# Why **HOT JOBS** matter?

Every year, Workforce Solutions Borderplex identifies the jobs that are in high demand and will shape the future of our region. These **Hot**

**Jobs** aren't just numbers on a list; they represent **opportunity, security, and growth** for thousands across the counties that we serve:

Brewster, Culberson, El Paso, Hudspeth, Jeff Davis and Presidio.

## 3 KEY CRITERIA THAT MAKES THEM **HOT**

1. Pay a **living wage of \$17.97** or higher
2. Offer **20 or more annual openings** in our region
3. Show **10% or more growth** over the next 10 years

## SO, WHAT DOES THIS MEAN FOR YOU?

### For Students,

Hot Jobs are career pathways where training pays off. Many connect directly to regional training programs, apprenticeships or certifications that can be completed in two years or less. Workforce can offer help fund your education through programs.

### For Jobseekers,

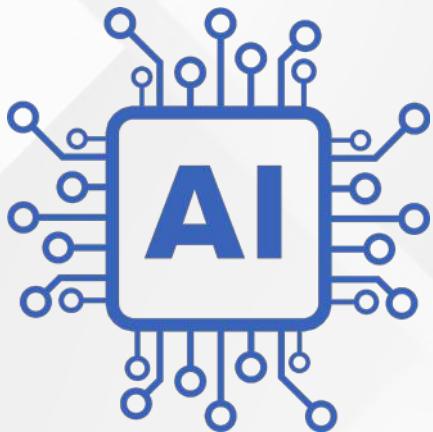

These careers offer real growth, good wages, and long-term stability. Whether you're changing industries, re-entering the workforce or looking for better pay, Hot Jobs point you toward opportunities worth pursuing.

### For Employers,

These roles are critical to our region's economy. Filling them strengthens businesses, ensures long-term competitiveness and builds a workforce ready for tomorrow's challenges including adapting to new technologies like AI.

## How AI is Shaping Tomorrow's Jobs

Artificial Intelligence is transforming industries everywhere, especially right here in the Borderplex. While some jobs are changing or cooling down because of automation, others are growing even faster thanks to AI. Artificial Intelligence is reshaping work but it's also creating new possibilities for the people who are ready.

### AI-Enhanced Careers

Artificial Intelligence is boosting productivity across several Borderplex industries, creating new, high-skill opportunities rather than replacing workers.

**Hottest Jobs** are in top wage quartiles & entry wages are at or above the WSB **living Wage (\$17.97)**

**AI-Enhanced Careers** are occupations likely to experience AI enhancement

**Cooling Jobs** are occupations that have a projection of diminishing growth over the next ten years.

### Jobs Cooling Due to Automation

Some occupations are seeing slower growth as repetitive or data-entry-heavy tasks are automated.
