BISQUE

Beautiful radiators for stylish interiors

Towel Radiator Collection

JANUARY 2021

A warm welcome

.... to Bisque's most popular Towel Rails.

In this brochure you will find a selection from Bisque's wide range of Towel radiators. If you would like to see Bisque's full range of products, please contact your local Bisque stockist or sales team for a full brochure. Alternatively, use the QR codes to access the Bisque website.

Bisque was founded in 1979 and quickly became a company with a mission - to offer beautiful but practical radiators in the most exciting styles, colours and finishes.

From timeless classics to the latest in energy efficient designs, our radiators can be found in wide variety of locations from The Shard to Highgrove House and our commitment to design, innovation and customer service has seen us regularly win awards, including CoolBrands and the BKU Award for Best Heating Brand.

This year Bisque are celebrating over 40 years of innovative design. Over the years Bisque have worked with up and coming designers to create high quality gorgeous products. We remain driven by enthusiastic people who understand how much a beautiful radiator can transform interiors.

On our website you will find even more inspirational imagery, together with handy tools such as our easy-to-use heatloss calculator, installation guides and our unique colour and valve selector tool, which allows you to see every stock model in every available finish and with complementary valves. You can also order free colour samples so that you can be confident that the finish you have chosen is the perfect fit for your home.

How to size a radiator

To establish the heat output required you can consult your plumber or use the Bisque heat loss calculator found on our website. Our sales teams will be happy to assist with any calculations.

We keep over 300 sizes in stock but many radiator styles are also available in a further range of bespoke sizes.

Technical data

Heat outputs listed in the brochure are given in watts and british thermal units (btus). All outputs have been determined according to EN 442 by independent laboratories and are shown at operating temperatures of $\Delta T = 50K$.

Detailed installation information can be found on our website.

All of our products are compliant with European regulations.

Accreditations correct at date of print
November 2020

Colour and finishes

The majority of our radiators are available from stock in at least 2-3 finishes, which we believe will complement most interiors. However, for many ranges there is a great selection of other options available to order and this is indicated by a colours price under the model listing.

Pipe centres

Where models have underside connections we have listed the pipe centres. However please note that these may alter depending on the installation e.g. if a supplementary heater is fitted. Please check carefully before drilling holes in tiles or wood flooring.

Delivery charge

Prices quoted include free delivery to the UK mainland for radiators and towel radiators.

Orders for valves, fans, elements and accessories with a net order value under £100 are subject to a processing charge of £10 + VAT

Warranty

Warranty terms differ according to material and manufacture. Our stainless steel radiators have a 10 year warranty, all other central heating radiators have a 5 year warranty. Radiators with electric heating elements have a 2 year warranty.

Warranties are subject to correct installation to current standards / water treatments and use.

Please see the inside back cover of this brochure for our Terms and Conditions.

Alban

The rectangular version of our popular Chime has the same sparkling appeal but with a perpendicular style. Cantilevered rails allow for even the plumpest towels to be easily slid on and off. Great for family bathrooms, the Alban can be installed with the rails to the left or right.

Have you considered...

Electric models

Rails supplied as standard with non-adjustable thermostat. Please allow 100 mm beneath the rail for the flex.

Supplementary Heater Connection

Electric DE-PACK thermostat supplied in chrome to match rail.

*pipe centres may be affected.

Please note a 15% surcharge will be applied to all prices displayed, on all orders placed from 1st August 2021

Colours and special finishes

Please note: due to the limitations of the printing process, the colours shown here are not exact representations. If you wish to order a radiator in one of these colours, please ask to see our separate colour chart or ask for a sample before placing your order (samples can be ordered via our website).

White

Traffic White is a brilliant white designed to complement the finish of modern sanitaryware. Pure White is softer, and usually preferred for rooms other than bathrooms where Traffic White is considered too harsh. White Quartz and Matt White bring a contemporary, textured finish to interiors.

Terms and Conditions of Trading

A complete copy of the company's terms and conditions of trading are available on our website www.bisque.co.uk

Please note the following:

All delivery times quoted are estimates only.

Returned goods for credit will only be accepted by prior arrangement (confirmed in writing), within 8 weeks of the date of despatch, where the goods are part of our stock range and where the goods are as fit for sale on their return as they were on delivery. If goods have been fitted this is deemed as acceptance of their quality. We cannot accept the return of non-stock goods.

Where a radiator is returned as no longer required and an alternative radiator is not ordered a 25% restocking fee plus a £10 administration fee will be charged. If a radiator is no longer required but an alternative radiator is ordered, either a restocking fee of £25 or 25% of the value (whichever is the lower) will be charged, but the administration fee of £10 will be waived.

Radiators with steel components (other than stainless steel) must not be installed on a domestic hot water circuit. If a stainless steel or brass product is to be installed on the domestic hot water circuit, a check should be made with the local water authority to ensure that dezincification is not a common occurrence.

Artificially softened water should not be used to fill radiators. For FAQ radiator/water-related information, visit www.fernox.com

You are responsible for ensuring the suitability, conformity and interoperability of the goods or indicative system design suggestions provided by us, with your heating system and your design requirements. It is important that you undertake such verification with an appropriately qualified expert third party.

All measurements given in this brochure are nominal dimensions only.

All brochures, catalogues and other promotional materials are to be treated as illustrative only. Their contents form no part of any contract between us and you should not rely on them in entering into any contract with us. Any typographical, clerical or other error or omission in any literature, quotation, price list, or other document issued by us will be subject to correction without liability being incurred by us.

Please note: due to the limitations of the printing process, the finishes shown here are not exact representations. If you wish to order a radiator in one of these colours, please ask to see our separate colour chart or ask for a sample before placing your order.
