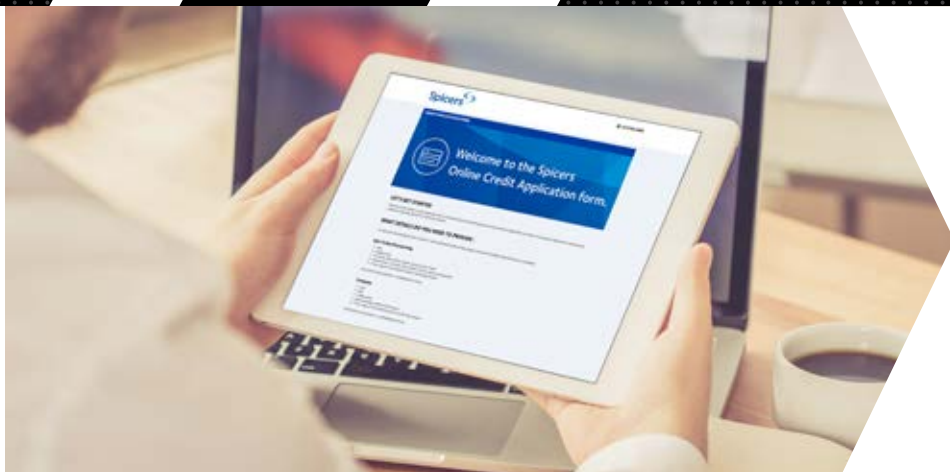

Sales & Distribution Network

Spicers boasts a dedicated sales team and stock on the floor ready to deliver in Melbourne, Sydney, Brisbane, Townsville, Darwin, Perth, Adelaide and Hobart.

Spicers

Greenfleet partnership

In 2022 Spicer's embarked on our journey towards Carbon Neutrality.

Spicers Australia is offsetting CO2 emissions relating to our Australian operations. This includes emissions from LPG for our gas forklifts, the diesel used in our fleet of trucks, the fuel used in company cars (including those with car allowances) and electricity used in our offices and Distribution centres. Whilst Spicer's have taken action through solar panels on some of our sites, LED lighting upgrades and movement to more electric forklifts, we still have some work to go. We are proud to be partnering with Greenfleet to take climate action and offset our carbon emissions through native reforestation.

Greenfleet is a leading not-for-profit environmental organisation committed to protecting our climate by restoring our forests. Greenfleet plants native biodiverse forests to capture carbon emissions and help fight the impacts of climate change. Since 1997, Greenfleet has planted over 10.8 million trees across 550+ forests in Australia and New Zealand. As they grow, Greenfleet forests absorb carbon emissions, improve soil and water quality and restore habitat for native wildlife, including many endangered species.

Spicers' first offset was allocated to Glendalough, VIC. In the rolling hills of South Gippsland, this previously cleared 240-hectare property will be returned to native ecosystem. The property is adjacent to remnant native forest and will provide an important vegetation link for Strzelecki Koalas and habitat for native birds such as the Yellow-faced Honeyeater and Grey Fantail.

"By partnering with Greenfleet, we are confident that our climate action provides genuine and lasting environmental benefits. We are proud of the impact we have made and that we will continue to make into the future," said David Martin, CEO of Spicer's Limited. "By offsetting our emissions with Greenfleet, we are taking practical action against climate change to help to restore Australia's forests, recreate crucial habitat for native wildlife and transform degraded land back to its natural state."

Through practical climate action, Greenfleet is growing hope for our climate.

SUSTAINABLE DELIVERIES

SPICERS' JOURNEY TO CARBON NEUTRALITY

We are proud to highlight that all Spicer's deliveries are now carbon neutral made possible through our partnership with Greenfleet.

Delivering Sustainability

Greenfleet's remarkable efforts include the revegetation of land in Victoria, New South Wales, Queensland and New Zealand. The forests they plant will be protected beyond this century and are projected to remove nearly 513,887 tonnes of carbon as they grow. This initiative not only offsets our emissions but also contributes to the long-term health and sustainability of our environment.

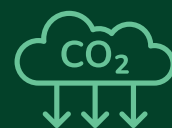

PROUD SUPPORTER OF

Spicers are proud to be partnered with Greenfleet.

All Spicer's deliveries are now carbon neutral.

Balancing emissions for a sustainable future.

Spicers 

The image features a series of concentric circles centered on the page. A vertical line divides the entire composition in half. The left half of the circles is a solid blue color, while the right half is black. The background is black on the left and white on the right. The word "Aqueous" is centered in the black portion of the innermost circle.

Aqueous

PROOFING PAPERS

Media designed to enable the highest precision in proofing to industry standards.

Photography by Markus Spiske

Bauhaus 39Proof 260gsm

PROOFING

- FOGRA certified to meet ISO12647-7 standard
- High colour fidelity with a unique semi matt finish and wide colour gamut
- Fogra 39 260gsm semi matt microporous resin coated proofing paper
- Ink Compatibility: Aqueous (Dye & Pigment), Indigo, Latex

Material	Material Description	Finish	Approx. UM	Grammage (GSM)	Width (mm)	Length (m)
171383	Bauhaus 39Proof	Premium Semi Matt Coated	270	260	430	35
171384	Bauhaus 39Proof	Premium Semi Matt Coated	270	260	610	35

Bauhaus Techplot – Dry Toner Unglued

**BAUHAUS TECHPLOT
BOND PAPER**

- 80gsm Uncoated bond paper
- For use with plan copiers
- 76mm core
- Perfect for architectural & engineering plan drawings
- Unglued
- Ink Compatibility: Dry Toner

Material	Material Description	Finish	Box QTY	Grammage (GSM)	Width (mm)	Length (m)
165361	Bauhaus Techplot – Dry Toner Unglued	Uncoated	2	80	594	150
165367	Bauhaus Techplot – Dry Toner Unglued	Uncoated	2	80	841	150

The image shows three large rolls of white, self-adhesive or synthetic film. The rolls are arranged diagonally from the top left towards the bottom right. The top roll is the largest and most prominent, showing its hollow cardboard core. Below it, two smaller rolls are visible, also showing their cores. The film has a smooth, slightly matte texture. The background is a plain, light gray surface, and the lighting creates soft shadows to the left of the rolls.

SELF ADHESIVE AND SYNTHETICS

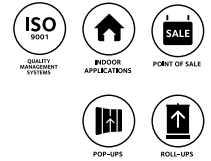

We compliment our offering with a range of Polypropylene and Polyester films for various applications in signage, drafting and proofing.

Neschen PP Nolite

SYNTHETIC

- An opaque, matt white PP film designed for roll-up displays
- Can be used in most applications without an additional protective laminate
- Anti-curling property for optimal flatness
- Indoor applications
- Has a high scratch resistance and enables a photo-realistic print quality
- PVC-free PP film specially developed for roll-ups and L-banners
- High opacity thanks to silver back coating
- Ink Compatibility: Aqueous (Dye & Pigment)

Material	Material Description	Finish	Grammage (GSM)	Width (mm)	Length (m)
163205	Neschen PP Nolite	Matt White	170	914	30

Bauhaus Clear Film

SYNTHETIC

- 175gsm clear polyester film used in the manufacture of digitally created screen separations
- Excellent quality, quick drying, excellent dot definition and line sharpness
- Ink Compatibility: Aqueous (Dye & Pigment)

Material	Material Description	Finish	Approx. UM	Grammage (GSM)	Width (mm)	Length (m)
171454	Bauhaus Clear Film	Clear	142	175	914	30.5
178646	Bauhaus Clear Film	Clear	142	175	1118	30.5

Bauhaus Blockout PP Self Adhesive

BAUHAUS BLOCKOUT AQUEOUS

- Matt White Polypropylene film with good scratch resistance and water resistance
- Permanent, Grey block-out adhesive
- Unique lay-flat properties making it well suited for Roll-Ups, banners, poster work and mounted point of sale
- For indoor and short-term outdoor use
- Ink Compatibility: Aqueous (Dye & Pigment)

Material	Material Description	Finish	Grammage (GSM)	Width (mm)	Length (LM)
172951	Bauhaus Blockout PP Self Adhesive	Matt White	270	1070	30

POSTER PAPERS

Poster papers are ideal for full colour graphics and features a large colour gamut and excellent black density. Available in Matt, Satin, Gloss or Clear.

Photography by Florencia Viadana

Bauhaus Matt Paper 170gsm

BAUHAUS MATT AQUEOUS

- 170gsm matt coated paper for CAD & high resolution graphics
- Razor-sharp image with precise lines, crystal clear image quality and excellent colour reproduction
- Applications – photography, posters, graphic art reproduction, POS, CAD and exhibition graphics
- Specially developed instant-dry properties ensures that the ink fixes with total precision and dries in seconds
- Suitable for hot and cold lamination
- Ink Compatibility: Aqueous (Dye & Pigment), UV curable

Material	Material Description	Finish	Approx. UM	Grammage (GSM)	Width (mm)	Length (m)
167525	Bauhaus Matt Paper	Matt	200	170	914	30

Bauhaus Poster Matt 140gsm

BAUHAUS MATT AQUEOUS

- High white matt, premium coated presentation paper for posters and full colour graphics requiring high ink absorption
- Fast drying
- Meets Criteria for permanence according to ISO 9706
- Ink Compatibility: Aqueous (Dye & Pigment), Indigo, Latex

Natural Line

Artist papers made from environmentally friendly fibres.

The Natural Line is the sustainable range of Fine Art inkjet papers from the Hahnemühle Digital Fine Art Collection. The Natural Line is made from unique raw materials: Bamboo, Hemp and Agave.

The plants that provide the cellulose require minimal maintenance, grow quickly and don't need any pesticides. Their rapid growth means that more cellulose can be produced on the same cropland than with other raw materials, and they also require much less water, helping to save valuable resources and protect the environment.

The new Fine Art inkjet papers from the Natural Line are the next step in Hahnemühle's continuous pursuit of sustainability and careful use of our resources.

Hahnemühle

Hahnemühle Natural Line was awarded the TIPA World Award 2020 for 'Best Inkjet Photo Paper'.

The Natural Line features:

- Matt premium inkjet coating for outstanding print results
- Acid- and lignin-free
- ISO 9706 conform/ museum quality for highest age resistance
- Compatible with pigment and dye inkjet systems
- ICC-profiles available
- Available in sheets and rolls*

A wide-angle photograph of a desert landscape at sunset. The sky transitions from a deep blue at the top to a bright orange near the horizon. In the foreground, there is a dry, rocky terrain with sparse vegetation and a fallen log. In the background, a large rock formation with a natural archway is visible, with the sunset light shining through it.

SIMPLY
BREATHTAKING

A close-up photograph of several paintbrushes with different colored bristles (blue, green, orange, and white) resting on a surface. The brushes are slightly out of focus, creating a sense of depth and artistic texture.

B
CREA

Experience the Breathing Color difference.

Spicers is now stocking Breathing Color products as part of its Photo Fine Art range, offering premium-quality media for exceptional photographic and fine art printing.

For Photographers

Breathing Color's archival-quality media ensures photographers achieve stunning, true-to-life prints with exceptional color accuracy, deep blacks, and fine detail. Its premium canvas, paper, and metallic options elevate the presentation and longevity of photographic work, making it the perfect choice for professionals looking to showcase their images at the highest standard.
