# ABOUT US

**Felt the Present is founded in 2020 by PenPen&JiJi, artist partners from Hong Kong.**

**Felt the present is a small workshop for wool felt artworks. We aim to create unique presents which are meant for recording special moments. Our customers will find from us memorable and precious woolfelted arts which can be gifted to their loved one.**

**FTP - Felt the Present sells woolfelt related products including wools, tools and DIY kits. Moreover, we provide services like customised woolfelt artworks as well as woolfelt classes.**

# ABOUT WOOL FELT

**Felting technique is a common skill which is originated from ancient Europe. Felted products have broad usages because of their characteristics like keeping warm, water proof and shockproof.**

**Most of the hairs of animals can be felted which the fleece from sheep shows superior performances and capabilities among them. Besides, sheep is an excellent kind of animal to have it bred and raised!**

**Wool felting can be carried out in the forms of wet felt and needle felt. Warm water and soap are utilized in wet felt for products like boots and body wears; while needle felt is the use of special needle to pin on wool for products like toys and small accessories.**
