DEC 5 EVENTS OVER 5 DAYS FOR 350 TO 450 GUESTS EACH DAY

Your Experience

Alice

Our 2025 Alice and Hatter Tea Party menus have been created by our award winning team, using the finest ingredients and is in keeping with the story.

Every event starts with personalised menu cards on the tables, mis matched China and A1 welcome board and easel.

The service can be sit down or buffet style both are visually stunning and no two experiences are the same until we see the space and we have set requirements for both. We have an ever growing collection of props that create different scenes and the entrance and garden spaces are bespoke creations

Setting the Scene

Each event we create is unique and we have built up a collection of props that help us to create the truly Alice look. Some clients have requested bespoke elements like the entrance on the front of this presentation, they still use it to this day. It takes a team to create the experience from two to five team members and the set designer and pastry chef decide which props are best to use, feel free to add your own or make suggestions

up lighters,
electric and real candles,
