Elliptical Trainer

An outdoor version of the best-known indoor cardio machine is now available from BeStrong. The elliptical trainer is an excellent cardio and endurance training tool. The elliptical trainer is an easy way to strengthen the trunk, buttocks and thigh muscles without putting strain on the user's joints and is therefore highly recommended for all ages.

Installation information

Number of installers (concrete)	At least 2 people
Total installation time (concrete)	80-140 min.
Number of installers (equipment)	At least 2 people
Total installation time (equipment)	60-90 min.
Excavation volume	1.15 m ³
Concrete volume	1.15 m ³
Size of the base structure	0,8 x 1,8 x 0,8 m
Anchoring options	Surface mounted
In combined structures, the volume of concrete required varies.	

Technical specification

Safety surface area	Around 1,5 m radius
Net weight	113 kg
Material	S235, KO33
Critic fall height	580 mm
Color options	
For more color options, discuss with your sales representative.	

Warranty

Structure	10 years
Steel	5-10 years
Paint	2 years
Plastic	5-10 years
Rubber	1-3 years
Moving parts	2 years
Detailed information in the warranty document	

Material specification

The element is made of high quality S235 steel, which has been cleaned via sandblasting. A corrosion resistant powder coating finish is then applied. Also available with galvanized surface for even greater protection and longevity!

The footrests are made of premium quality non-slip HDPE with a high wear resistance.

The device is equipped with an ergonomic non-slip HDPE phone holder for convenience.

At the end of the arms, the handle is rubber-coated for a more comfortable and secure grip.

The device is fitted with composite bearings that are weather-resistant. The bearing does not require regular maintenance.
