APY

The **SOiL CERAMIC OIL BURNER** gently warms essential oils without burning them, allowing them to release soothing aromas that create a warm, inviting atmosphere.

Paired with our proprietary aroma soy wax melts, it effortlessly fills your space with the pure essence of natural essential oils, making relaxation easy and enjoyable.

CARRIER Oils

Carrier oils are cold-pressed vegetable oils commonly used in aromatherapy as a base to dilute highly concentrated essential oils.

Each **CARRIER OIL** offers its own distinct properties, providing numerous benefits for both aromatherapy and skincare. Whether blended with essential oils or used alone, these oils are ideal for massage or as nourishing bath oils.

At SOiL, our range of **CERTIFIED ORGANIC** carrier oils is carefully selected to highlight their unique qualities, while reflecting the strong partnerships we've built with trusted, sustainably-focused global suppliers. Our carrier oils are packaged in 100% recyclable

amber glass bottles with tamper-evident lids to ensure purity and integrity, and are available in 30ml, 100ml, 250ml, and 500ml sizes.

RAW UGANDAN SHEA BUTTER

Shea butter, a rich natural moisturizer from Africa, is one of SOiL's signature products.

We partner with a certified organic supplier in UGANDA, renowned for producing premium, organic shea butter. The butter melts effortlessly at body temperature, making it easy to apply and providing lasting hydration.

Our collection of **SCENTED SHEA BUTTERS** pairs the nourishing power of shea butter with the therapeutic qualities of essential oils. In addition to the pure shea butter, the **LAVENDER-SCENTED** option calms rashes, burns, and other skin conditions, while the firming **CITRUS-SCENTED** blend, with Bergamot and Grapefruit, refreshes and tones the skin.

Our butters are securely packaged in amber glass jars to preserve the integrity of the butter and the essential oils within.
