IN THE BEGINNING

In 2001, during the construction boom, a niche in the market was recognised by a keen entrepreneur and Handles Inc. was born. Lawrence Koff wanted to change the perception of how big a difference a seemingly small detail, like a door handle can make and offer the best service and product in the market.

Starting out from the original shop in Strand Street, today there are 4 branches in the Western Cape with the head office located in Bree Street, Cape Town.

Our range covers well over 16 000 inventory items with a selection to suit every design and budget.

We are the choice supplier and retailer to everyone from the DIY handyman to the top architects, builders and designers in South Africa.

Our offering ranges from handles to door controls and mechanisms, specialised window fittings, custom-made and bespoke ironmongery, bathroom fittings and a host of accessories that serve the industry.

WELC

TO HANDL

BEST

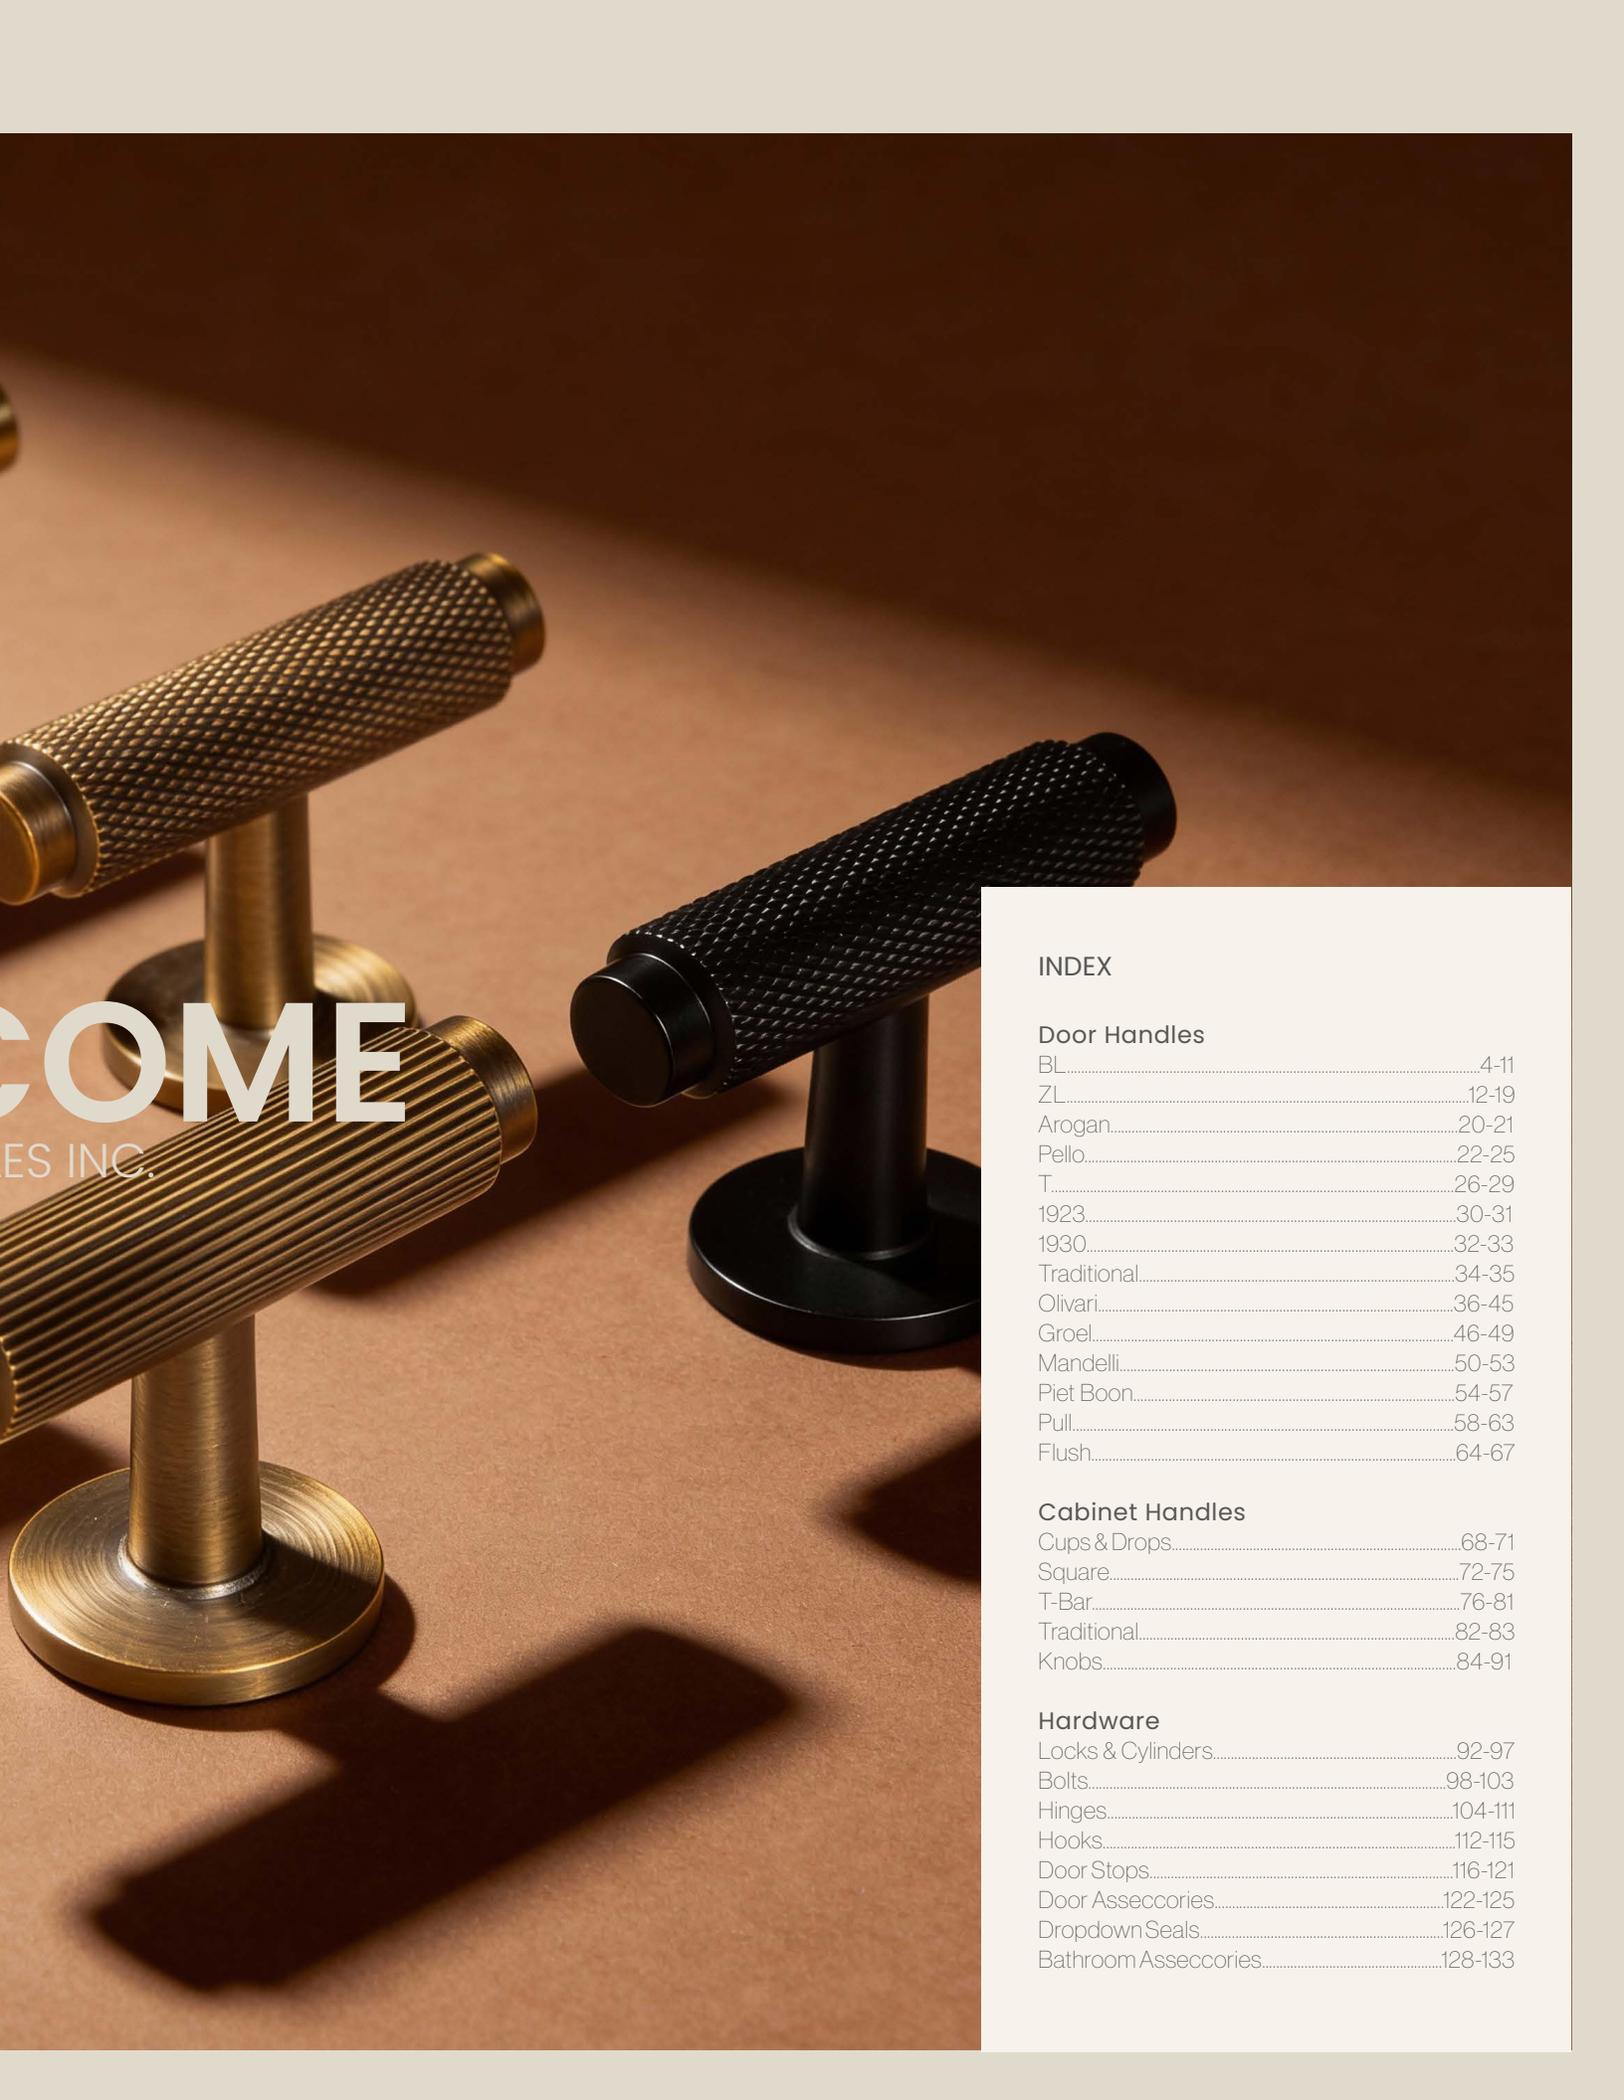

Being the best-in-the-game means we truly have a handle on what we supply; we strive to make sure all products are produced and supplied to meet their price-point.

PRODUCT

Over many years we have cultivated an expertise encompassing a vast array of products – local and international. This allows us to present to you the very best.

SUPPORT

They say great customer support is the foundation of every company; but for us it's more than that. Working with you every step of the way is what gets us out of bed in the morning.

Olivari door handles come with a 10 -30 year guarantee, depending on the finish.

ALEXANDRA

LEVER ON ROUND ROSE

Timeless lever on round rose by F.A Porche. The Alexandra is a modern lever handle available in multiple finishes and suitable for indoor and outdoor use with a 30 year mechanical guarantee.

Handle Length: 162mm / Rose: Ø 51mm

Finish:

ARC

LEVER ON SQUARE ROSE

The Arc model originated in a search for forms reduced to minimum terms, starting with the behaviour of a continuous curve. Suitable for indoor and outdoor use and comes with a 30 year mechanical guarantee.

Handle Length: 152mm / Rose: 51 x 51mm

Finish:

AURELIA

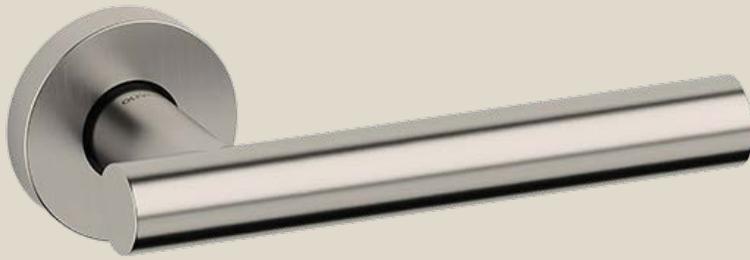

LEVER ON ROUND ROSE

Aurelia is a round rosette handle designed by Studio Olivari. Suitable for indoor and outdoor use and comes in a range of finishes with a 10 - 30 year mechanical guarantee.

Handle Length: 140mm / Rose Ø: 47mm

Finish:

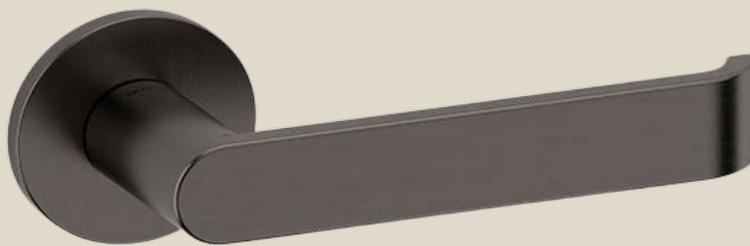

BEIJING

LEVER ON ROUND ROSE

Designed by Steven Holl in 2008 the Beijing is a modern minimalistic masterclass with round aesthetic. Suitable for indoor and outdoor use in a range of finishes with a 10 - 30 year mechanical guarantee.

Handle Length: 138mm / Rose Ø: 47mm

Finish:

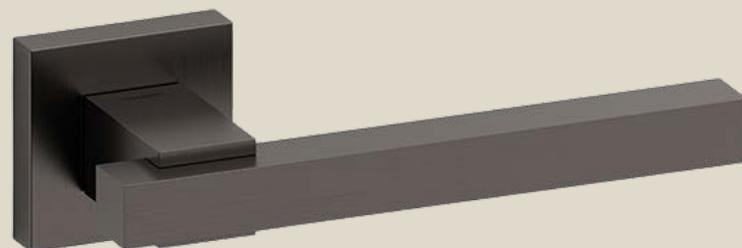

BETA

LEVER ON ROUND ROSE

The Beta leverer on round rose was designed by Joe Colombo in 2010 and features a geometric masterpiece with curved lever. Suitable for indoor and outdoor use and comes with a 10 - 30 year mechanical guarantee.

Handle Length: 145mm / Rose Ø: 47mm

Finish:

BIOS

LEVER ON SQUARE ROSE

In the ambit of Olivari's shape studies concerning the square, Bios is a kind of archetype that uses only square elements. Designed by Franco Sargian in 2006 and comes with a 10 - 30 year mechanical guarantee.

Handle Length: 145mm / Rose: 47 x 47mm

Finish:

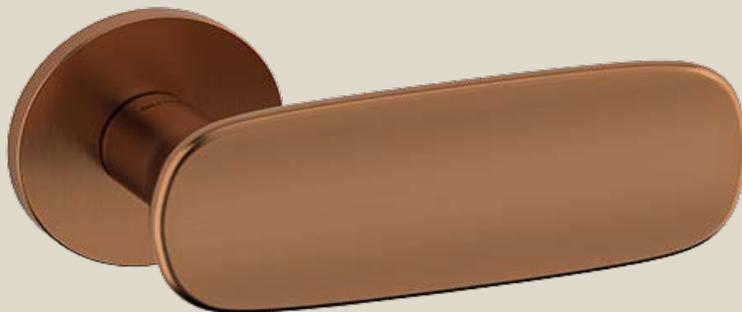

CHELSEA WOOD

LEVER ON ROUND ROSE

Jean Nouvel designed the Chelsea handle for 100 11th Avenue, a 23-storey residential tower in Manhattan's Chelsea neighbourhood, described as a "vision machine" reflecting the Hudson River. The Chelsea Wood handle is available in olive, karui and walnut wood with all finishes.

Handle Length: 152mm / Rose Ø: 62mm

Finish:

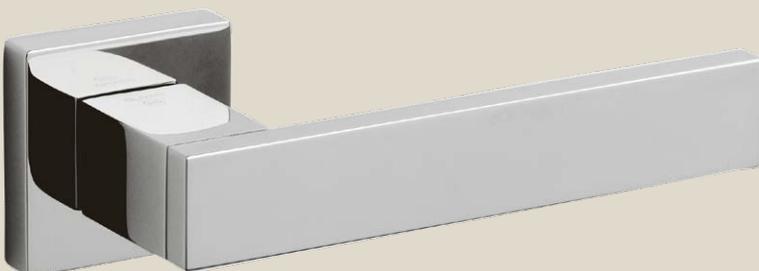

CONCA

LEVER ON ROUND ROSE

The Mandarin Oriental hotel in Barcelona was our first opportunity to work together with Patricia Urquiola. This is when the Conca was born, more compact, with redesigned proportions and a 10 - 30 year mechanical guarantee.

Handle Length: 121mm / Rose Ø: 51mm

Finish:

DIANA

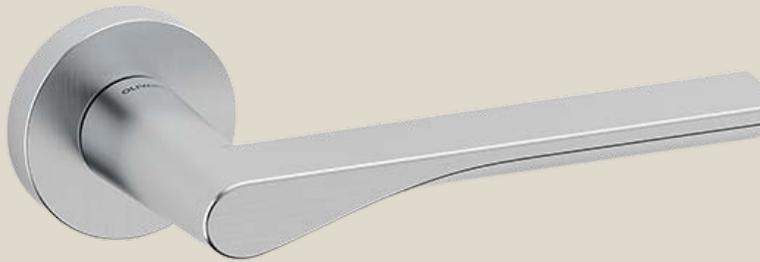

LEVER ON SQUARE ROSE

Olivari conceived the Diana as one of its studies using square geometrical forms. It is a versatile archetype thanks to its wide frontal surface, which lends itself to experimenting with the application of decorations.

Handle Length: 148mm / Rose: 47 x 47mm

Finish:

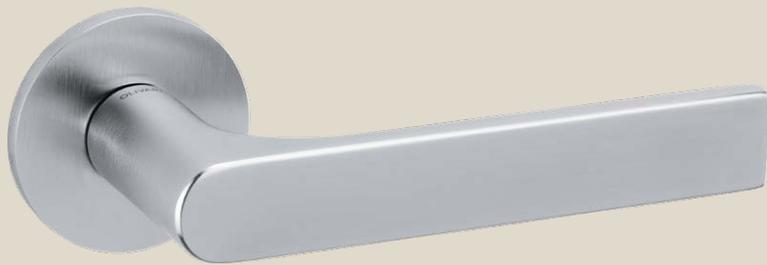

FIN

LEVER ON ROUND ROSE

Designed by Toyo Ito in 2009, Fin is a contemporary elegant masterpiece available in a range of finishes. Suitable for indoor and outdoor use and it comes with a 10 - 30 year mechanical guarantee which resonates quality.

Handle Length: 142mm / Rose Ø: 47mm

Finish:

GLORIA

LEVER ON ROUND ROSE

Gloria was born from the research for a simple and elegant shape, adaptable to the multiplicity of living contexts.

Handle Length: 146mm / Rose Ø: 51mm

Finish:

ICE CUBE

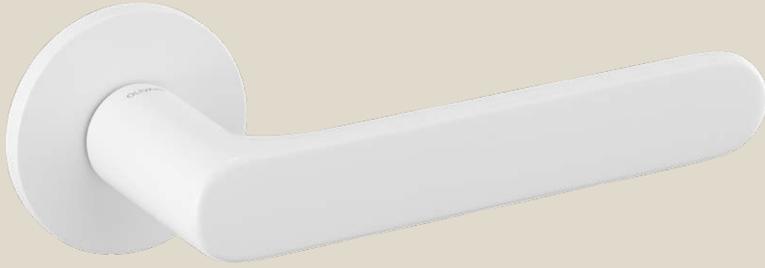

LEVER ON SQUARE ROSE

In all probability, the Ice Cube model is the first door handle ever made in polished glass. It is obtained from a sheet of high-tech super-clear glass. Suitable for indoor and outdoor use and comes with a 10 - 30 year mechanical guarantee.

Handle Length: 153mm / Rose: 51 x 51mm

Finish:

ICONA

LEVER ON ROUND ROSE

The handle has an essential neutral aesthetics and works like a sort of 'passe-partout' with a touch of memory, but it is contemporary and modern at the same time.

Handle Length: 147mm / Rose Ø: 51mm

Finish:

LAMA

LEVER ON ROUND ROSE

The Olivari Lama lever on rose door handle, designed by Gio Ponti in 1956, features a sleek, blade-like form crafted from solid brass, embodying geometric clarity with softened edges for ergonomic comfort.

Handle Length: 133mm, Rose Ø: 47mm

Finish:

LOGO L

LEVER ON ROUND ROSE

The Logo L was designed by James Irvine in 2023 with minimalistic round features and available in a range of finishes and comes with a 10 - 30 year mechanical guarantee.

Handle Length: 143mm / Rose Ø: 51mm

Finish:

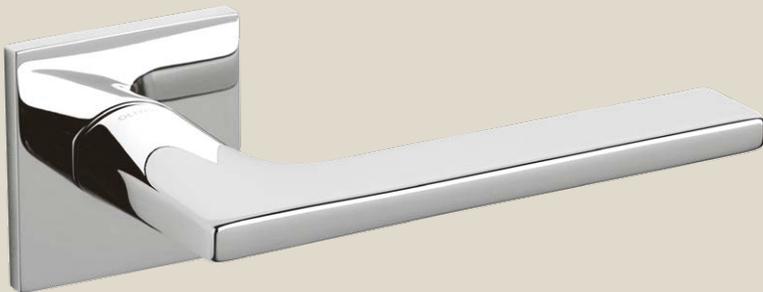

LOTUS

LEVER ON ROUND ROSE

The Lotus lever on rose handle by Olivari, designed by Javier Lopez in 2014, is a minimalist brass door handle with a sleek, nearly invisible profile, blending a thin lever with a 51mm rose for a refined, functional aesthetic.

Handle Length: 143mm / Rose Ø: 51mm

Finish:

LOTUS Q

LEVER ON SQUARE ROSE

The Lotus Q lever on rose handle by Olivari, designed by Javier Lopez in 2014, is a minimalist brass door handle with a sleek, nearly invisible profile, paired with a 51mm square rose for a refined, functional aesthetic.

Handle Length: 143mm / Rose: 51 x 51mm

Finish:

MARBELLA

LEVER ON ROUND ROSE

The Marbella is a sleek brass door handle with a flat upper curve and softer lower curve, blending ergonomic comfort with a timeless, elegant aesthetic.

Handle Length: 146mm / Rose Ø: 51mm

Finish:

PLANET

LEVER ON ROUND ROSE

The Planet handle was designed with a linear, sharp-edged look that feels soft to the touch, featuring subtly curved surfaces and balanced proportions for both aesthetics and functionality.

Handle Length: 139mm / Rose Ø: 47mm

Finish:

PLANET B

LEVER ON ROUND ROSE

Designed by Luca Casini in 2006, Planet B is a sleek, modern brass door handle with a soft, subtly curved design on a 51mm round rose, offering a sophisticated blend of aesthetics and ergonomic comfort.

Handle Length: 141mm / Rose Ø: 51mm

Finish:

PLANET Q

LEVER ON SQUARE ROSE

The Olivari Planet Q lever on rose handle, designed by Luca Casini in 2006, is a sleek, modern brass door handle with a linear, softly curved design and a 47mm square rose, blending sharp aesthetics with ergonomic comfort.

Handle Length: 139mm / Rose Ø: 47mm

Finish:

PLANET QB

RADIAL

OVAL LEVER

The Radial is a sleek, brass door handle with a rounded, sensual design and a 51mm rose, evolving from the Total model for a softer, inviting aesthetic.

Handle Length: 157mm / Rose: 28mm

SERENELLA

LEVER ON ROUND ROSE

Serenella is an handle with round rosette designed by Studio Olivari. Formal clarity makes for a clean-cut handle suitable for modern settings both indoor and outdoor.

Handle Length: 141mm / Rose Ø: 47mm

Finish:

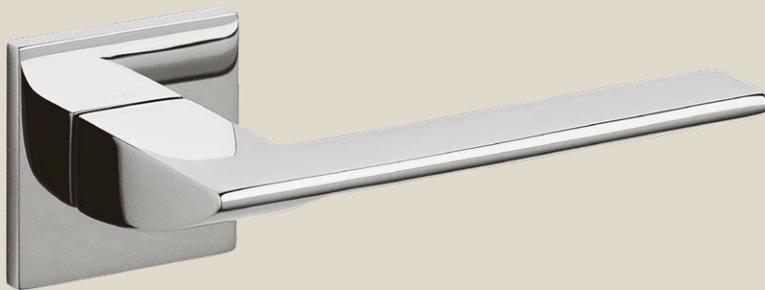

TOTAL

RECTANGULAR LEVER

Total was the first handle Rodolfo Dordoni developed with Olivari in 2007. It was defined by a shared concept. The idea launched of a geometrical, sharp-edged handle that was almost elementary.

Handle Length: 157mm / Rose: 28mm

Finish:

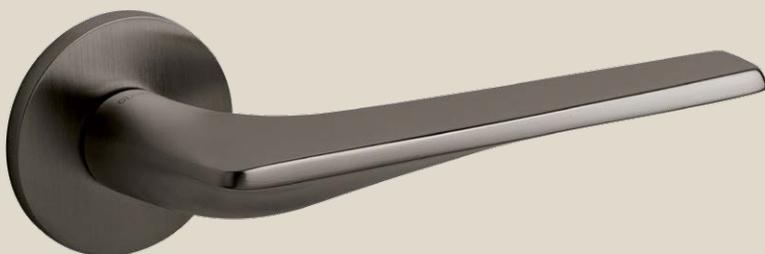

TREND

LEVER ON SQUARE ROSE

The idea for the Trend model originated in the Olivari company. The generously rounded, edge of the lever makes for a pleasant grip and softens the appearance of the austere shape.

Handle Length: 144mm / Rose: 51 x 51mm

Finish:

TWIST

LEVER ON ROUND ROSE

For Twist, torsion was adapted to the shape of a handle. Reducing the scale, the twisting movement was reproporioned to be of human size, in order to connect it directly to the body, the gesture of the hand, and its tactile perception.

Handle Length: 150mm / Rose Ø: 51mm

Finish:

PULL

DOOR HANDLES

Overview

Pull handles boast a history spanning over 5,000 years, with early examples appearing as simple rings, crude latches, and looped pulls in ancient Egypt and Mesopotamia. Today, pull handles serve as both practical hardware and striking aesthetic statements. Our collection features durable options crafted from stainless steel, solid brass, and steel as base materials, ensuring strength and longevity across residential, commercial, and architectural applications. They are available in an extensive range of finishes allowing seamless integration with any interior style, whether minimalist, industrial, classic, or bespoke.

LOCKS & CYLINDERS

Overview

Our locks and cylinders form the essential core of door security, with roller bolt or latch functions for convenient protection with seamless integration into modern door systems for both wooden and aluminium applications. We offer a comprehensive range of mortice lock types, including 3 lever, deadbolt, sashlocks and deadlocks for reliable everyday security, roller bolt latches for convenient push-pull operation and other specialized configurations to meet diverse needs—alongside an extensive selection of cylinder types and more. An integral part of any door with modern day technology and customer requirements they are now available in virtually every finish to match your specific handle.

BOLTS

BARREL, PAD & FLUSH

Overview

An often overlooked but critically important item for security or just to stop that banging door, our barrel and flush bolts provide reliable, discreet solutions for securing doors, gates, cabinets, and windows. Barrel bolts offer a sturdy, surface-mounted design with a sliding bolt mechanism ideal for added strength and easy operation, while flush bolts deliver a sleek, concealed installation that sits perfectly flush with the door surface for a clean, minimalist appearance.

Our bolts come in a wide variety of shapes, sizes, and luxurious finishes—including polished chrome, satin nickel, antique brass, oil rubbed bronze and more—to suit traditional, contemporary, or bespoke needs, ensuring both functionality and seamless style integration.

HINGES

FOR WOOD & ALUMINIUM DOORS

Overview

Our hinges deliver smooth, reliable, long-lasting performance while providing timeless style and precision engineering for both wooden and aluminium doors. We stock a wide variety and variations of hinges, from regular ball bearing butt hinges and traditional plain bearing options to modern square knuckle designs, fully concealed adjustable 3D hinges for seamless aesthetics, sinkless hinges for clean installations, continuous (piano) hinges for heavy-duty or full-length support, and many more specialized configurations—in multiple finishes to complement any project. Crafted from premium materials, our hinges are finished in an extensive range of popular and contemporary options to ensure perfect coordination with your door hardware, handles, and overall décor. Our hinges offer exceptional functionality, easy installation, and versatile style—perfect for architects, designers and homeowners.

DOOR ACCESSORIES

Overview

It's often the small things that make the most difference to complete the project perfectly. Handles Inc offers a carefully curated selection of door accessories designed to enhance functionality, seamless operation, and a well rounded finish. These include our sliding hardware solutions like barn door systems and ghost (invisible) tracks that deliver smooth, space-saving movement with understated elegance. Complementing these are essential self adhesive gasket seals for improved draught-proofing and sound reduction.

AUTOMATIC

DROPDOWN SEALS

Range
CCE

Base Materials
Aluminium

Overview

The Trend AL and Slim models are part of CCE's "Easy" range of automatic drop-down seals, designed for high-quality, cost-effective sealing under doors. The Trend AL (often listed as Trend A) is a compact, concealed model (e.g., 30x20 mm profile) suitable for aluminum or timber doors, offering strong acoustic performance with noise reduction from 32 dB to 39 dB Rw depending on the gasket type; it's rebated into the door base, activates on closing, and provides reliable barriers against sound, drafts, dust, and in some variants, smoke/fire.

The Slim is CCE's thinnest automatic drop-down seal (minimal profile, e.g., around 12 mm height), ideal for pivot doors, sliding doors, or applications needing a discreet fit. It features a soft silicone gasket and smooth activation mechanism for effective sealing against air, noise, insects, and more, while maintaining excellent acoustic and thermal insulation in a slim design. Both models emphasize durability, ease of installation, and energy-saving benefits for residential and commercial use.

AUTOMATIC DROP DOWN SEAL

The Trend AL Dropdown Seal provides a reliable and efficient solution for sealing aluminium or timber doors. Made with high-quality aluminum it ensures a secure fit for enhanced insulation.

WARRANTY STATEMENT

HANDLES INC provides the following warranty in relation to its products:

Warranty against defects in the materials and workmanship of the Product – 1 year from the date of installation / delivery unless specifically covered by the manufacturer for a longer period.

The warranty is subject to the following conditions:

1. The purchaser acknowledges that the products are not indestructible, and that some care in installation and maintenance is necessary. The warranty therefore excludes any damage caused by misuse or failure to adhere to the manufacturers installation specifications and guidelines or other cause other than defective materials or workmanship.
2. Any claim for warranty must be made, by contacting HANDLES INC at the address listed above, at the earliest stage that the defect becomes obvious to enable prompt action and to avoid further damage, and must be made no later than 1 month from the defect/date of repair becoming obvious.
3. If a defect covered by warranty appears before the end of the Warranty Period, then HANDLES INC will, in its sole discretion, either:
 - a. replace or repair the Product or defective part of the Product free of charge; or
 - b. refund the price of the product; or
 - c. re-supply the defective labour and workmanship; or
 - d. refund the price of the labour and workmanship.
4. Products presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the Products.
5. Any claim for warranty must be accompanied by appropriate documentation which stipulates the date of the installation, the invoice number, the customer name and address and the alleged defect.
6. The customer must make the product or workmanship available to HANDLES INC for inspection and testing. If HANDLES INC finds no fault in the Product or its workmanship, then the customer must pay HANDLES INC usual costs of service work, inspection and testing.

7. Warranty work will be conducted by HANDLES INC during normal working hours (8.00am to 4.30pm Monday to Friday).

8. No liability is accepted for, and this warranty does not apply to:

- a. fair wear and tear;
- b. defects arising due to installation of the Products where the Products were not installed by HANDLES INC suggested agents;
- c. any damage caused to the structures the Products are installed in, where the products were not installed by HANDLES INC suggested agents.
- d. damage caused by circumstances beyond HANDLES INC control.
- e. products that have been used other than for the purpose for which they were designed;
- f. defects that arise due to abuse, misuse or neglect;
- g. damage caused by exposure to abnormal conditions including but not limited to environment, temperature, water, fire, humidity, pressure, stress or similar;
- h. products that have been modified, built on or repaired;
- i. products that have not been maintained as recommended by HANDLES INC;
- j. maintenance items (which are the responsibility of the customer);
- k. products installed, maintained or operated other than in accordance with HANDLES INC instructions; and
- l. overhaul, replacement or repair works undertaken prior to approval from HANDLES INC of any warranty claim.

9. HANDLES INC makes no express warranties or representations other than set out in this warranty.

10. HANDLES INC reserves the right to alter product specifications at any time.

OLIVARI GUARANTEE

Guarantee Conditions

The guarantee covers only the first purchasing end-user and is valid for the period described above. Complaints must be made at the headquarters of the store where purchase was made. After the complaint has been accepted by Olivari s.p.a. technicians the guarantee covers the purchaser for, alternatively, free repair of the product, substitution of the same, or refund of the maximum amount of the price on the purchase receipt for said product. The guarantee is not extendable, and, therefore,

Olivari s.p.a. is not responsible for refunding any costs for shipping and/or delivery, disassembly and/or reassembly of the product. Furthermore, no other damage will be reimbursed even if due to product non compliance.

Guarantee Exceptions

Not covered by guarantee is damage caused by:

- not following assembling instructions
- not following maintenance instructions or using cleaning products not recommended
- blunt and/or sharp objects
- improper use and use not consistent with normal use of the product.

Guarantee Period

The guarantee period changes according to the finish type and begins on the day of purchase by the first end-user:

SuperGold bright and satin: guaranteed for 30 years.

SuperNickel bright and satin: guaranteed for 30 years.

SuperStainlessSteel satin: guaranteed for 30 years.

SuperCopper satin: guaranteed for 10 years.

SuperBronze satin: guaranteed for 10 years.

SuperAnthracite satin: guaranteed for 10 years.

FINISHES

Galvanic Finishes

The handle is protected by a layer of chrome. Galvanisation of the brass handle gives it a protective metal coat of nickelchromium to guard against wear and corrosion.

PVD Finishes

With physical vapour deposition, a polished or satin-finish chrome handle is coated with an ulterior layer of metal (superfinishing) under high vacuum. Vacuum metallisation is extremely hard and durable. Nano composites of metal determine the specific colour of the surface and protect it from wear, scratches and aggressive substances such as humidity, sweat, salt spray, temperature swings and ultraviolet rays.

Superfinish®

Superfinish is a new technological finishing cycle patented by Olivari after having developed and perfected it in its factories. It consists of depositing metal composites, with special features, on brass in titrated alloy.
