SAY HELLO TO FREJA

At FLEXA we strive to create furniture that accommodate children's needs. With deep roots in Danish design tradition the **FREJA** bed is made with an attentive focus on details.

The appealing design with its consciously chosen materials suits the modern living and makes the **FREJA** bed a premium quality choice for the child's room.

The bed combines contemporary Danish design and functionality by offering integrated storage under the bed. The drawers are great for storing toys, bed linen, games and clothes and children can easily and safely access them on their own.

The **FREJA** bed is made of pinewood and MDF and comes in two colors - white and blue-ish - and has beautiful brass knobs on the drawers.

FLEXA DESIGN TEAM

DESIGNER

With a believe in modern Danish design, and a passion for children furniture, the FLEXA design team develop and design furniture and products to create a joyful childhood for children. The FLEXA design team focus on the child and its changing needs, and the designs are made to stimulate children's curiosity and creativity. The attention to details, materials and playful accessories is what makes FLEXA furniture unique.

FREJA

BED & STORAGE IN ONE

The integrated storage makes it possible for children to always have their favorite toys and books right at hand.

The storage solution consists of a shelf, 2 drawers and 2 toy boxes. A perfect way to save space and help the little ones keep their room tidy!

SAFETY FIRST

At FLEXA the child's safety is first in priority and always kept in mind in our designs.

The beautiful guard rails on the **FREJA** low mid-sleeper ensure safety both while playing and sleeping in the bed.

The **FREJA** bed is higher than a single bed and lower than a mid-high bed. This makes it easy and safe for an active child to crawl up and down the little ladder.
