Discover Your Future

Your Future is Here

The Women's College isn't just a place to live – it's where your future begins. Here, you're empowered to explore, grow, and define your own journey in a supportive and vibrant community.

Community & Connections

Leadership & Growth

Cultural & Sporting Excellence

"Oh, the places you'll go" by Dr Seuss is an example of the opportunities Women's College will provide you. Never did I imagine I would feel such a responsibility and inspiration through my leadership role as a Resident Assistant. To also receive a scholarship and the recognition that comes with it motivates me every day, and to be surrounded by mentors, industry alumnae, and passionate Woozas guides me and provides me with the confidence to believe I can get there.

2025 Resident Assistant

The culture of support and growth that exists at Women's has pushed me outside of my comfort zone in the best possible ways. Through opportunities such as Women's Industry Night, receiving the inaugural Committee for Brisbane Prize, hearing from esteemed guest speakers, and participating in the Career Mentoring Program, I have made invaluable industry connections that led to my first-ever corporate 'big-girl' job and will guide me through my career! Women's has opened doors, both professionally and personally, that Year 12 me would've never thought possible, for which I am forever grateful.

Tara Lavery (pictured with alumna Anna Bligh AC)
2025 Vice President

This year, I've grown significantly through my leadership position at The Women's College. Hosting the *Voices of Influence* podcast strengthened my communication and interview skills, while leading the Student Photography and College Yearbook teams has given me valuable experience in creative direction and team management. These opportunities have not only built my confidence but also equipped me with practical skills that directly align with my future career in the marketing and creative industries.

Sarah Pearce (pictured left with podcast guest Phoebe Lingard)
2025 Communications Representative

My time at Women's has provided me with unique leadership opportunities, empowering me to gain essential skills and career readiness. As Deputy Senior Resident Assistant this year, I organised the inaugural Associate Breakfast and facilitated the Dinner with a Wooza Q&A panel discussion. Additionally, I was lucky enough to be introduced to an amazing career mentor and alumna, who is helping me to further my professional development and get ready for life after uni and College. The Women's experience embodies the *Ready to Lead* mantra and has provided me with opportunities unmatched by any other university experience.

Ella Reddaway (pictured left)
2025 Deputy Senior Resident Assistant

Be Inspired, Inspire Others

Your future is waiting – take the first step at Women's College, where you'll find the support to grow, the courage to lead, and the inspiration to shape your own extraordinary story.

Let's Connect! Follow our journey and see why our residents love life at Women's.
