LOGO & WORD TRADEMARK

Detailed Description for World Blockchain Bank Gold Bar Trademark

Design Elements:

Rectangular Bar Shape:

1. The trademark design features a sleek, rectangular gold bar, symbolizing wealth, stability, and the timeless value of precious metals. The bar's dimensions and smooth, polished surface are indicative of high-quality craftsmanship, representing the World Blockchain Bank's commitment to excellence.

Embedded World Blockchain Bank Token:

1. Centrally placed on the gold bar is a detailed depiction of the World Blockchain Bank Token. The token is represented in a three-dimensional form, appearing to be intricately embedded into the gold bar's surface. This design symbolizes the merging of traditional wealth with modern blockchain technology.
2. The token's design includes key elements such as the central shield, crown, and elemental symbols (Ag for Silver, Pd for Palladium, Pt for Platinum, OIL, USD, Au for Gold, and others) as described in the World Blockchain Bank Token trademark description. These symbols represent the backing of the token with tangible and digital assets, emphasizing the intrinsic value of the token.

Text Elements:

1. The top of the gold bar is engraved with the text "WORLD BLOCKCHAIN BANK" in an elegant, serif font, signifying authority, trust, and the bank's prestigious global standing.
2. The same text is engraved along the front edge of the gold bar, ensuring the branding is visible from multiple angles. This repetition reinforces the brand identity and its association with value and security.

Registered in the Blockchain International Corporate Registry, under Company Filing No. 00054720240722 and Document No. BICRA.2024.2207.5479363, which can be verified at www.blockchaintrust.pro

Color Scheme:

1. **Gold:** Dominates the design, representing wealth, value, and the premium quality of World Blockchain Bank's offerings. The use of gold in both the bar and the embedded token highlights the brand's association with traditional forms of wealth while integrating innovative financial technology.
2. **Blue and Silver Accents:** Featured within the embedded token, representing trust, modernity, and the integration of blockchain technology with traditional assets.

Usage and Application:

The World Blockchain Bank Gold Bar is designed to be a symbol of value, security, and the innovative integration of blockchain technology with traditional financial assets. The gold bar is intended for use in the following areas:

- **Digital and Physical Representation:** The design is intended to be used both as a digital asset within the World Blockchain Bank ecosystem and as a physical collectible item. The physical version, if produced, would serve as a premium collectible or investment item, symbolizing ownership of digital and real-world assets.
- **Marketing and Branding:** The gold bar design will be used in various marketing materials, both online and offline, to promote World Blockchain Bank's products and services. It serves as a visual representation of the brand's commitment to bridging traditional banking with blockchain innovation.
- **Tokenized Asset Backing:** The gold bar could represent a tokenized asset within the World Blockchain Bank platform, offering a tangible connection to the digital tokens issued by the bank. This reinforces the idea of backing digital assets with physical commodities.

Trademark Claim:

The World Blockchain Bank Gold Bar logo, as described above, is intended to be registered as a trademark under the blockchain trust platform. This registration will provide exclusive rights to use and protect this unique design in all relevant markets globally. The trademark will cover the full range of financial, technological, and collectible services offered by World Blockchain Bank, ensuring comprehensive protection across all current and future activities.

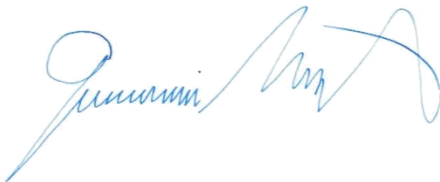

The Original Creator is known to me, Registrar.

THIS TRADEMARK CERTIFICATE, has been executed at the office of the Registrar of the Blockchain International Corporate Registry Authority, on the day and year mentioned in the heading in this Trademark Certificate.

The contents of this Trademark Certificate were stated and explained in substance to the Original Creator. The Original Creator then declared to be well informed on and to agree with the contents of this Trademark Certificate and not to care for a reading out in full.
