

MetaKiosk

The MetaKiosk is a purpose built kiosk designed to support cryptocurrency, gaming and payments with modular functionality for expanded use in emerging industries. Designed with flexible functionality and capabilities set to enable debit, cash-in/ dispense transactions, barcode reading and supports robust industry authentication capabilities such as ID scan and camera identification.

Features

Flexibility

While purpose built to support cryptocurrency, gaming and payments, leaning on Hyosung's legacy of modular design, the MetaKiosk has an inherent flexible design. The MetaKiosk allows for easy integration and low cost upgrades to support multiple self-service solutions.

Versatile

The MetaKiosk enables a full set of cash out, cash in, and debit functionality. The device includes components to support robust authentication and identification requirements for various industries with barcode, ID scan and card reader, contactless/ NFC with a Win10 OS.

Striking Design

Visually appealing and engaging – the MetaKiosk piques the interest of passing customers and will draw them in for a closer look at the service offerings you've enabled. The MetaKiosk attracts and engages your customers with simple, interactive functionality and a design which includes one of the industry's largest displays.

Standard Features

Dimensions

- Height: 1688mm (66.5")
- Width: 495mm (19.4")
- Depth: 644mm (25.3")
- Weight: 205kg (452 lbs)

Environmental Conditions

- Temperature 32F ~ 104F (0°C ~ 40°C)
- Humidity 25% – 85%

System Platform

- Microsoft Windows 10 Platform

Customer Interface

- 24" wide color TFT LCD
