

IRIDESCENT WINGS

The journey of Banjo Hakkō

A destined one by the Hollow Tree,

the young exorcist from
the land of Xenokuni

allows himself to dream of
places beyond his own.

A whimsical illustration featuring a winged girl with long, flowing purple hair and large, translucent wings. She has a small crown and is looking down with a gentle smile. Beside her, a boy with a long brown ponytail and a dark robe is flying on a broom. The background is a deep blue night sky filled with stars, constellations, and a crescent moon. Below them, a silhouette of a city with various buildings and a church spire is visible. The overall style is soft and dreamlike, with a color palette dominated by purples, blues, and whites.

Bright-eyed and wing-bearing,

as unrestrained as his determination,

what he sought the most was to soar
through limitless skies.

But even a free bird mustn't fly across
the eternal blue alone,

for the Hollow Tree had
its plans in design.

He would meet new friends and allies during his deep travels, and in time,

the exorcist's path led him to something greater

than simply dreams.

A boy with a kind heart and
selfless character,

looking to provide and share parts
of his person to the vast world

that comes in contact with him.

Whether in the form of music,
culinary, or words of advice –

little by little, he would leave his mark
in the living history of Elysium.

Festivals are due for every successful adventure, but never without company.

Within a week, a celebration is directed towards Tempus and all it represents.

For he is part of a guild and a second family,

not a boring or lonely day in sight.

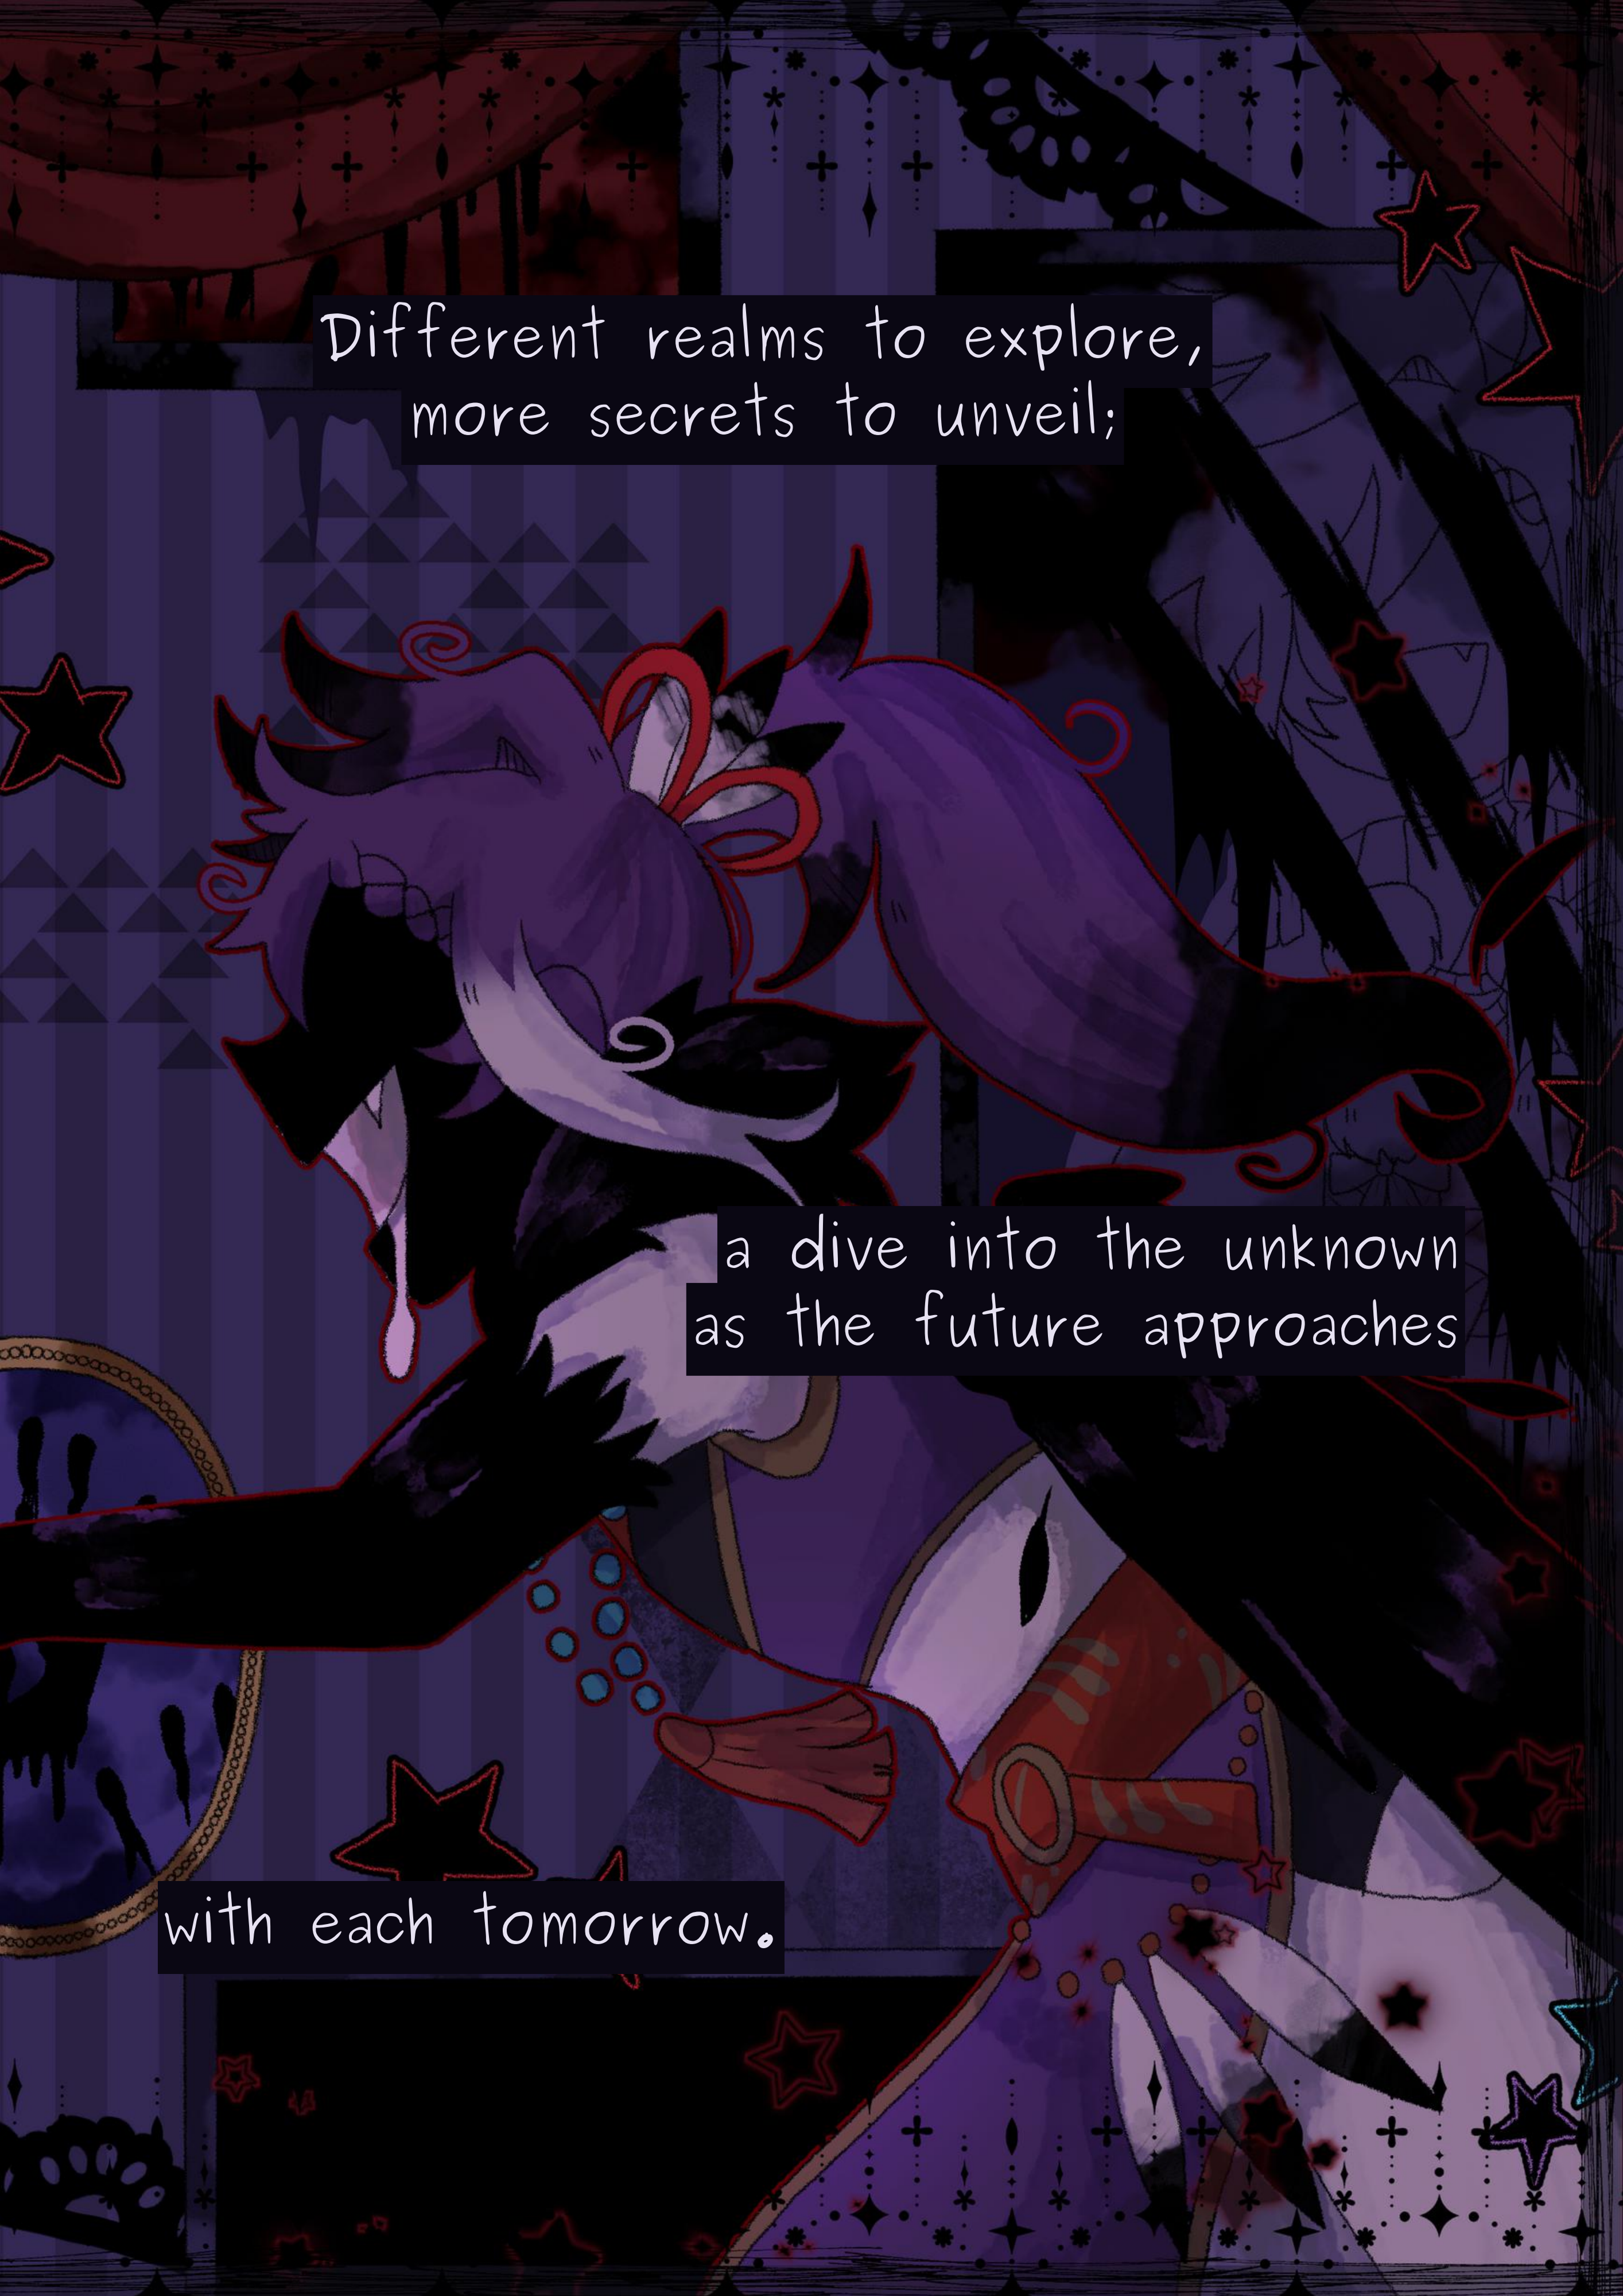

A place that now he belongs to.

A character with short, spiky purple hair and a large white cape with a purple trim. They have blue eyes and pink cheeks. They are wearing a dark blue or black top with a gold collar and a blue gem. The background is dark purple with a checkered pattern, stars, and a large, stylized figure in the upper right.

Yet upon the discovery of
a parallel universe,

reflecting a mirror image to
what is known by Elysium,

a newly made hero's tale
has only begun.

Different realms to explore,
more secrets to unveil;

a dive into the unknown
as the future approaches

with each tomorrow.

With that, more faces will arrive
into the scene,

an ever-growing cast to
transform his story

and accompany him
in every endeavor.

A brand new chapter officially begins,
and now much higher than the skies,

his journey shall pave the way

across the stars.

Thank you
for reading!

Happy first anniversary, Hakka!

Let's write our history in
the stars together!
