Founder & CEO, Superposition Technologies Pvt Ltd

Q&A Session

7:15 PM

Vote of Thanks

Sreenivassan Ramaprasad

Sreenivassan Ramaprasad, the founder and enabler of Saamartya, is a Masters (M.Sc - Tech) graduate from BITS Pilani and a certified NLP practitioner. Ramaprasad started his career with Associated Instruments Manufacturers India P Ltd New Delhi, and consequently joined JK Tyres and CADD Centre in 1989.

At CADD Centre, he grew to become the Executive Director of the company in a span of 15 years. During his tenure in CADD Centre he was instrumental in establishing CADD Centre in Delhi and making CADD Centre a national brand. He developed the equipment business of CADD Centre in 1995. With virtually no employee and nil turnover he built the equipment business to Rs 50 crores in a span of 6 years and strengthened the company to 225 executives. Earlier he served as Director at CADD Centre Training Services, Asia Pacific's largest CAD training network with a presence in 30 countries.

Ramaprasad served as COO in a new venture called iKix 3D prints which specialized in 3D services. As a Chief Operating Officer, he was able to successfully get across the concept of 3D printing services to Architectural Industry. He started another venture called Saamartya in 2016 that enables people to develop their people skills and business skills. He is actively engaged in streamlining sales processes of small and medium companies.

He is an active Rotarian, having led Rotary club of Madras West as its 50th President, made the club more vibrant with his interpersonal skills. He also initiated a Dialysis Center for the Club's Thiruverkadu Medical Centre. He is known for his anchoring skills and he is a regular invited speaker in Rotary circles. Ramaprasad is the current President of Professional Speakers association of India Chennai Chapter.

Ramaprasad was the Vice Chairman of Indo American Chamber of Commerce Tamil Nadu Chapter which is a chamber that promotes bilateral trade between India and USA. Ramaprasad got married to Geetha in 1993 and has a daughter by name Ananya who completed her Viscom(Visual Communications) and a professional actor.

Venkataraman Thirumalai

With over 25 years of experience in software services, Venkataraman Thirumalai is described as a Founder Catalyst and Honorary Microsoft Regional Director. His career began with the founding of Vishwak Solutions in 1996, which he grew into a globally recognized company with operations in India, Seattle, and London. He also co-founded a fintech startup that pioneered innovative business document management using Azure AI.

Known for offering insights that rise above industry hype, he has consistently focused on building user-centric technology solutions. As early as 2003, he foresaw the rise of mobile phones as the primary computing devices in developing regions, and today he anticipates the shift toward omnipresent technology that will surpass the smartphone era. His forward-looking mindset led to the development of a patent-pending predictive news app powered by machine learning.

Recognized as a Microsoft Regional Director since 1999 and an IEEE Senior Member, he is a respected speaker on technology and business. He has successfully mentored startups—especially in SaaS and Virtual Reality—guiding them from inception to scale.

He advises the Dr. APJ Abdul Kalam International Foundation, House of Kalam, and contributes to Tamil language computing through his work with the Tamil Virtual Academy, including their digital library initiatives.

An accomplished author, his recent Tamil book Nutpam explores consumer technology. Beyond work, he is a passionate reader, film enthusiast, and blogger. His blog, spanning 20 years and 4,000+ posts, reaches over two million readers. He lives in Chennai, India, blending technology expertise with cultural advocacy.

John Jayakumar

John V. Jayakumar is the author of *Quantum Triangle: The Blueprint to a Quadrillion-Dollar Economy*, a groundbreaking work that examines the convergence of AI, robotics, and quantum computing and how these forces will shape the coming quadrillion-dollar economy. Drawing on cutting-edge research and industry insights, John helps organizations anticipate disruption and seize opportunities through transformative keynote sessions and strategic advisory engagements.

His second book, *AI for Keynote Speakers: The No-BS Guide to Using AI Across All Aspects of a Keynote Speech*, empowers speakers to harness AI for research, content creation, and audience engagement. Known for demystifying AI tools, John shares practical strategies to refine storytelling, boost efficiency, and amplify impact. Through workshops, consulting, and speaking engagements, he encourages professionals to treat AI as a collaborator, unlocking new levels of creativity, influence, and performance.

As Co-Founder & CEO of Superposition Technologies, John leads AI consulting and training services, supporting enterprises in implementing Generative AI solutions. His expertise spans custom LLM development, Retrieval-Augmented Generation (RAG) systems, AI strategy roadmaps, technical training, and responsible AI deployment, helping businesses drive efficiency, enhance decision-making, and secure a competitive edge.

Earlier in his career, John spearheaded digital transformation initiatives at Verizon, where he modernized legacy systems, implemented AI-driven automation, reduced operational costs by 42%, and achieved a 99.99% system reliability rate. His leadership accelerated decision cycles and improved customer response times by 28%, setting a benchmark for enterprise-scale innovation.

Today, John remains open to consulting, training, and speaking opportunities, working with organizations worldwide to fast-track their AI-first transformation and unlock the full potential of Generative AI.
