All the HRX products are unique pieces.

- Created with our designers to develop your ideal suit that represents the best image you want to show
- Developed by our pattern-makers to give you the best fitting and comfort depending on each situation
- Entirely handmade

Every single HRX product is a focus of industrial attitude with an extra trademark of Italian craftsmanship.

All projects can be considered as a real masterpiece.

B E S P O K E

*HRX cares about materials and the planet. Waste from suit fabrics is collected and used to give life to other fabrics. Two of our suits are composed in part of recycled materials. **PASSION FOR THE PLANET.***

Let your imagination run wild.

Sublimation is an innovative technique that transfers ink directly onto the fabric, transforming it from solid to gas in an instant.

Using **polyester** materials, this technology ensures permanent color fusion, making the fabric **resistant to scratches and fading**.

The result? A flawless, thickness-free garment that retains the fabric's original texture and withstands frequent washing for lasting quality.

100% personalization.
